Free Trade Graham Dunkley, 2008-02-29 In

this book Australian economist Graham Dunkley explains and critiques the crucial concept of free trade A policy of free trade is central to today s world dominating globalization project The more euphoric globalists uncritically assume that it has universal and unequivocal benefits for all people and countries And the perpetual negotiations of the World Trade Organization are wholly based on this presumption Graham Dunkley shows however that leading economists have always been more sceptical about free trade doctrine than the dogmatic globalizers realize There are more holes in free trade theory than its advocates grasp And the benefits of free trade in practice are more limited and contingent than they acknowledge He also argues that the World Bank s long time push for export led development is misguided A more democratic world trading order is necessary and possible And more interventionist self reliant trade policies are feasible especially if a more holistic view of economic development goals is adopted

World's major religions, doctrines and sects Abdul Waheed , Most of the population of the world is still of those who believe in religion Religion is the priceless heritage of man There are many religions in almost every country of the world The ancient history of that country is still present in the holy books of that religion Religion books are the only source of knowledge of ancient history but today in the modern age scientific age the new generation is turning away from religion The biggest reason for this is lack of proper knowledge about religion and not reading holy books In today s era identification of sects in every religion is due to new things concoctions in religion It is almost impossible to get information about religious sects because there is lack of books related to it and no one gives correct information I wanted to know about this in many religions but no one told about it and I met many alims scholars but could not get any clear information and I went to Parsi Zarathustra pastor but there also got disappointed And met Arya Samaj and many other people but everyone said that you should read your holy book Quran Sharif Then I thought why these people are not giving any information Many people provoked me not to get into its affair otherwise there could be a fight Then I took support of libraries but that too lacked Hindi language books so I took support of English Urdu B A M A books and some encyclopedias dictionaries helped a lot Tafseers explanation of Bible and Quran Sharif also helped a lot in this This book has been written since 28 09 2004 and is now completed on 30 08 2008 Today there is no difference between ancient history and religious history only language so pls read My book thanks Also available in paperback version
