Finger, Philip Schuler, 2004 This publication considers how poor people in developing countries can maximise their earning capacity and find viable markets based on their innovation and traditional skills as well as their creative cultural and intellectual knowledge It contains a number of papers which examine case studies relating to the African music industry traditional crafts and ways to prevent counterfeit crafts designs the activities of fair trade organisations biopiracy and the commercialisation of ethnobotanical knowledge the use of intellectual property laws and other tools to protect traditional knowledge Whilst seeking to maintain the art and culture of poor people the contributions also recognise traditional skills must develop viable markets in order to survive and the case studies illustrate that culture and commerce can often complement rather than conflict with each other      Knowledge Solutions Olivier Serrat, 2017-05-22 This book is open access under a CC BY NC 3.0 IGO license This book comprehensively covers topics in knowledge management and competence in strategy development management techniques collaboration mechanisms knowledge sharing and learning as well as knowledge capture and storage Presented in accessible chunks it includes more than 120 topics that are essential to high performance organizations The extensive use of quotes by respected experts juxtaposed with relevant research to counterpoint or lend weight to key concepts cheat sheets that simplify access and reference to individual articles as well as the grouping of many of these topics under recurrent themes make this book unique In addition it provides scalable tried and tested tools method and approaches for improved organizational effectiveness The research included is particularly useful to knowledge workers engaged in executive leadership research analysis and advice and corporate management and administration It is a valuable resource for those working in the public private and third sectors both in industrialized and developing countries      *New Research on Knowledge Management Technology* Huei Tse Hou, 2012-02-24 Due to the development of mobile and Web 2.0 technology knowledge transfer storage and retrieval have become much more rapid In recent years there have been more and more new and interesting findings in the research field of knowledge management This book aims to introduce readers to the recent research topics it is titled *New Research on Knowledge Management Technology* and includes 13 chapters In this book new KM technologies and systems are proposed the applications and potential of all KM technologies are explored and discussed It is expected that this book provides relevant information about new research trends in comprehensive and novel knowledge management studies and that it serves as an important resource for researchers teachers and students and for the development of practices in the knowledge management field      **Self-Knowledge and Knowledge Management Applications** Beverly Weed-Schertzer, 2023-02-17 Defining and explaining how Self Knowledge enhances the application of different knowledge types when used both independently and collectively *Self Knowledge and Knowledge Management Applications* is essential reading for professionals and students across multiple disciplines from business and management to strategy and technology      *At the*

*Intersection of Indigenous and Traditional Knowledge and Technology Design* Nicola Bidwell, Heike

Winschiers-Theophilus, 2015 There is intensified interest in designing information and communication technologies ICTs that respond to ways of doing knowing and saying that differ from those that dominate in producing ICTs and in particular to traditional or indigenous knowledges ICT endeavours for indigenous or traditional knowledges ITK vary Some aim to extend ITK digitally and others use ICTs to improve the economic and or political situation of marginalised groups This book presents themes that arise in designing to respond to ITK in different cultural social physical and historical contexts

*Knowledge Technology and Systems* Yoshiteru Nakamori, 2023-07-15 This book discusses technology and systems to create valuable ideas from data through the construction of knowledge The primary concern is to make better decisions about economic and management issues in today's information flooded society Human creative activity is in the realm of soft technology with no physical entity to operate Focusing on the ability of knowledge as judgment power this definition results Knowledge technology is soft technology that underpins the human creative activities of converting data and information into knowledge creating new ideas based on that knowledge and validating those ideas That definition includes a wide range of soft technologies developed in informatics management studies and systems science The knowledge system creates ideas from data and knowledge through knowledge technologies Based on the proposition that knowledge emerges by the interaction between explicit and tacit knowledge another definition is possible The knowledge system is a system that promotes interaction between codified and personalized knowledge and creates ideas for solving a specific problem Codified knowledge includes data and information while personalized knowledge is empirical knowledge or wisdom that is difficult to put into words Building a knowledge system requires mathematical or intelligent knowledge technology and participatory knowledge technology to create or manage codified knowledge and personalized knowledge For example a company builds cross sectional knowledge systems by gathering human resources from various departments according to the purpose as in new product development or sales promotion Chapter 1 defines knowledge technology and the knowledge system and organizes the challenges in their development while Chapters 2 through 9 introduce mathematical or intelligent knowledge technologies by researchers at the forefront of knowledge technology development *Information Technology for*

*Knowledge Management* Uwe M. Borghoff, Remo Pareschi, 2013-03-14 As we approach the beginning of the 21<sup>st</sup> century we are beginning to see the emergence of knowledge management as a natural evolution of the focus and importance of quality in the 1980s and reengineering in the 1990s Quality placed a huge emphasis on getting all employees to use their brainpower better Reengineering emphasized the use of technology to streamline business processes and take out costs With the lessons of quality and reengineering firmly embedded in our everyday operations continual cost containment and higher quality is a way of life businesses are now turning their attention to growth Growth is a common pursuit Customers are calling for it Financial markets are calling for it Employees are asking for it because they want an exciting and stimu

