Notework Simon Reader,2021-06-22 Notework begins with a striking insight the writer s notebook is a genre

in itself Simon Reader pursues this argument in original readings of unpublished writing by prominent Victorians offering an expansive approach to literary formalism for the twenty first century Neither drafts nor diaries the notes of Charles Darwin Oscar Wilde Gerard Manley Hopkins Vernon Lee and George Gissing record ephemeral and nonlinear experiences revealing each author s desire to leave their fragments scattered and unused Presenting notes in terms of genre allows Reader to suggest inventive new accounts of key Victorian texts including The Picture of Dorian Gray On the Origin of Species and Hopkins s devotional lyrics and to reinterpret these works as meditations on the ethics of compiling and using data In this way Notework recasts information collection as a personal and expressive activity that comes into focus against large scale systems of knowledge organization Finding resonance between today s digital culture and its nineteenth century precursors Reader honors our most disposable improvised and fleeting written gestures *Oscar Wilde's Society Plays* Michael Y. Bennett,2016-01-12 As the first collection of essays about Oscar Wilde s comedies the contributors re evaluate Oscar Wilde s society plays as comedies of manners to see whether this is actually an apt way to read Wilde s most emblematic plays Focusing on both the context and the texts the collection locates Wilde both in his social and literary contexts 222 Steven Carter,2008 222 Aphorisms Reflections is an attempt to breathe new life into the art of the aphorism and the brief reflection or meditation brought to near perfection in Western culture over the last five centuries by Pascal La Rochefoucauld Lichtenberg Nietzsche Kafka E M Cioran Karl Kraus Fernando Pessoa and many others About four in ten of the entries in 222 consist of conversations between Steven Carter and aphorists of the past including many of the above In publishing this initial volume of a projected multi volume work Carter hopes to join the ranks of current aphorists and anthologists James Richardson and James Geary to name two whose recent works help to further the grand tradition of the aphorism which began in ancient Greece with Hippocrates the West s first known aphorist While 222 is primarily intended for a general college educated audience everyone can enjoy a good aphorism as the Americans Josh Billings Will Rogers and especially Mark Twain have shown *The Political Economy of Prosperity* Peter Murphy,2019-10-24 Why do some nations and cities attain high levels of economic and social prosperity What makes them so successful The kinds of factors habitually cited in answer to these questions explain why nations improve their economic and social performance but not why a small group of nations or cities perform much better than the rest Economists stress efficient markets effective industries and functional factors like transport health education and infrastructure Political scientists emphasize honest and democratic government This book argues that three further factors are key paradoxes patterns and portals To an unusual degree the world s most prosperous economies and societies think and act paradoxically At their core are enigmatic puzzle like belief systems that elicit cooperation via abstract patterns rather than personal connections They are often accompanied by high levels of autodidactic self directed learning and intense creation in the arts and sciences These factors when combined facilitate large scale interactions between strangers and in so doing they energize markets industries cities and publics Pattern based

political economies are especially prominent in the portal cities regions and nations that are concentrated along the world's maritime circumference in North America East Asia North Western Europe and Australasia It is only by integrating additional cognitive cultural creative and geographic elements that we can truly understand the successes of prosperous economies This book represents a significant contribution to the literature on political economy economic growth and prosperity The Industrial Diet Anthony Winson,2014 Provides all the evidence anyone needs to understand the problems with our current food system Marion Nestle Professor of Nutrition Food Studies and Public Health at New York University A hugely informative book stocked full of careful analysis Amy Best Associate Professor of Sociology George Mason University

Compelling Conversations Eric H. Roth,Toni Aberson,2011-03 This English as a Foreign Language EFL textbook includes thematic chapters to create quality conversations and uses conversation starters interview questions classic quotations paraphrasing exercises and traditional proverbs to create hours of English conversation and class discussions for native Vietnamese speakers Culture, Madness and Wellbeing Jason Lee,2023-12-12 This book is a unique study of the historical theoretical and cultural interpretations of madness including interviews with those who have experiences of madness It takes a transdisciplinary approach employing historical psychological and sociological perspectives through an intersectional lens This work explains how the prioritization of thinking over feeling in Western thought means the transrational imagination has frequently been negated in tackling mental health with detrimental results This book therefore examines creative media especially film as a transrational form of human expression for healing and wellbeing along with television theatre social media music and computer games Madness with regards to gender sexuality adolescence and class in media and film is interrogated as well as madness and race through a focus on colonialism post colonialism and psychiatry It analyses group psychosis including celebrity culture and the madness of leaders and gurus This book challenges the lasting influence of the Age of Reason by furthering our understanding of the value of transrationality and the diverse ways of being human

Cross-Shaped Leadership John A. Berntsen,2008-11-07 For Lutheran pastor John Berntsen the cross is about more than the crucifixion on Good Friday It is shorthand for the whole drama of salvation God's decisive act of reconciling the world to God's own self The cross is dying and rising with Christ but at a deeper level it is the story of the world's resistance to grace Those who lead are subject to the cross no less than others In contrast with the current fashion for visionary or purpose driven leaders cross shaped leaders are not primarily the providers of master plans nor are they master builders Cross shaped leadership is provisional contextual and fallible open ended ministry that has the character of a pilot project It is always under construction and revision Our moment by moment functioning in ministry is subject to countless deaths and resurrections few of which are heroic or glorious But Berntsen offers good news within this potentially dismal perspective He writes Once we've accepted the truth that ministry is hard even impossible once we've stopped living in denial of this reality or perhaps whining about it it becomes the truth that sets us free We cease being gloomy servants weighed down by our

resentful conviction that we are all alone in our work the closet atheism born of the worry If I don t do it nobody will and instead become joyful coworkers of a strong wise and consoling Lord With optimism humor and deep empathy Berntsen s Cross Shaped Leadership offers hope and challenge in the midst of the rough and tumble of parish practice The British National Bibliography Arthur James Wells,2003 English Journal ,2003
