## **People Out Of Place Globalization Human Rights And The Citizenship Gap:**

**People Out of Place** Alison Brysk, Gershon Shafir, 2004 First Published in 2004 Routledge is an imprint of Taylor Francis an informa company *European Populism and Human Rights* Jure Vidmar, 2020-02-03 This volume focuses on the recent challenge posed by right wing populism to democratic consolidation in Europe and particularly explores the legal dimensions of this challenge Part One attempts to define political populism and explains why it poses a challenge to democratic political order in Europe Part Two examines the theoretical underpinnings of the populist challenge to human rights and democracy in Europe Part Three applies this theory to concrete examples and considers case studies including an old EU Member State two newer EU Member States and a non EU Member State party to the ECHR The aim is to examine the consequences of the present populist challenge in Europe that has been marked with excessively nationalist policies in some states party to the ECHR It is explored how the Convention rights have been undermined but also what the limitations are of the ECHR acting as a safety net for democratic consolidation in Europe **Immigration Detention and Human Rights** Galina

Cornelisse, 2010-03-08 Practices of immigration detention are largely resistant to conventional forms of legal correction because contemporary liberal democracies justify these practices with an appeal to their territorial sovereignty a concept that thwarts the very communicability of individual interests in modern constitutionalism However this book argues that human rights in the specific context of immigration detention can function as destabilisation rights subjecting to full legal scrutiny those claims that the national state presents as predominantly based on its territorial sovereignty The resulting destabilisation of territorial sovereignty in both domestic and international constitutionalism will have ramifications for a number of instruments of migration control the perceived necessity and legitimacy of which is almost exclusively based on the self referential notion of territorial sovereignty **No Citizens Here: Global Subjects and Participation in**

**International Law** René Urueña, 2012-03-23 Building on the notion of a risk society this book offers an alternative to the traditional notion of international legal subjects by arguing that international law creates fragmented subjectivities whose conflicting identities help perpetuate a certain global loss of sense that is characteristic of our times **The Right to Have Rights** Alison Kesby, 2012-01-12 Writing in the immediate aftermath of the Second World War the political theorist Hannah Arendt argued that the plight of stateless people in the inter war period pointed to the existence of a right to have rights The right to have rights was the right to citizenship to membership of a political community Since then and especially in recent years theorists have continued to grapple with the meaning of the right to have rights In the context of enduring statelessness mass migration people flows and the contested nature of democratic politics the question of the right to have rights remains of pressing concern for writers and advocates across the disciplines This book provides the first in depth examination of the right to have rights in the context of the international protection of human rights It explores two overarching questions First how do different and competing conceptions of the right to have rights shed light on right

bearing in the contemporary context and in particular on concepts and relationships central to the protection of human rights in public international law Secondly given these competing conceptions how is the right to have rights to be understood in the context of public international law In the course of the analysis the author examines the significance and limits of nationality citizenship humanity and politics for right bearing and argues that their complex interrelation points to how the right to have rights might be rearticulated for the purposes of international legal thought and practice **Globalizing**

**Citizens** John Gaventa,Rajesh Tandon,2013-07-04 Globalization has given rise to new meanings of citizenship Just as they are tied together by global production trade and finance citizens in every nation are linked by the institutions of global governance bringing new dynamics of inclusion and exclusion For some globalization provides a sense of solidarity that inspires them to join transnational movements to claim rights from global authorities for others globalization has meant greater exposure to the power of global corporations bureaucracies and scientific experts thus adding new layers of exclusion to already fragile meanings of citizenship Globalizing Citizens presents expert analysis from cities and villages in India South Africa Nigeria the Philippines Kenya the Gambia and Brazil to explore how forms of global authority shape and build new meanings and practices of citizenship across local national and global arenas **The Human Right to**

**Citizenship** Rhoda E. Howard-Hassmann,Margaret Walton-Roberts,2015-05-28 In principle no human individual should be rendered stateless the Universal Declaration of Human Rights stipulates that the right to have or change citizenship cannot be denied In practice the legal claim of citizenship is a slippery concept that can be manipulated to serve state interests On a spectrum from those who enjoy the legal and social benefits of citizenship to those whose right to nationality is outright refused people with many kinds of status live in various degrees of precariousness within states that cannot or will not protect them These include documented and undocumented migrants as well as conventional refugees and asylum seekers living in various degrees of uncertainty Vulnerable populations such as ethnic minorities and women and children may find that de jure citizenship rights are undermined by de facto restrictions on their access mobility or security The Human Right to Citizenship provides an accessible overview of citizenship regimes around the globe focusing on empirical cases of denied or weakened legal rights Exploring the legal and social implications of specific national contexts contributors examine the status of labor migrants in the United States and Canada the changing definition of citizenship in Nigeria Germany India and Brazil and the rights of ethnic groups including Palestinians Rohingya refugees in Bangladesh Bangladeshi migrants to India and Roma in Europe Other chapters consider children s rights to citizenship multiple citizenships and unwanted citizenships With a broad geographical scope this volume provides a wide ranging theoretical and legal framework to understand the particular ambiguities paradoxes and evolutions of citizenship regimes in the twenty first century Contributors Michal Baer Kristy A Belton Jacqueline Bhabha Thomas Faist Jenna Hennebry Nancy Hiemstra Rhoda E Howard Hassmann Audrey Macklin Margareta Matache Janet McLaughlin Carolina Moulin Alison Mountz Helen O Nions Chidi Anselm Odinkalu Sujata

Ramachandran Kim Rygiel Nasir Uddin Margaret Walton Roberts David S Weissbrodt      Securitizations of Citizenship Peter Nyers, 2009-05-19 Securitizations of Citizenship critically assesses the fate of citizenship in relation to securitized practices of surveillance and control that have emerged in the post 9 11 period      Culture Beyond Country Amy Malek, 2025-10-14 Offers an in depth exploration of the Iranian diaspora and the negotiation of belonging With an estimated 5 to 8 million people spread across the globe the Iranian diaspora has become a visible and dynamic cultural presence especially in North America and Europe Faced with shallow or distorted portrayals diasporic Iranians have responded to persistent misrepresentations and marginalization by turning to culture as a deliberate strategy of inclusion Reshaping how their stories are told community organizers artists and entrepreneurs are actively challenging public narratives asserting new cultural imaginaries and navigating the terms of inclusion and exclusion putting new visions of Iranian identity into the public eye Drawing on transnational ethnographic fieldwork and over 125 semi structured interviews conducted over the course of 16 years Culture Beyond Country offers the first comparative ethnography of these cultural strategies of inclusion examining the distinct practices and experiences of Iranians in three key cities of the diaspora Los Angeles Stockholm and Toronto Attending to the institutional and ideological forces that come to bear on Iranian cultural organizers in these three diasporic locations Amy Malek examines how immigrants and their descendants negotiate belonging in response to various and shifting state approaches to cultural citizenship The volume examines how state multicultural policy influences who is empowered to represent Iranian culture how local factors shape expressions of Iranian identity across the diaspora and how these representations are contested within Iranian communities Providing a compelling transnational study of immigrant multiculturalism cultural citizenship and inclusion across the global Iranian diaspora Culture Beyond Country showcases not only how the process of representing Iranian culture in the diaspora generates competing views on what it means to be Iranian but also how competing modes of belonging subvert and reinforce existing power relations across local national and transnational scales      *Gender Matters in Global Politics* Laura J.
