People And Place:

The Routledge Handbook of People and Place in the 21st-Century City Kate Bishop, Nancy Marshall, 2019-08-13

Increasing urbanization and increasing urban density put enormous pressure on the relationships between people and place in cities. Built environment professionals must pay attention to the impact of people place relationships in small to large scale urban initiatives. A small playground in a neighborhood pocket park is an example of a small scale urban development. A national environmental policy that influences energy sources is an example of a large scale initiative. All scales of decision making have implications for the people place relationships present in cities. This book presents new research in contemporary interdisciplinary urban challenges and opportunities and aims to keep the people place relationship debate in focus in the policies and practices of built environment professionals and city managers. Most urban planning and design decisions even those on a small scale will remain in the urban built form for many decades conditioning people's experience of their city. It is important that these decisions are made using the best available knowledge. This book contains an interdisciplinary discussion of contemporary urban movements and issues influencing the relationship between people and place in urban environments around the world which have major implications for both the processes and products of urban planning design and management. The main purpose of the book is to consolidate contemporary thinking among experts from a range of disciplines including anthropology environmental psychology cultural geography urban design and planning architecture and landscape architecture and the arts on how to conceptualize and promote healthy people and place relationships in the 21st century city. Within each of the chapters the authors focus on their specific areas of expertise which enable readers to understand key issues for urban environments urban populations and the links between them.

The People, Place, and Space Reader Jen Jack Gieseking, William Mangold, Cindi Katz, Setha Low, Susan Saegert, 2014-04-16

The People Place and Space Reader brings together the writings of scholars designers and activists from a variety of fields to make sense of the makings and meanings of the world we inhabit. They help us to understand the relationships between people and the environment at all scales and to consider the active roles individuals groups and social structures play in creating the environments in which people live work and play. These readings highlight the ways in which space and place are produced through large and small scale social political and economic practices and offer new ways to think about how people engage the environment in multiple and diverse ways. Providing an essential resource for students of urban studies geography sociology and many other areas this book brings together important but till now widely dispersed writings across many inter related disciplines. Introductions from the editors precede each section introducing the texts demonstrating their significance and outlining the key issues surrounding the topic. A companion website PeoplePlaceSpace.org extends the work even further by providing an on going series of additional reading lists that cover issues ranging from food security to foreclosure psychiatric spaces to the environments of predator animals.

People, Place, and Attachment in Local Bars John

W. McEwen, 2019-10-16 In the United States places of drink are historically linked to community and social interactions and such establishments often possess loyal patrons for whom going to the local bar is a natural and routine part of their daily life In *People Place and Attachment in Local Bars* John McEwen places drinking establishments at the fore of American geography as containers of material culture and collective history McEwen draws on ethnographic data collected in four local bars in West Baton Rouge Louisiana to present a new unified theory of people place relationships McEwen highlights sense of place place attachment and the concept of rootedness **Young People, Place and Identity** Peter E.

Hopkins, 2013-05-13 *Young People Place and Identity* offers a series of rich insights into young people's everyday lives What places do young people engage with on a daily basis How do they use these places How do their identities influence these contexts By working through common sense understandings of young people's behaviours and the places they occupy the author seeks to answer these and other questions In doing so the book challenges and re-shapes understandings of young people's relationships with different places and identities The textbook is one of the first books to map out the scales themes and sites engaged with by young people on a daily basis as they construct their multiple identities The scales explored here include the body neighbourhood and community mobilities and transitions and urban rural settings and how these all shape and are shaped by young people's identities Each chapter explores how social identities such as race gender sexuality class disability and religion are constructed within particular contexts and influenced by multiple processes of inclusion and exclusion These discussions are supported by details of the research methods and ethical issues involved in researching young people's lives Drawing upon research from a range of contexts including Europe North America and Australasia this book demonstrates the complex ways in which young people creatively shape contest and resist their engagements with different places and identities The range of issues topics and case studies explored include ethical and methodological issues in youth research youth subcultures experiences of home territorialism youth and crime political engagement and participation responses to global issues engagements with different institutional contexts negotiating public space the transition to adulthood drinking cultures The author explores these issues through blending together original empirical research theory and policy Individual chapters are supported by key themes project ideas and suggested further reading Details of key authors journals and research centres and organisations are also included at the end of the book This textbook will be pertinent for undergraduate and postgraduate students and academic researchers interested in better understanding the relationships between young people places and identities *Drugs, Law, People, Place and the State* Stewart

Williams, Barney Warf, 2017-10-02 Though any psychoactive substance can be revered or reviled as a drug as people's cultural norms shift ultimately its status is determined in law by the state This publication explores the regulation of drugs alcohol and cannabis to heroin and cocaine and practices such as social drinking and public injecting under political regimes Drugs are discussed in their geographical contexts the colonial legacy of cannabis prohibition for bioprospecting in Africa the

veracity of the persistent notion of the narco state Turkey's governance of drinking amid civil unrest and alcohol's place in the neoliberal political economy of Ireland In addition drug policies are examined from problems in managing drug related litter in the UK to supervised injecting facility provision in Australia harm reduction in Canada and the global network of drug policy activists Place is significant but porous borders territorial overlaps and multi scalar linkages are influential in remaking the world through current challenges to the war on drugs This book was originally published as a special issue of Space Polity

People, Place and Global Order Andrew Taylor, Adam Bronstone, 2019-05-08 Globalization and technology are combining to change socio economic relationships The pace of change and uncertainty of the world of work no job for life zero hours contracts diminished pension rights and a growing delivery dependence on digital networks over human contact are creating a profound unease that may be unprecedented in the Western world If organizational patterns are not sufficiently adjusted and businesses continue as usual we run the risk of alienating entire groups within society with many feeling left behind Using deliberately accessible language for students and the general reader the authors draw upon socially innovative models of economic organization from the nineteenth century to present a model to master this new economy for the common good The book illustrates with practical examples how digital networks can be leveraged and provides a common checklist to identify suitable conditions for organizations to flourish and provide the means to more effectively evaluate opportunities

People, Place and Power on the Nineteenth-Century Waterfront Graeme J. Milne, 2016-08-24 This book explores the tenuous existence of seafarers divided between their time on the ocean and their residence in sailortown economies geared to exploit them Particular attention is given both to the contribution of seafarers as a global workforce into the nineteenth century and to their help in creating vibrant multicultural enclaves in port cities worldwide In addition research explores the scandalized opinions of outside observers challenging ideas about public behavior and relationships Sailortown myths persisted far into the twentieth century to the detriment of older waterfront districts and their residents and readers will find this book is invaluable in casting new light on forgotten communities whose lives bridged urban maritime and global histories
