Penser Leurope:

Discourses and Counter-discourses on Europe Manuela Ceretta, Barbara Curli, 2017-01-12 The European Union plays an increasingly central role in global relations from migration to trade to institutional financial solvency The formation and continuation of these relations their narratives and discourses are rooted in social political and economic historical relations emerging at the founding of European states and then substantially augmented in the Post WWII era Any rethinking of our European narratives requires a contextualized analysis of the formation of hegemonic discourses The book contributes to the ongoing process of rethinking the European project identity and institutions brought about by the end of the Cold war and the current economic and political crisis Starting from the principle that the present European crisis goes hand in hand with the crisis of its hegemonic discourse the aim of the volume is to rescue the complexity the richness the ambiguity of the discourses on Europe as opposed to the present simplification The multidisciplinary approach and the long term perspective permits illuminating scope over multiple discourses historical periods and different languages including that of the European institutions This text will be of key interest to scholars and students of European Union politics European integration European History and more broadly international relations

An Identity for Europe R. Kastoryano, 2009-05-11 This book looks at the role of multiculturalism in the complex construction of the European Union acknowledging the tension of creating a new political space for identities that are simultaneously national regional linguistic and religious and yet strive to encompass a political and geographic whole

Europe Against Revolution Matthijs Lok, 2023 Offers a radical new scholarly interpretation of the topics of Enlightenment legacies counter revolution and conservatism as well as the construction of the European Past and the international order Gives a historical perspective on the contemporary radical right as well as current expressions of European identity and memory Combines Enlightenment thought with counter revolution and memory studies historiography Draws on sources from seven languages to give a truly pan European perspective

Tracking Europe Ginette Verstraete, 2010-02-17 A work of cultural theory addressing how European identity is defined in terms of mobility

Finding Europe Anthony Molho, Diogo Ramada Curto, 2007-04-01 In the last decade or so many books have been devoted to the history of Europe Two conceptual axes predominate in a large number of these accounts a discourse focusing on Europe's values and another discourse fashioned largely in opposition to the first which emphasizes the process of European construction The first conceives of Europe's past teleologically as a process by which certain values Christian ethics individualism capitalism tolerance republicanism due process etc were affirmed and came to define European culture The second approach rejects the discourse on values emphasizes the post Enlightenment emergence of the concept of Europe and the political and ideological implications in its continuous redefinitions and re-elaborations during the past two or more centuries This volume offers new approaches that integrate the long temporal dimension of the values based approach albeit devoid of its teleological element with the constructivist interpretation

Public Law in a Troubled Era Katarzyna

Gromek-Broc,2023-07-14 Public law which examines relations between governments and institutions and individuals has in recent years become deeply disturbed by an erosion of the rule of law notably in some of the world's most professedly democratic nations In this book of edited essays many of the world's leading public lawyers draw on examples from the United Kingdom European States and the European Union EU to explore the alarming tensions unleashed as Europe is rocked by Brexit the war between nations on the EU border and the worldwide phenomenon of populist resistance to globalised forces and liberal democratic aspirations The book is dedicated to Professor Patrick Birkinshaw who until his retirement was Director of the Institute of European Public Law and Professor of Public Law at the University of Hull and widely respected as a leading authority on public law With a focus on public law and European public law jurisprudence with hugely important global ramifications the contributions continue his work and crucially deal with the new and troubling shape of the law politics relationship The essays examine these developments under four headings Law in a World Turned Upside Down with essays on e.g. Brexit the denial of human rights and the rule of law in Hungary climate change governance Law and Politics A Shifting Boundary showing how advances in the courts have prompted reaction to curtail judicial review and human rights protection especially evident in the fading mirage of fair trial rights and administration on the EU periphery Law's Promise specifying real achievements in the way of reform and higher levels of security for individuals and New Bearings exploring initiatives and emerging problems including reform of judicial review the European Banking Law digitalization of public administration and institutional interactions with the Chinese 1982 Constitution The book brings together leading university professors public officials and judges all experts in their respective fields All are concerned with a central role for law in the process of governance This unrivalled volume penetrates the contradictions uncertainties and insecurities that plague this topic of worldwide interest and debate and will prove invaluable to practitioners public administrators jurists judges and legal academics everywhere It will also be of interest to political scientists and politicians In its completely original and innovative discussions of the changes taking place at the interface of law and politics and of how law can enhance certainty and reliability in governance this book provides a most detailed and insightful analysis of the new bearings in public law in Europe and worldwide

La France et l'Europe pendant le Siége de Paris ... Encyclopédie politique, militaire et anecdotique ... Avec une préface de M. E. Spuller. Siége de Paris. Bazaine-Thiers-Gambetta Pierre MAQUEST,1874

