Attachment of Assets Lawrence W. Newman, 2014-03-01 Practitioners from leading firms in over 90 countries provide practical information about procedural and substantive issues regarding attachment of assets Because the availability of attachments in advance of judgments can make the difference between success and failure in a lawsuit for money damages and because attachments may often be obtained in places far removed from the venues of proceedings on the merits it is important for litigation counsel to be aware of the potential for multi jurisdictional assaults on the assets of their clients or of their clients adversaries Attachment of Assets is designed to give practical information and guidance to lawyers and businessmen who are interested in securing expected future judgments and in making strategic decisions concerning the deployment of moveable assets in the face of possible attachments of them The chapters each discussing the requirements of a separate country are written by lawyers with practical expertise in this field The procedure by which attachments are obtained vary ranging from court orders authorizing a court official to take custody of a defendant's assets to orders restraining the defendant from transferring his assets The effects of such orders differ as well some create a lien superior to those of other creditors and others do no more than immobilize the debtor's assets leaving them open to being levied upon by later arriving judgment creditors Countries vary in the ways in which they permit attachments to be carried out whether for example all of the banks in a given city may be served with attachment notices or orders They vary as well with respect to the information that is imparted to the attaching creditor after attachment orders have been served Some rules make available to creditor information concerning the value of assets on which they have successfully levied while others leave creditors in the dark or dependent on informal hints from garnishees as to whether or not pay dirt has been struck Most importantly jurisdictional requirements for the issuance of attachment orders are not similar Some countries permit attachments only if the defendant is subject to the jurisdiction of their courts with respect to the merits of the case Others are less demanding permitting attachments solely on the basis and to the extent of the presence of the assets successfully attached It is probably fair to say that in many foreign jurisdictions the protection of creditors through fraudulent conveyance laws and the like is inadequate or even as a practical matter unavailable The enforcement of judgments is therefore often dependent on a creditor's ability to obtain early even prior to the commencement of a lawsuit a prejudgment attachment or the equivalent of his debtor's assets The extent to which attachments are obtainable in various countries of the world and the basis under which they may be obtained under local law are the focus of Attachment of Assets

Format of Publication Organized in a uniform question and answer format that addresses the receptiveness of each country toward the attachment of assets the procedural requirements for filing for attachment reciprocity treaty provisions and defenses Every Chapter is organized with the same special three part arrangement allowing you to quickly and easily locate the information you need for each country Part I contains a survey of the current attitude of each country s courts and government toward the attachment of assets including anticipated changes and recent cases Part II discusses procedure the judgment creditor must follow to file for the attachment of assets in the other country including translation of the judgment currency conversion attorneys fees and recovery of interest Part III summarizes the requirements the judgment creditor must meet for attachment and the defense the judgment and the defenses the judgment debtor must establish to prevent attachment

The Separation of Powers and Legislative Interference in Judicial Process Peter

Gerangelos,2009-04-10 This book examines the constitutional principles governing the relationship between legislatures and courts at that critical crossroads of their power where legislatures may seek to intervene in the judicial process or to interfere with judicial functions to secure outcomes consistent with their policy objectives or interests Cases of high political moment are usually involved where the temptation indeed political imperative for legislatures to intervene can be overwhelming Although the methods of intervention are various ranging from the direct and egregious to the subtle and imperceptible unbridled legislative power in this regard has been a continuing concern in all common law jurisdictions Prominent examples include direct legislative interference in pending cases usurpation of judicial power by legislatures limitations on the jurisdiction of courts strategic amendments to law applicable to cases pending appeal and attempts directly to overturn court decisions in particular cases Because the doctrine of the separation of powers as an entrenched constitutional rule is a major source of principle the book will examine in detail the jurisprudence of the United States and Australia in particular These jurisdictions have identical constitutional provisions entrenching that doctrine as well as the most developed jurisprudence on this point The legal position in the United Kingdom which does not have an entrenched separation of powers doctrine will be examined as a counterpoint Other relevant jurisdictions such as Canada Ireland and India are also examined in the context of particular principles particularly when their respective jurisprudence is rather more developed on discrete points The book examines how the relevant constitutional principles strive to maintain the primacy of the law making role of the legislature in a representative democracy and yet afford the decisional independence of the judiciary that degree of protection essential to protect it from the legislature s impetuous vortex to borrow the words of James Madison from The Federalist No 48
