Owen Lattimore and the Loss of China Robert P. Newman, 2021-01-08 This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1992 [The Lost Chance in China and the Rise of Cold War Populism](#) Stephen J. Hartnett, 2025-10-01 The Lost Chance in China and the Rise of Cold War Populism offers a rollicking retelling of the fate of America's diplomats stationed in China during World War II and the start of the Chinese Civil War documenting how their efforts to find peace in China clashed with the anti Communist network of right wing advocates known as the China Lobby Fueled by America's end of the war fury over the loss of China to Mao and the Communists the on the ground experts in Asia lost the public relations battle to Cold War populists who pushed a toxic version of public anger that built the rhetorical foundation of McCarthyism Hartnett diagnoses the moment's political battles by mapping a series of interlocking dispositions emotion based reactions that short circuited critical thinking and empathy instead feeding strident anti Communism xenophobia and class based resentments Hartnett's masterwork offers a haunting prehistory to our contemporary moment when populism again stokes outrage and fear at the cost of nuanced international understanding

No Ordinary Woman Angela Penrose, 2018 A biography of one of the most under rated economists of the 20th century whose own remarkable and eventful life paralleled key events of the twentieth century Edith Penrose's work is now the cornerstone of current work in business strategy and entrepreneurship *Negotiating China's Destiny in World War II* Hans van de Ven, Diana Lary, Stephen MacKinnon, 2014-12-03 Negotiating China's Destiny explains how China developed from a country that hardly mattered internationally into the important world power it is today Before World War II China had suffered through five wars with European powers as well as American imperial policies resulting in economic military and political domination This shifted dramatically during WWII when alliances needed to be realigned resulting in the evolution of China's relationships with the USSR the U S Britain France India and Japan Based on key historical archives memoirs and periodicals from across East Asia and the West this book explains how China was able to become one of the Allies with a seat on the Security Council thus changing the course of its future Breaking with U S centered analyses which stressed the incompetence of Chinese Nationalist diplomacy Negotiating China's Destiny makes the first sustained use of the diaries of Chiang Kai shek which have only become available in the last few years and who is revealed as instrumental in asserting China's claims at this pivotal point Negotiating China's Destiny demonstrates that China's concerns were far broader than previously acknowledged and that despite the country's military weakness it pursued its policy of enhancing its international stature recovering control over borderlands it had lost to European imperialism in the nineteenth and early twentieth century and becoming recognized as an important allied power with determination and

success Mongolia in the Twentieth Century Stephen Kotkin, Bruce Allen Elleman, 2015-02-12 The remote vastness of Mongolia has remained somewhat of a mystery to most Westerners no less so in the 20th century Homeland of the legendary conqueror Chingiz Khan in modern times Mongolia itself has been the object of imperial rivalry For most of the 20th century it was under Soviet domination Mikhail Gorbachev began the withdrawal of Soviet troops from Mongolia in 1989 a process completed in 1992 By 1996 a coalition of opposition parties triumphed in national elections and Mongolia launched itself on a new course It is perhaps the most intriguing of the post community transition societies This volume examines Mongol history over the past century embracing not only Mongolia proper but also Mongol communities in Russia and China Contributions based on new archival research and the latest fieldwork are from the world's top experts in the field including four authors from Mongolia and others from Japan Russia Taiwan Great Britain and the United States Stephen Kotkin's introductory chapter is an overview of Mongol studies The essays in part 1 examine Sino Russian competition over Outer Mongolia Part 2 looks at international diplomacy in Mongolia including the role of Japan Part 3 focuses on contemporary issues ranging from economic and cultural change to emergent elites A concluding essay surveys Mongolian foreign policy *Pearl S. Buck* Peter Conn, 1998-01-28 One of the most popular novelists of the twentieth century winner of a Pulitzer and Nobel Prize for Literature and an active social and political campaigner particularly in the field of women's issues and Asian American relations Pearl Buck has until now remained hidden in public view Best known perhaps as the prolific author of *The Good Earth* Buck led a career which extended well beyond her eighty works of fiction and non fiction and deep into the public sphere In this critically acclaimed biography Peter Conn retrieves Pearl Buck from the footnotes of literary and cultural history and reinstates her as a figure of compelling and uncommon significance in twentieth century literary cultural and political history **The Cold War: Cold War espionage and spying** Lori Lyn Bogle, 2001 This volume is a comprehensive collection of critical essays on *The Taming of the Shrew* and includes extensive discussions of the play's various printed versions and its theatrical productions Aspinall has included only those essays that offer the most influential and controversial arguments surrounding the play The issues discussed include gender authority female autonomy and unruliness courtship and marriage language and speech and performance and theatricality **Perceptions of China and White House Decision-Making, 1941-1963** Adam S.R. Bartley, 2019-11-26 This book assesses and evaluates the decision making behavior of United States presidents and their chief advisers from Roosevelt to Kennedy pertaining to China Seeking to dispel with the notion that each administration sought policy outcomes on the basis of a rational decision making model Bartley highlights the contradictions of adopted presidential decision making processes and the nature of domestic politics as playing prejudicial and debilitating roles The book demonstrates that elite decision making processes interacted with assumptions made about Chinese behavior interests and attitudes only superficially and in some cases not at all Misinformation and misperception were the natural outcomes Reinforced by the politics of McCarthyism at home intellectual

debate on China policy was squashed parochialism and nuance were shunned and information was closed off Ultimately a divorce between the norm of behavior and the search for rational policy was registered in each administration The net result was a lasting and destructive cognitive dissonance to fit expectations of a China reality constructed information was ignored overlooked and distorted Offering new insights into the China policies of consecutive administrations from 1941 to 1963 this volume will be of great interest to scholars and students of American foreign policy security studies and international relations