Phenomenology and the Idea of Europe Francesco Tava,2018-10-16 The meaning of Europe exceeds its territorial limits and is not fully ascribable either to the events that characterized its history or to the institutions that regulated the lives of its inhabitants Europe is all this and yet it represents much more a political concept and project a cultural enterprise and a system of power whose legitimacy is currently challenged by a series of internal and external crises that jeopardize its survival There is no single definition that can describe what Europe is as this word evokes unity as much as division solidarity and conflicts progress and decadence and coexistence and colonization Besides all this Europe is also a

philosophical idea that especially during the twentieth century has captured the imaginations of many thinkers Among these is the father of phenomenology Edmund Husserl as well as some of his followers such as Merleau Ponty Levinas and Pato ka The objective of this book is to investigate how phenomenological philosophy addresses the great complexity of the idea of Europe This involves tackling key problems that pertain not just to phenomenology and its method but that reflects the contemporary social and political situation within a European frame identity and heritage democratization and integration end and renewal and Euroscepticism and Eurocentrism This book was originally published as a special issue of the Journal of the British Society for Phenomenology

A Philosophy for Europe Roberto Esposito, 2018-06-11 Amid a devastating economic crisis two tragic events coming from the outside the wave of immigration and Islamic terrorism have radically changed the profile and significance of the space we call Europe Given a paradigm leap of this sort philosophical reflection is in a position to exert its creative power more than other types of knowledge But this can only happen if it is able to go beyond its own lexical boundaries by turning its gaze outside itself Here the leading Italian philosopher Roberto Esposito looks at how various strands of German French and Italian thought have achieved this outward turn and successfully captured international attention by breaking with the language of early nineteenth century crisis philosophies When analyzed from this novel perspective the great texts of Adorno Derrida Foucault and Deleuze as well as works by the latest Italian thinkers are cast in a new light From the relationship and tension between them reconstructed here with extraordinary theoretical sensitivity a form of thought can arise that is equal to the challenges faced by Europe today This erudite and wide ranging analysis of European thought in the light of the crises facing the continent today will appeal to students and scholars of philosophy critical theory and beyond

About Europe Denis Guénoun, 2013-02-20 The concept of the universal was born in the lands we now call Europe yet it is precisely the universal that is Europe s undoing All European politics is caught in a tension to assert a European identity is to be open to multiplicity but this very openness could dissolve Europe as such This book reflects on Europe and its changing boundaries over the span of twenty centuries A work of philosophy it consistently draws on concrete events From ancient Greece and Rome to Christianity to the Reformation to the national revolutions of the twentieth century what we today call Europe has been a succession of projects in the name of ecclesia or community Empire Church and EU all have been constructed in contrast to an Oriental other The stakes of Europe then are as much metaphysical as political Redefining a series of key concepts such as world place transportation and the common this book sheds light on Europe as process by engaging with the most significant philosophical debates on the subject including the work of Marx Husserl Heidegger Pato ka and Nancy

The Pursuit of Europe Anthony Pagden, 2022 The story of the evolution of the European project from the end of the Napoleonic Wars through to Brexit this is also the story of how and why it became possible to imagine that the diverse peoples of Europe might be united in a single political community

In Italics Antonio D'Alfonso, 1996 Poet and novelist Antonio D Alfonso has been writing essays and giving in depth interviews

for twenty years This collection contains the most important of these texts which have been reworked into a coherent entity D Alfonso discusses the importance of ethnic awareness which he places at the antipodes of territorial nationalism for which ethnicity is too often mistaken The themes raised in this eclectic book relate to general culture language literature film and publishing he founded Guernica Editions in 1978 Though it is the Italian perspective which the author prefers to call Italic that is favored the themes and concepts developed are applicable to other cultures and countries In Italics is a polemical and unblushing defense for the individual s right to a collective Imaginary no matter which country one lives in **Europe (in Theory)** Roberto M. Dainotto,2007-01-09 Europe in Theory is an innovative analysis of eighteenth and nineteenth century ideas about Europe that continue to inform thinking about culture politics and identity today Drawing on insights from subaltern and postcolonial studies Roberto M Dainotto deconstructs imperialism not from the so called periphery but from within Europe itself He proposes a genealogy of Eurocentrism that accounts for the way modern theories of Europe have marginalized the continent s own southern region portraying countries including Greece Italy Spain and Portugal as irrational corrupt and clan based in comparison to the rational civic minded nations of northern Europe Dainotto argues that beginning with Montesquieu s The Spirit of Laws 1748 Europe not only defined itself against an Oriental other but also against elements within its own borders its South He locates the roots of Eurocentrism in this disavowal internalizing the other made it possible to understand and explain Europe without reference to anything beyond its boundaries Dainotto synthesizes a vast array of literary philosophical and historical works by authors from different parts of Europe He scrutinizes theories that came to dominate thinking about the continent including Montesquieu s invention of Europe s north south divide Hegel s two Europes and Madame de Sta l s idea of opposing European literatures a modern one from the North and a pre modern one from the South At the same time Dainotto brings to light counter narratives written from Europe s margins such as the Spanish Jesuit Juan Andr s s suggestion that the origins of modern European culture were eastern rather than northern and the Italian Orientalist Michele Amari s assertion that the South was the cradle of a social democracy brought to Europe via Islam Why Europe? Problems of Culture and Identity J. Andrew,M. Crook,M. Waller,2000-02-24 This volume addresses a range of issues which underlie the notions of European identity Among them what does it mean to be a European What place will minorities find in the Europe of the twenty first century What roles will women play in the future communities Will Europe become more open to diversity or become increasingly introspective *La diplomatie byzantine, de l'Empire romain aux confins de l'Europe (Ve-XVe s.)* ,2020-08-10 In La Diplomatie byzantine de l'Empire romain aux confins de l'Europe Ve XVe s twelve studies explore from novel angles the complex history of Byzantine diplomacy After an Introduction the volume turns to the period of late antiquity and the new challenges the Eastern Roman Empire had to contend with It then examines middle Byzantine diplomacy through chapters looking at relations with Arabs Rus and Bulgarians before focusing on various aspects of the official contacts with Western Europe at the end of the Middle Ages A

