John Igbino

People Of Britain:

Britain's Killing Fields John Igbino, 2023-01-19 Britain kept meticulous records of its casualties in Southern Nigeria but it did not collect and keep any coherent records of the casualties it inflicted on the so called natives Britain's failure to collect and keep natives casualty statistics was not an unconscious omission. Instead it was a deliberate policy because it placed considerably less value on the lives of natives compared to European lives. It held that a drop of European blood was worth four times more than natives blood. The death of a District Officer on active duty was worth the lives of up to two hundred natives and it took twenty natives to service a Political Officer on the field. Additionally it accepted the arguments of its top commander Colonel Arthur Montanaro that natives were engaged in illegal resistance to His Majesty's Government therefore while he had a duty to crush their resistance to the British Government he was not duty bound to account for their deaths. Accordingly the book explores these untold aspects of British History particularly the computation of the number of Indigenous people of the landmass which became Southern Nigeria who were killed between 1900 and 1930 during one of the bloodiest periods in the history of Southern Nigeria as British troops of the West African Frontier Force WAFF and the West African Service Brigade WASB rampaged through Southern Nigeria. In its explorations the book posed and addressed the following questions: how many Indigenous people of Southern Nigeria were killed by the British Army between 1900 and 1930? What were the names of the people who were killed? Were there women and children among the dead? How old were they when they died? Where were they buried? Who buried them there? What were the prevailing political circumstances when they were killed? Under what military circumstances were they killed? Was there a state of war between the Indigenous people of Southern Nigeria and Britain when they were killed? The book's sources were unpublished original archival documents at the National Archives. These document sources included Ordinances, Proclamations, Admiralty's and Crown Agents papers, High Commissioners, Governor General's and Lieutenant Governor's Correspondences and Despatches. The Correspondences and Despatches included field reports compiled by British Army Officers, Field Commanders, British Police Commissioners, Political Officers, District Officers, DO, District Commissioners, Divisional Officers, Divisional Commissioners and Provincial Commissioners. These sources are kept in the following Colonial Office Documents series: Southern Nigeria CO520 series and Nigeria CO583 series.

Illegal Immigration of Jews to Palestine, 1945-1949 Freddy Liebreich, 2004-10-07 This book provides an important shift in the analysis of Britain's policy towards the illegal postwar Jewish immigration into Palestine. It charts the development of Britain's response to Zionist immigration from the initial sympathy as embodied in the Balfour Declaration through attempts at blockade, refoulement and finally disengagement. The book exposes differences in policy pursued by the great departments of state like the Foreign Colonial and War Offices and their legal advisors and those implemented by the Admiralty. The book argues that the eventual failure of Britain's immigration policy was inevitable in view of the hostility shown by many European nations and America towards Britain's ambition to retain her position in the Middle East. The Outlook Lyman Abbott, Hamilton Wright Mabie, Ernest Hamlin Abbott, Francis Rufus Bellamy, 1923 *People in Britain* Great Britain. Office of Population Censuses and Surveys, 1981 A History of England, Volume 1 Clayton Roberts, F David Roberts, Douglas Bisson, 2016-07-01 This two volume narrative of English history draws on the most up to date primary and secondary research encouraging students to interpret the full range of England's social economic cultural and political past. A History of England Volume 1 Prehistory to 1714 focuses on the most important developments in the history of England through the early 18th century. Topics include the Viking and Norman conquests of the 11th century, the creation of the monarchy, the Reformation and the Glorious Revolution of 1688. **Sketches of an Epoch** Desmond Mattocks, 2008-03 Now I Lay Me Down The Owner's Manual for the Dying Patient Their Caregivers and Their Loved Ones was written to help those with a terminal illness and those who care for them to improve the quality of their physical and spiritual life. It also gives guidance to the loved ones after death. During Mrs Stringer's work as a hospice nurse she came to realize the importance of an open and honest relationship in the last months and days of a person's life. This is reflected in the book as she has condensed an enormous amount of information in a straight forward easy to understand guide while remaining sensitive and compassionate.
