Zone Michael Beckley, Hal Brands, 2022-08-16 A provocative and urgent analysis of the U S China rivalry It has become conventional wisdom that America and China are running a superpower marathon that may last a century Yet Hal Brands and Michael Beckley pose a counterintuitive question What if the sharpest phase of that competition is more like a decade long sprint The Sino American contest is driven by clashing geopolitical interests and a stark ideological dispute over whether authoritarianism or democracy will dominate the 21st century But both history and China s current trajectory suggest that this rivalry will reach its moment of maximum danger in the 2020s China is at a perilous moment strong enough to violently challenge the existing order yet losing confidence that time is on its side Numerous examples from antiquity to the present

show that rising powers become most aggressive when their fortunes fade their difficulties multiply and they realize they must achieve their ambitions now or miss the chance to do so forever China has already started down this path Witness its aggression toward Taiwan its record breaking military buildup and its efforts to dominate the critical technologies that will shape the world's future Over the long run the Chinese challenge will most likely prove more manageable than many pessimists currently believe but during the 2020s the pace of Sino American conflict will accelerate and the prospect of war will be frighteningly real America Brands and Beckley argue will still need a sustainable approach to winning a protracted global competition But first it needs a near term strategy for navigating the danger zone ahead *Smokeless War* Manoj Kewalramani, 2021-06-28 In January 2020 the COVID 19 outbreak in China was viewed as a black swan event threatening the Communist Party's rule Two short months later however China appeared to have controlled the virus while the rest of the world struggled to respond As country after country imposed lockdowns of varying strictness and the human cost began to rise geopolitical frictions flared up over the origins of the virus along with Beijing's early failures diplomacy and discourse *Smokeless War China's Quest for Geopolitical Dominance* offers a gripping account of the Communist Party of China's political diplomatic and narrative responses during the pandemic Drawing on the latest academic research and Chinese language sources it discusses the Party State's efforts to achieve greater discourse power and political primacy as it sought to convert a potentially existential crisis into a historic opportunity In doing so the author provides an insightful account of the Communist Party of China's approaches to cultivating sources of strength and exercise of power *Report to Congress of the U.S.-China Economic and Security Review Commission* U.S.-China Economic and Security Review Commission, 2014
