

The Penalty Phase

During the penalty phase, the jurors hear about **aggravating circumstances** and **mitigating circumstances**.

- *Aggravating circumstances* are things that make the crime more offensive to the public, such as when the victim of a murder is a child or a police officer.
- *Mitigating circumstances* are things that make the defendant less culpable for his or her crimes.

If the jury cannot unanimously agree on the death penalty, then most jurisdictions have legislation that provides for an automatic life sentence.

Bohm, 2011-08-15 This fourth edition of the first true textbook on the death penalty engages the reader with a full account of the arguments and issues surrounding capital punishment The book begins with the history of the death penalty from colonial to modern times and then examines the moral and legal arguments for and against capital punishment It also provides an overview of major Supreme Court decisions and describes the legal process behind the death penalty In addressing these issues the author reviews recent developments in death penalty law and procedure including ramifications of newer case law such as that regarding using lethal injection as a method of execution The author's motivation has been to understand what motivates the deathquest of the American people leading a large percentage of the public to support the death penalty The book will educate readers so that whatever their death penalty opinions are they are informed ones

The Death Penalty in the United States Louis J. Palmer, Jr., 2013-10-17 The death penalty landscape has changed considerably since the 1998 first edition of this book For example six states that had the death penalty Connecticut Illinois Maryland New Jersey New Mexico and New York no longer impose the punishment Some of the changes set out in this second edition involve discussions of all of the significant cases decided by the United States Supreme Court after 1998 including Roper v Simmons 543 U S 551 2005 Atkins v Virginia 536 U S 304 2002 Schriro v Smith 126 S Ct 7 2005 Harbison v Bell 129 S Ct 1481 2009 Holmes v South Carolina 126 S Ct 1727 2006 Kansas v Marsh 126 S Ct 2516 2006 Ring v Arizona 536 U S 584 2002 Sattazahn v Pennsylvania 537 U S 101 2003 This new edition includes 13 new chapters They cover such topics as capital felon's defense team habeas corpus coram nobis and section 1983 proceedings the Innocence protection act and post conviction DNA testing challenging the death sentence under racial justice acts inhabited American territories and the costs of capital punishment

The Contradictions of American Capital Punishment Franklin E. Zimring, 2004-11-18 Why does the United States continue to employ the death penalty when fifty other developed democracies have abolished it Why does capital punishment become more problematic each year How can the death penalty conflict be resolved In *The Contradictions of American Capital Punishment* Frank Zimring reveals that the seemingly insoluble turmoil surrounding the death penalty reflects a deep and long standing division in American values a division that he predicts will soon bring about the end of capital punishment in our country On the one hand execution would seem to violate our nation's highest legal principles of fairness and due process It sets us increasingly apart from our allies and indeed is regarded by European nations as a barbaric and particularly egregious form of American exceptionalism On the other hand the death penalty represents a deeply held American belief in violent social justice that sees the hangman as an agent of local control and safeguard of community values Zimring uncovers the most troubling symptom of this attraction to vigilante justice in the lynch mob He shows that the great majority of executions in recent decades have occurred in precisely those Southern states where lynchings were most common a hundred years ago It is this

