

How pension funds invest

Goal: To make enough in returns to pay employee benefits over the long term.

1. Financial professionals determine the return needed to meet pension liabilities over time.
2. Pension trustees set the target asset allocation and benchmarks. The investment mix should meet the needed return with minimal risk.
3. Investments are chosen that fit the target asset allocation.
4. Money managers buy and sell securities and monitor daily performance.
5. Pension board evaluates risk and returns of asset mix and adjusts accordingly.