lating environment in which to work If a business doesn't grow it will eventually die because knowledge workers of the 21<sup>st</sup> century won't want to work with or for a business that's not growing Skilled workers have plenty of options to choose from as demand for knowledge workers escalates around the world *Handbook of Research on Business Social Networking: Organizational, Managerial, and Technological Dimensions* Cruz-Cunha, Maria Manuela, Gonçalves, Patricia, Lopes, Nuno, Miranda, Eva Maria, Putnik, Goran D., 2011-10-31 Given the widespread frequent use of social networks as a means for people to communicate and share their interests it comes as no surprise that they have become an important tool for businesses and business networking The Handbook of Research on Business Social Networking Organizational Managerial and Technological Dimensions investigates the beginning of social networks and provides perspectives on how they can enhance business This two volume reference discusses the main issues challenges opportunities and trends related to the range of new developments and applications in business social networking Social networks and their integration in businesses are addressed using technological organizational managerial and social perspectives with the aim of disseminating current developments case studies new integrated approaches and practical solutions and applications

Educational Innovation in Economics and Business V L. Borghans, 2000 The Information and Communication Technology revolution results in profound changes to the heart of business and economics Changes in the workplace new communication technology new organizational structures and new production technologies force business educators to renew their focus on the curricula of business schools There is no doubt these changes influence business education and instructional technology But change will go far beyond the mere introduction of technology in the classroom Alliances between the corporate world and business education are no longer fictitious but are necessary to establish stronger bonds between educational systems and the workplace The fifth volume in the series Educational Innovation in Economics and Business contains a unique selection of articles addressing various issues on how business education should adapt to changing needs of the corporate world It is meant for educators in corporate training centers and for teachers in further and higher education Knowledge Management: Nurturing Culture, Innovation And Technology - Proceedings Of The 2005 International Conference On Knowledge Management Suliman Hawamdeh, 2005-10-06 This collection of papers from the 2005 International Conference on Knowledge Management organized jointly by the Information and Knowledge Management Society and the American Society for Information Science and Technology represents some of the best work by researchers and practitioners in the field of knowledge management It covers a wide range of topics that include knowledge sharing and knowledge utilization knowledge discovery knowledge organization communities and collaborations organizational issues knowledge management strategies and implementations knowledge management education innovation measurements and business intelligence This book will appeal to knowledge management professionals as well as academicians looking for a deeper understanding of knowledge management research and practical implementations *Knowledge Technology* Yoshiteru Nakamori, 2021-07-10

This book reviews creative technologies that underpin the human activities of converting data and information into knowledge creating new ideas based on that knowledge and validating those ideas The book calls such creative technology knowledge technology and explores its challenges in the age of big data Today artificial intelligence and big data are successfully performing pattern recognition and decision making on behalf of humans who are incapable of processing large amounts of information instantly and accurately In using only past data however there are limits to future predictions with artificial intelligence and big data Humans need to take the lead in predicting or creating the future by trying to understand why data emerged Knowledge technology contributes to that understanding regardless of the field of origin As a matter of fact knowledge technology includes many technologies developed in informatics management study and systems science The desirable features of knowledge technology are the complementary use of rational and intuitive approaches the integration of results from quantitative and qualitative analyses and the cooperation between artificial intelligence and humans

**Innovation in the Asia Pacific** Thomas Clarke, Keun Lee, 2017-10-20 This book promotes the creation of advanced knowledge based economies driven by innovation networks and the continuous development of human capital and capability It provides valuable insights into the growing emergence of knowledge based industries of the Asia Pacific and highlights research on modes of creativity and innovation intellectual property the components of national innovation systems such as firms education and training knowledge and technical infrastructure and public policy The Asia Pacific region is currently in the process of transforming from being the manufacturing centre of the global economy to a centre of innovation for the knowledge economy with the successful IPO of Alibaba in 2014 being a

prime example of this shift From a neo Schumpeterian perspective the region is increasingly engaged in shortening and intensifying cycles of innovation The historic agreement at the Beijing APEC meeting between China and the US to radically reduce carbon emissions indicates that one imperative of this innovation is to contribute to sustainability The fact that the US Government is moving away from this historic commitment while the Chinese Government is endorsing the commitment indicates an emerging opportunity for Asia to lead the world technologically in a vital industrial sector of the future

Technology and Knowledge Flow Guglielmo Trentin,2011-08-05 This book outlines how network technology can support foster and enhance the Knowledge Management Sharing and Development KMSD processes in professional environments through the activation of both formal and informal knowledge flows Understanding how ICT can be made available to such flows in the knowledge society is a factor that cannot be disregarded and is confirmed by the increasing interest of companies in new forms of software mediated social interaction The latter factor is in relation both to the possibility of accelerating internal communication and problem solving processes and or in relation to dynamics of endogenous knowledge growth of human resources The book will focus specifically on knowledge flow KF processes occurring within networked communities of professionals NCP and the associated virtual community environments VCE that foster horizontal dynamics in the management sharing and development of fresh knowledge Along this line a further key issue will concern the analysis and evaluation techniques of the impact of Network Technology use on both community KF and NCP performance The proposal of a taxonomy of Network Technology uses to support formal and informal knowledge flows Analyses how Web 2 0 and Web 3 0 technology is deeply modifying the dynamics connected to KF and KM Discusses dynamics underlying horizontal KF sharing processes within NCP      **Strategic Knowledge Management Technology** Petter Gottschalk,2005-01-01
