

Winston Smith lives in a society where the government controls people every second of the day. He fights this world with love. But it's dangerous: love for another person can be punished by death – and Big Brother is always watching.

Orwell's classic story shows that there is no freedom unless ideas and beliefs can be questioned. This is as true today as when it was written, more than fifty years ago.

Dialogue and Difference Peter Brooker, Peter Humm, 2013-10-08 First Published in 2002 Modes and categories inherited from the past no longer seem to fit the reality experienced by a new generation New Accents is intended as a positive response to the initiative offered by such a situation Each volume in the series will seek to encourage rather than resist the process of change to stretch rather than reinforce the boundaries that currently define literature and its academic study This selection of essays is an attempt to open up some of the as yet unsurveyed territory of English Studies and to introduce a new more positive tone and greater range of voices to discussions of the future of the subject Children's Books in Print, 2007, 2006 **Subject Guide to Books in Print**, 1996 *Transcending Boundaries* Gisela Hermann-Brennecke, 2007 This volume presents 16 essays by friends and colleagues celebrating Gisela Hermann Brennecke's 60th birthday Since the early 1970s when she emerged as one of the outstanding German specialists in language acquisition and language teaching she has been active in research and teaching at various German universities and abroad The wide range of Gisela Hermann Brennecke's research interests and publications transcending boundaries is mirrored in the diversity of the contributions in this volume language learning and language policy studies in English American and Postcolonial literatures and cultures creative writing *Drama in the English Classroom* Ken Byron, 2025-06-02 First published in 1986 Drama in the English Classroom demonstrates the contribution of drama in an English classroom It suggests that drama activities language work and the reading of fiction can all enrich each other in ways which promote the aims of the English teacher The author draws on his own classroom experience and on that of the teachers whom he guided on long term in service work through the process of learning to use drama effectively He offers many examples to illustrate the opportunities and the problems of using drama in English Planning key drama strategies major pitfalls evaluation and the rewards of drama are examined from the viewpoint of an English teacher who senses that drama has a great deal to offer in the classroom but is at first unsure of what and how As major part of his book is presented in form of a teacher's journal we see the author trying things reflecting on the result talking to a more experienced colleague and steadily finding out what drama can contribute and how he can achieve this in his teaching This book is an encouraging and helpful guide for anyone who wishes to use drama effectively but is unsure of the first steps **The Thomas Hardy Year Book**, 2003 Doubt, Scholarship and Society in 17th-Century Central Sudanic Africa Dorrit van Dalen, 2016-07-11 The seventeenth century was a period of major social change in central sudanic Africa Islam spread from royal courts to rural communities leading to new identities new boundaries and new tasks for experts of the religion Addressing these issues the Bornu scholar Mu ammad al W l acquired an exceptional reputation Dorrit van Dalen's study places him within his intellectual environment and portrays him as responding to the concerns of ordinary Muslims It shows that scholars on the geographical margins of the Muslim world participated in the debates in the

centres of Muslim learning of the time but on their own terms Al W l s work also sheds light on a century in the Islamic history of West Africa that has until now received little attention Extensive Reading in the Second Language Classroom Richard R. Day, Julian Bamford, 1998-01-13 This comprehensive examination of extensive reading shows how reading large quantities of books and other materials can provide students with essential practice in learning to read and help them develop a positive attitude towards reading which is sometimes missed in second language classes The authors first examine the cognitive and affective nature of reading and then offer a wealth of practical advice for implementing extensive reading with second language learners Suggestions are provided for integrating extensive reading into the curriculum establishing a library selecting reading materials and keeping records for purposes of evaluation The text also describes a wide variety of classroom activities to supplement individualized silent reading The information will be useful both for pre service teachers and for teachers and administrators who want to improve the teaching of reading in their second language programs

confined to static texts rather they are productive continually contested and able to create new social and semantic spaces and new sets of relations Anthropologists do not stand outside or above systems of governance but are themselves subject to the rhetoric and rationalities of policy The analyses of policy worlds presented by the contributors to this volume open up new possibilities for understanding systems of knowledge and power and the positioning of academics within them
