Kuefler, 2015-06-18 Commanding its own museum and over 200 years of examination observation and scholarship the monumental embroidery known popularly as the Bayeux Tapestry and documenting William the Conqueror's invasion of England in October 1066 is perhaps the most important surviving artifact of the Middle Ages This magnificent textile both celebrated and panned is both enigmatic artwork and confounding historical record With over 1780 entries Szabo and Kuefler offer the largest and most heavily annotated bibliography on the Tapestry ever written Notably the Bayeux Tapestry has produced some of the most compelling questions of the medieval period Who commissioned it and for what purpose What was the intended venue for its display Who was the designer and who executed the enormous task of its manufacture How does it inform our understanding of eleventh century life And who was the mysterious Aelfgyva depicted in the Tapestry's main register This book is an effort to capture and describe the scholarship that attempts to answer these questions But the bibliography also reflects the popularity of the Tapestry in literature covering a surprisingly broad array of subjects The inclusion of this material will assist future scholars who may study references to the work in contemporary non fiction and popular works as well as use of the Bayeux Tapestry as a primary and secondary source in the classroom The monographs articles and other works cited in this bibliography reflect dozens of research areas Major themes are the Tapestry as a source of information for eleventh century material culture its role in telling the story of the Battle of Hastings and events leading up to the invasion patronage of the Tapestry biographical detail on known historical figures in the Tapestry arms and armor medieval warfare strategy and techniques opus anglicanum the Anglo Saxon needlework tradition preservation and display of the artifact the Tapestry's place in medieval art the embroidery's depiction of medieval and Romanesque architecture and the life of the Bayeux Tapestry itself [The Far-Farers](#) Victoria Clark, 2003-01-01 The author of *Why Angels Fall* follows the odyssey of Thorvald an eleventh century Viking Christian who left his Icelandic homeland to make an epic journey to Jerusalem offering an intriguing study of western Christendom at a time of dramatic changes in Western Europe and the Holy

Land     **The Ancestry of Regional Spatial Planning** Louis C. Wassenhoven, 2018-09-20 This book is not a historical or archaeological treatise but rather a study in which the author looks at the past not as a historian but as a planner who has the ambition to unravel the early manifestations of his discipline a discipline which did not exist as such in remote periods but the ingredients of which were nevertheless present The author has observed the past equipped with knowledge and understanding of what regional planning was in the second half of the twentieth century and still is He stands in the period of the first decades after the Second World War which were the formative years of regional planning and looks back at bygone ages He discusses ideas and literature from the immediate post war period in order to examine the ancestry of regional planning through their lens The book will attract a broad range of readers because of its approach and its wide coverage of historical periods and world regions Although Europe is the main focus the book contains material on all continents and all periods the ancient world the medieval age and the modern era The history of Urban Planning is taught and researched widely but the history or pre history before the twentieth century of Regional Spatial Planning is not This book will fill that vacuum     **Waterstone's Guide to Books** Waterstone & Co, 1988     Myths and Legends of the British Isles Richard W. Barber, 1999 THE BRITISH ISLES have a long tradition of tales of gods heroes and marvels hinting at a mythology once as relevant to the races which settled the islands as the Greek and Roman gods were to the classical world The tales drawn together in this book from a wide range of medieval sources span the centuries from the dawn of Christianity to the age of the Plantagenets The Norse gods which peopled the Anglo Saxon past survive in Beowulf I Cuchulainn Taliesin and the magician Merlin take shape from Celtic mythology and saints include Helena who brought a piece of the True Cross to Britain and Joseph of Arimathea whose staff grew into the Glastonbury thorn Tales of the British Arthur are followed by legends of later heroes including Harold Hereward and Godiva These figures and many others were part of a familiar national mythology on which Shakespeare drew for Lear Macbeth and Hamlet creating the famous versions that are known today Here the original stories are presented again RICHARD BARBER's other books include King Arthur Hero and Legend Arthurian Legends An Anthology and The Knight and Chivalry he is currently working on a study of the legend of the Holy Grail Borders com England and the British Isles have a rich and still thriving tradition of myths and legends and this wonderful volume collects together more than thirty of the best from a number of sources an incredible insight into the fascinating yet complex history of the British Isles and its peoples Those fascinated by mythology will want to add this wonderful book to their collections     *Law and Government in Medieval England and Normandy* George Garnett, 1994-04-28 An important set of historical essays on England and Normandy from the tenth to the thirteenth century     Christendom and Christianity in the Middle Ages Adriaan Bredero, 1994 This is a print on demand book and is therefore non returnable Though buffeted on all sides by rapid and at times cataclysmic social political and economic change the medieval church was able to make adjustments that kept it from becoming simply a fossil from the past rather than an enduring institution of salvation