legacy Zimring suggests that constitutes both the distinctive appeal of the death penalty in the United States and one of the most compelling reasons for abolishing it Impeccably researched and engagingly written Contradictions in American Capital Punishment casts a clear new light on America s long and troubled embrace of the death penalty **Murder Stories** Paul Kaplan, 2012-01-18 Murder Stories engages with the current theoretical debate in death penalty research on the role of cultural commitments to American ideologies in the retention of capital punishment The central aim of the study is to illuminate the elusive yet powerful role of ideology in legal discourses Through analyzing the content and processes of death penalty narratives this research illuminates the covert life of the American Creed a nexus of ideologies liberty egalitarianism individualism populism and laissez faire said to be unique to the United States in the law Murder Stories draws on the entire record of California death sentence resulting trials from three large and diverse California counties for the years 1996 2004 as well as interviews with 26 capital caseworkers attorneys judges and investigators from the same counties Employing the theoretical framework proposed by Ewick and Silbey 1995 to study hegemonic and subversive narratives and also the ethnographic approach advocated by Amsterdam and Hertz 1992 to study the producers and processes of constructing legal narratives this book traces the ideological content carried within the stories told by everyday practitioners of capital punishment by investigating the content process and ideological implications of these narratives The central theoretical finding is that the narratives constructed by both prosecutors and defenders tend to instantiate rather than subvert the ideological tenets of the American Creed *California. Court of Appeal (1st Appellate District). Records and Briefs* California (State)., Received document entitled PETITION FOR RECALL **Social Research in the Judicial Process** Wallace D. Loh, 1984-09-17 How to inform the judicial mind Justice Frankfurter remarked during the school desegregation cases is one of the most complicated problems Social research is a potential source of such information Indeed in the 1960s and 1970s with activist courts at the forefront of social reform the field of law and social science came of age But for all the recent activity and scholarship in this area few books have attempted to create an intellectual framework a systematic introduction to applied social legal research Social Research in the Judicial Process addresses this need for a broader picture Designed for use by both law students and social science students it constructs a conceptual bridge between social research the realm of social facts and judicial decision making the realm of social values Its unique casebook format weaves together judicial opinions empirical studies and original text It is a process oriented book that teaches skills and perspectives cultivating an informed sensitivity to the use and misuse of psychology social psychology and sociology in appellate and trial adjudication Among the social legal topics explored are school desegregation capital punishment jury impartiality and eyewitness identification This casebook is remarkable for its scope its accessibility and the intelligence of its conceptual integration It provides the kind of interdisciplinary teaching framework that should eventually help lawyers to make knowledgeable use of social research and social scientists to conduct useful research within a legally sophisticated context

Watch Everything Charles A. Shaw, 2013-10 Charles A Shaw grew up in a segregated African American neighborhood in St Louis His tight knit community supported him and he was inspired to become first a teacher and then a lawyer From there he worked his way up to federal prosecutor and state judge before President Bill Clinton appointed him to the federal bench

Shaw quickly became dismayed by the inequality and severity of mandatory U S sentencing guidelines and how they affected young African American men Prosecutors opposed him at every turn as he sought to impose fair sentences but he never wavered in seeking to promote equality and curb the destruction of African American families This insightful and at times humorous narrative demonstrates Shaw s love for family hard work and God Including an insider s view of an often unjust legal system tales of working alongside some of the best legal minds in the country and challenges to prevailing concepts Watch Everything offers a rare glimpse into the professional life of an unconventional federal judge **FBI Law Enforcement Bulletin** ,2005 *California. Committee on the Judiciary. Subcommittee on the Constitution,2003 *Death by Design* Craig Haney,2005-08-04 How can otherwise normal moral persons as citizens voters and jurors participate in a process that is designed to take the life of another In DEATH BY DESIGN research psychologist Craig Haney argues that capital punishment and particularly the sequence of events that lead to death sentencing itself is maintained through a complex and elaborate social psychological system that distances and disengages us from the true nature of the task Relying heavily on his own research and that of other social scientists Haney suggests that these social psychological forces enable persons to engage in behavior from which many of them otherwise would refrain However by facilitating death sentencing in these ways this inter related set of social psychological forces also undermines the reliability and authenticity of the process and compromises the fairness of its outcomes Because these social psychological forces are systemic in nature built into the very system of death sentencing itself Haney concludes by suggesting a number of inter locking reforms derived directly from empirical research on capital punishment that are needed to increase the fairness and reliability of the process The historic and ongoing public debate over the death penalty takes place not only in courtrooms but also in classrooms offices and living rooms This timely book offers stimulating insights into capital punishment for professionals and students working in psychology law criminology sociology and cultural area studies As capital punishment receives continued attention in the media it is also a necessary and provocative guide that empowers all readers to come to their own conclusions about the death penalty
