Kitsuse, 2017-07-05

There is no adequate definition of social problems within sociology and there is not and never has been a sociology of social problems That observation is the point of departure of this book The authors aim to provide such a definition and to prepare the ground for the empirical study of social problems They are aware that their objective will strike many fellow sociologists as ambitious perhaps even arrogant Their work challenges sociologists who have over a period of fifty years written treatises on social problems produced textbooks cataloguing the nature distribution and causes of these problems and taught many sociology courses It is only natural that the authors work will be viewed as controversial in light of the large literature which has established a sociology of a wide range of social problems the sociology of race relations prostitution poverty crime mental illness and so forth In the 1970s when the authors were preparing for a seminar on the sociology of social problems their review of the literature revealed the absence of any systematic coherent statement of theory or method in the study of social problems For many years the subject was listed and offered by university departments of sociology as a service course to present undergraduates with what they should know about the various social pathologies that exist in their society This conception of social problems for several decades has been reflected in the substance and quality of the literature dominated by textbooks In Constructing Social Problems the authors propose that social problems be conceived as the claims making

activities of individuals or groups regarding social conditions they consider unjust immoral or harmful and that should be addressed This perspective as the authors have formulated it conceives of social problems as a process of interaction that produces social problems as social facts in society The authors further propose that this process and the social facts it produces are the data to be researched for the sociology of social problems This volume will be of interest to those concerned with the discipline of sociology especially its current theoretical development and growth *Applied Social Marketing and Quality of Life* M. Rivera, 2021-12-02 This book discusses how various social marketing campaigns have taken up and had an impact on important aspects of quality of life across the world The chapters bring up case studies from different regions showing how successful social marketing campaigns have been instrumental in addressing public health challenges discrimination and exclusion violence and inequity and in changing public perceptions in different countries and through public and nonprofit organizations but also through businesses Thus this book approaches social marketing from a quality of life QOL marketing philosophy taking an international perspective It includes 26 case studies discussing how social marketing campaigns were developed and implemented in specific cases related to disease prevention and risk behavior safe and healthy lifestyles and inclusion and interpersonal relationships It also covers social marketing campaigns related to COVID 19 in various countries The book is both comprehensive and provides in depth understanding of every case and is useful for research policy making development communication and social marketing Graduate students researchers practitioners and social marketers alike will find this book interesting Social Problems Corey Dolgon, Chris Baker, 2010-08-03 p This book empowers the powerless and gives sociologists and their students a new vantage point for understanding Judith Blau University of North Carolina Chapel Hill In *Social Problems A Service Learning Approach* authors Corey Dolgon and Chris Baker integrate an innovative case study approach into a comprehensive introduction that helps students understand how they can address social problems in their communities by applying basic theories and concepts Contributor to the SAGE Teaching Innovations and Professional Development Award **ECIE 2020 15th European Conference on Innovation and Entrepreneurship** Prof. Alessandro De Nisco, 2020-09-17 The European Conference on Innovation and Entrepreneurship has been running now for 15 years This event has been held in Italy Northern Ireland France Belgium Portugal and Finland to mention some of the countries who have hosted it The conference is generally attended by participants from more than 40 countries and attracts an interesting combination of academic scholars practitioners and individuals who are engaged in various aspects of innovation and entrepreneurship teaching and research The 16th European Conference on Innovation and Entrepreneurship will be hosted by Instituto Universit rio de Lisboa ISCTE Portugal and the Conference Chair will be Florinda Matos The Professional Social Worker Neil Thompson, 2017-09-16 In this ground breaking text book bestselling author Neil Thompson turns his attention to the question of What does it mean to be truly professional in the field of social work Notions of professionalism in social work have

changed over time Early traditional ideas showed themselves to be elitist and inconsistent with the fundamental principles of social work and have been followed by a period of uncertainty as to whether or not social workers are professionals at all Now with a move towards a new form of professionalism beginning to take shape this book presents a cogent argument for reaffirming this vital aspect of social work Informed by extensive experience and expertise Thompson examines the role of the modern day social worker in four parts as problem solver thinker manager and professional Whether a student new to the complexities of this demanding rewarding field taking a social work practice or placement module or a qualified practitioner seeking a source of guidance this book will help meet the challenge of developing a professionalism that is consistent with the values of contemporary social work