The dynamic interaction between the medieval church and society gives form to this compelling and well informed study by Adriaan Bredero By considering medieval Christianity in full relation to its historical context Bredero elucidates complex medieval realities many of which run counter to common modern notions about the Middle Ages Bredero moves beyond the usual treatment of history by framing his overall discussion in terms of a fascinating and relevant question To what extent is Christianity today still molded by medieval society The book begins with an overview of religion and the church in medieval society from the early Christianization of Western Europe through the fifteenth century Bredero counters earlier romanticized assessments of the Middle Ages as a thoroughly Christian period by arriving at a definition of Christendom not in its original sense as the empire of Charlemagne but rather as the countries people and matters which stood under the influence of Christ Waterstone's Guide to Books Waterstone & Co., Ltd,1989 *The Hundred Years War* Robin Neillands,2002-11-01 The Hundred Years War was the longest war in European history a quarrel between two cousins resulting in decades of violence in the battle for the French throne It was a war which wrought great change in two medieval societies ushering in the Renaissance and having repercussions down to the present day **The Historical Foundations of World Order** Douglas M. Johnston,2008 In *The Historical Foundations of World Order* the Tower and the Arena Douglas M Johnston has drawn on a 45 year career as one of the world s most prolific academics in the development of international law and public policy and 5 years of exhaustive research to produce a comprehensive and highly nuanced examination of the historical precursors intellectual developments and philosophical frameworks that have guided the progress of world order through recorded history and across the globe from pre classical antiquity to the present day By illuminating the personalities and identifying the controversies behind the great advancements in international legal thought and weaving this into the context of more conventionally known history Johnston presents a unique understanding of how peoples and nations have sought regularity justice and order across the ages This book will appeal to a wide spectrum of readers from lawyers interested in the historical background of familiar concepts to curriculum developers for law schools and history faculties to general interest readers wanting a wider perspective on the history of civilization Winner 2009 ASIL Certificate of Merit for a Preeminent Contribution to Creative Scholarship **The Life and Campaigns of the Black Prince** Richard Barber,Richard W. Barber,1997 *The Life and Campaigns of the Black Prince* is an invaluable collection of contemporary source material seen through the eyes of the men involved **Ancrene Wisse** Cate Gunn,2008 An introduction to *Ancrene Wisse* one of the most important works in English of the 13th century It offers a new contextualisation which engages with the history of lay piety and vernacular spirituality in the Middle Ages **The Hundred Years War** , Presents information about the Hundred Years War provided by the University of Kansas Explains the causes events and results of the conflict between France and England which lasted over 100 years 1336 1453 Astralabe Brenda M. Cook,2023-09-30 Two of the most notable figures from the Middle Ages the volatile brilliant Abelard and the equally brilliant Heloise became the parents

of their son Astralabe before Abelard's infamous brutal castration. The couple spent the rest of their lives as monastics in each other's orbits if not in shared presence as they became movers in the glittering monastic world of the early twelfth century France. What happened to their strangely named Astralabe? Astralabe: The Life and Times of the Son of Heloise and Abelard rescues the lost son from footnotes and fiction and attempts to tell instead the story of a real man living in Europe in the twelfth century. This book assembles the references to Astralabe, provides background in the history of France and Switzerland, uncovers Abelard's relationships with his family with the ruling house of Brittany and more, and most importantly draws together all that is known of Astralabe.

**On Foot** Joseph Amato, 2004-11-01 A sweeping social history on walking from humanity's first steps to modern urban pavement pounders. I have met with but one or two persons in the course of my life who understand the art of Walking that is of taking walks who had a genius so to speak for sauntering. Henry David Thoreau 1817-1862 Everything is within walking distance if you have the time. Stephen Wright 1955 For approximately six million years humans have walked the earth. This is the story of how, why, and to what effect we put one foot in front of the other. Walking has been the primary mode of locomotion for humans until very recent times when we began to sit and ride first on horses and in carriages, then trains and bicycles, and finally cars, trucks, buses, and airplanes rather than go on foot. The particular way we saunter, clomp, meander, shuffle, plod, along, jaunt, tramp, and wander on foot conveys a wealth of information about our identity, condition, and destination. In this fast-stepping social history, Joseph A. Amato takes us on a journey of walking from the first human migrations to marching Roman legions and ancient Greeks who considered man a featherless biped, from trekking medieval pilgrims to strolling courtiers, from urban pavement pounders to ambling window shoppers to suburban mall walkers. Concentrating on walking in Europe and North America and with particular focus on how walking differed according to social class, Amato distinguishes how, where, when, who, what, and under which conditions people moved on foot. He identifies crucial transformations in the history of walking, including the adoption of the horse by the mounted warrior, the rise of public display among European nobility, and the building of roads and transportation systems which led to the inevitable ascent of the wheel over the foot.