thematic section investigates the changes to and continuities of diplomacy throughout the period in particular by considering Byzantine alertness to external political developments strategic use of dynastic marriages and the role of women as diplomatic actors Contributors are Jean Pierre Arrignon Audrey Becker Mickaël Bourbeau Nicolas Drocourt Christian Gastgeber Nike Koutrakou Elisabeth Malamut Ekaterina Nechaeva Brendan Osswald Nebojša Porri Jonathan Shepard and Jakub Sypiański

Innovation Ecosystems Michel Saloff-Coste, 2022-07-13 Our current situation marked simultaneously by the Anthropocene global warming digitization and exponential artificial intelligence leads us to sudden and total change in global civilization and de facto to rebuilding the foundations of the international economy Innovation Ecosystems explores the risks and opportunities facing the contemporary world by analyzing comparing and categorizing the world's most dynamic innovation ecosystems by region and city This includes the identification of key characteristics common or original and learning from them in terms of culture management system and structure in order to meet current challenges and think about civilizations of the future

The Europeanization of Europe: Europe's Cultural Identity in the Context of the Integration Processes Piotr Mazurkiewicz, 2025-09-11 A Bolivian working in Warsaw for many years decided to apply for Polish citizenship He was asked only one question at the migration office whether he ate sauerkraut hunters stew and fermented dill cucumbers in brine You know he said later for many years I was not able to swallow it but recently I forced myself and was able to honestly answer yes Cuisine no doubt is one of the elements of national culture The question however was not just about cuisine but about belonging to a national community that this man found worthy of such a sacrifice Europe is called the continent of culture In the book Piotr Mazurkiewicz engages in a reflection on what constitutes the hard core of this culture which allows us to call ourselves Europeans

The New Knowledge Economy in Europe Maria João Rodrigues, 2002-05-28 Knowledge is fast becoming a main source of wealth but it can also be a source of inequalities This work addresses whether it is possible to hasten the transition towards a knowledge based economy and enhance competitiveness with increased employment and improved social cohesion across Europe

La dimension extérieure de l'espace de liberté, de sécurité et de justice de l'Union européenne après le Traité de Lisbonne Catherine

Flaesch-Mougin, Lucia Serena Rossi, 2013-04-03 Le présent ouvrage est le résultat d'une recherche conjointe entre les Universités de Bologne Rennes et Bruxelles sur le thème de la dimension extérieure de l'espace de liberté, de sécurité et de justice de l'Union européenne ELSJ Cette recherche a été soutenue par la Commission européenne dans le cadre de l'Action Jean Monnet Il associe des professeurs et chercheurs de renom qui conjuguent leurs compétences et situent leur analyse à l'intersection des politiques en la matière et des politiques externes de l'Union européenne Les auteurs valuent de manière critique l'impact du traité de Lisbonne et de la pratique de l'Union concernant la dimension extérieure de l'ELSJ Cette dimension dont l'importance ne cesse de croître oblige l'Union à concilier des impératifs parfois contradictoires entre les objectifs sécuritaires de l'ELSJ ou ceux de l'action extérieure ou encore avec les valeurs sur lesquelles elle est fondée Les

auteurs tentent de répondre différentes questions induites par le nouveau système de représentation extérieure de l'Union dans le domaine de l'ELSJ. Quelles sont les retombées juridiques du nouveau système ? Quel est également son impact politique ? Ne risque-t-on pas une incursion croissante de la politique étrangère et de sécurité commune PESC dans les aspects sécuritaires de l'ELSJ ?
