Penguin By Design A Cover Story 1935 To 2005:

Penguin by Design Phil Baines, 2005 By looking back at 70 years of Penguin paperbacks graphic designer Phil Baines charts the development of British publishing the ever changing currents of cover art and style and the role of artists and designers in creating the Penguin look The Book by Design P.J.M. Marks, Stephen Parkin, 2023-11-20 A richly illustrated look at some of the British Library's most beautiful books from around the world For centuries across the world books have been created as objects of beauty with bookmakers lavishing great care on their paper binding materials illustrations and lettering The Book by Design featuring an array of books from the British Library's collection focuses on the sensory experience of holding and reading these objects Each selection represents a specific moment in the development of what we know today as the book from scrolls and bound illuminated manuscripts to paperbacks and formatted digital information These range from the seventh century to the present and include examples from China Japan Southeast Asia the Middle East Europe and North America in addition to a look at book traditions in Africa and Oceania John James Audubon's Birds of America the works of Chaucer Russian Futurist books limited editions historic copies of the Qur'an and the Bible mass market paperbacks and more come together to tell the visual tactile artistic and cultural history of books Expert curators and specialists explore these books from the perspective of design and manufacturing original art photographs offer vivid representations of their textures and materials and graphics detail the size and specifications of each book Offering a wide ranging look at the creation and use of books illustrated with hundreds of color images this volume is itself an object of beauty **Innovation and Nanotechnology** David Koepsell, 2011-06-01 This book is available as open access through the Bloomsbury Open Access programme and is available on www.bloomsburycollections.com This book defines nanowares as the ideas and products arising out of nanotechnology Koepsell argues that these rapidly developing new technologies demand a new approach to scientific discovery and innovation in our society He takes established ideas from social philosophy and applies them to the nanoparticle world In doing so he breaks down the subject into its elemental form and from there we are better able to understand how these elements fit into the construction of a more complex system of products rules and regulations about these products Where existing research in the field has tended to focus on potential social harm Koepsell takes a different approach by looking at ways in which developments in distributed design and fabrication can be harnessed to enable wealth creation by those with good ideas but no access to capital He argues that the key challenge facing us is the error implicit in current intellectual property regimes and presents new modes of relating inventors to artifacts in this new context In conclusion he offers contractual models which he believes encourage innovation in nano media by embracing open source and alternative means of protection for innovators **The Book in Britain** Daniel Allington, David A. Brewer, Stephen Colclough, Sian Echard, Zachary Lesser, 2018-12-12 Introduces readers to the history of books in Britain their significance influence and current and future status Presented as a comprehensive up to date narrative

The Book in Britain A Historical Introduction explores the impact of books manuscripts and other kinds of material texts on the cultures and societies of the British Isles The text clearly explains the technicalities of printing and publishing and discusses the formal elements of books and manuscripts which are necessary to facilitate an understanding of that impact This collaboratively authored narrative history combines the knowledge and expertise of five scholars who seek to answer questions such as How does the material form of a text affect its meaning How do books shape political and religious movements How have the economics of the book trade and copyright shaped the literary canon Who has been included in and excluded from the world of books and why The Book in Britain A Historical Introduction will appeal to all scholars students and historians interested in the written word and its continued production and presentation
