Gender and Information Technology: Moving Beyond Access to Co-Create Global Partnership Kirk, Mary, 2008-09-30. This book explores the decline in female involvement in technology and other discrimination related to the industry. Provided by publisher. Global Fragments Anke Bartels, Dirk Wiemann, 2007. While the world seems to be getting ever smaller and globalization has become the ubiquitous buzz word, regionalism and fragmentation also abound. This might be due to the fact that far from being the alleged production of cultural homogeneity, the global is constantly re-defined and altered through the local. This tension pervading much of contemporary culture has an obvious special relevance for the new varieties of English and the literature published in English world-wide. Postcolonial literatures exist at the interface of English as a hegemonic medium and its many national, regional and local competitors that transform it in the new English literatures. Thus any exploration of a globalization of cultures has to take into account the fact that culture is a complex field characterized by hybridization, plurality and difference. But while global or transnational cultures may allow for a new cosmopolitanism that produces ever-changing fluid identities, they do not give rise to an egalitarian global village; an asymmetry between centre and periphery remains largely intact, albeit along new parameters. The essays collected in this volume offer readings of literary, theoretical and filmic texts from the postcolonial world. These texts are read as attempts to articulate the global with the local from a perspective of immersion in the actual diversity of life-worlds, focusing on such issues as consumption, identity, politics and modes of affiliation. In this sense, they are global fragments, locally refracted figurations of an experience of world-wide interconnectedness. *Watching with The Simpsons* Jonathan Gray, 2012-10-12. Using our favourite Springfield family as a case study, *Watching with The Simpsons* examines the textual and social role of parody in offering critical commentary on other television programs and genres. Jonathan Gray brings together textual theory, discussions of television and the public sphere and ideas of parody and comedy. Including primary audience research, it focuses on how *The Simpsons* has been able to talk back to three of television's key genres: the sitcom, adverts and the news, and on how it holds the potential to short-circuit these genres' meanings, power and effects by provoking reinterpretations and offering more media-literate recontextualizations. Examining television and media studies theory, the text of *The Simpsons* and the show's

audience Gray attempts to fully situate the show's parody and humour within the lived realities of its audiences In doing so he further explores the possibilities for popular entertainment television to discuss issues of political and social importance A must read for any student of media studies International Handbook of Virtual Learning Environments Joel Weiss,Jason Nolan,Jeremy Hunsinger,Peter Trifonas,2007-11-24 Three issues are explored and used as organizers for The International Handbook of Virtual Learning Environments First a distinction is made between virtual learning and learning virtually Second since the focus is on learning an educational framework is developed as a means of bringing coherence to the available literature Third learning is defined broadly as a process of knowledge creation for transforming experience to reflect different facets of the curriculum of life The Handbook is divided into four sections Foundations of Virtual Learning Environments Schooling Professional Learning and Knowledge Management Out of School Learning Environments and Challenges for Virtual Learning Environments A variety of chapters representing different academic and professional fields are included These chapters cover topics ranging from philosophical perspectives historical sociological political and educational analyses case studies from practical and research settings as well as several provocative classics originally published in other settings **Weapons of Mass Persuasion** Paul Rutherford,2004-01-01 Weapons of Mass Persuasion chronicles the making of a Hollywood war fast paced and heroic pitting the forces of good against the forces of evil to achieve a triumphant sanitized and commodified outcome **Talking and Listening in the Age of Modernity** Joy Damousi,Desley Deacon,2007-11-01 Issued also in printed form **Dynamics of International Advertising** Barbara Mueller,2011 The second edition of this great book brings a wealth of updates and insights into international advertising Barbara Mueller has a knack of drawing you in so that you find yourself unable to put each chapter down One of the great strengths of the book is that it provides context be it historic societal or marketing along with considerable depth of knowledge Douglas West University of Birmingham **Modernism and Masculinity** Natalya Lusty,Julian Murphet,2014-03-31 Modernism and Masculinity investigates the varied dimensions and manifestations of masculinity in the modernist period Thirteen essays from leading scholars reframe critical trends in modernist studies by examining distinctive features of modernist literary and cultural work through the lens of masculinity and male privilege The volume attends to masculinity as an unstable horizon of gendered ideologies subjectivities and representational practices allowing for fresh interdisciplinary treatments of celebrated and lesser known authors artists and theorists such as D H Lawrence Ezra Pound Henry Roth Theodor Adorno and Paul Robeson as well as modernist avant garde movements such as vorticism surrealism and futurism As diverse as the masculinities that were played out across the early twentieth century the approaches and arguments featured in this collection will appeal especially to scholars and students of modernist literature and culture gender studies and English literature more broadly
