People Planning And Development Studies Some Reflections On Social Planning:

People Planning and Development Studies Raymond Apthorpe, 1970 The aim of these essays is to discuss the process of evolution in under developed countries and to show what difficulties are now encountered in these newly developed states

Social Development in the World Bank Maritta Koch-Weser, Scott Guggenheim, 2021-04-23 This open access book honors the work of Michael Cernea who was the World Bank's first professional sociologist by taking on and extending his arguments for putting people first Cernea led a community of social scientists in formulating and promoting a comprehensive set of innovative and original social policies on development issues which the World Bank adopted and implemented This book includes globally significant work on urban and rural development the epistemology of using social science knowledge in national and international development methodologies for using social organization for more effective poverty reduction and the experience of crafting social policies to become normative frameworks for purposive collective social action And by including contributions from senior policy makers in the World Bank who helped shepherd social science's entry into development policy and practice it provides a unique look at how organizational change can happen *Transformative*

Sustainable Development Kei Otsuki, 2014-12-05 Recent debates about sustainable development have shifted their focus from fixing environmental problems in a technocratic and economic way to more fundamental changes in social political processes and relations In this context participation is a genuinely transformative approach to sustainable development yet the process by which participation leads to transformation is not sufficiently understood This book considers how the act of participating in sustainable development projects can bring about social transformation that is considered to be fair and just by the participants and non participants in a broader societal context Drawing on ideas from social theory and applied anthropology the book proposes a reflexivity based framework to analyse participation as a type of social action underpinned by primary experience Development projects have a transformative effect when participants are given the opportunity to reflect on their experience share the reflection with others and open new space for collective deliberation and change The book applies this framework to assess community based participatory projects in the Amazon African slums and rural settlements and disaster stricken areas in Japan It also outlines potential institutions of governance to institutionalize the change by referring to current food governance drawing out lessons with international relevance This book will be of interest to students of sustainable development environmental policy and development studies as well as practitioners and policy makers in these fields *Anthropology and Development* Emma Crewe, Richard Axelby, 2013 An exploration of anthropological perspectives on the cultures moralities and politics of the world of aid and development

Sustainable Development in Amazonia Kei Otsuki, 2013-03-12 This book argues against the assumption that sustainability and environmental conservation are naturally the common goal and norm for everyone in Amazonia This is the first book focusing on agency reflexivity and social development to address sustainable development in the region It discusses the importance of looking into societal dynamics

in order to deal with deforestation and sustainable development policies through the ethnography of an Amazonian settlement named New Paradise This book demystifies utopian and overtly conservationist views that depict the Amazon rainforest as a troubled paradise Engaging with social theory of practice with particular focus on emergentist perspectives and Foucault's analysis of heterotopia the author shows that Amazonia is a set of settlement heterotopias in which various local and external initiatives interact to make up real lived in places The settlers placemaking continually rearranges power and material relations while the process usually emphasises utopian developmentalist and conservationist policy intervention This book explores in detail how as power relations are arranged and governance reshaped sustainable development and construction of a green society also need to become a goal for the settlers themselves The book's insights on the relationship between the sustainable development frameworks used in environmental policy and ongoing societal development on the ground inform debate both within Amazonia and in comparable communities worldwide It also offers institutional pathways to realise new more engaging policy intervention for development professionals and policy makers

Sociology and Development Emanuel de Kadt, Gavin Williams, 2018-05-11 Originally published in 1974 Sociology and Development are a selection papers from the British Sociological Association's conference on development The book combines both theoretical discussion and empirical material drawn from both urban and rural areas in Africa Latin America China the USSR and Great Britain as well as from specific studies on the mass media and the health services Above all the papers contribute to a greater understanding of reality in dependent less developed societies and so modify some of the over simplifications introduced by the sweeping vision of the new theorists *National Library of Medicine Current Catalog* National Library of Medicine (U.S.), 1971 First multi year cumulation covers six years 1965 70 *Transnational Capitalism and National Development* José Joaquín Villamil, 1979 Monographic compilation of essays on the impact of multinational enterprise capitalism on national level economic development and dependence of developing countries incl Latin America and Africa considers the origins of the dependence development theory in context with modernization and neoclassical economic theories analyses underdevelopment effects of mass media arms technological change etc and examines alternative development policy options based on self reliance references and statistical tables *Public Administration* Great Britain.

Ministry of Overseas Development. Library, 1973 **Arguing Development Policy** Raymond Apthorpe, Des Gasper, 2014-06-23 This collection shows how policy discourses in the fields of national and international developments are constructed and operate and how they can be analysed Dominant discourses screen out certain aspects they frame issues to include some matters and typically exclude important others More generally different policy discourses construct the world in distinctive ways through language that requires deconstruction and careful review *International Labour Documentation*, 1978 *Making a Difference?* Susanna Price, Kathryn Robinson, 2015-01-01 Social assessment for projects in China is an important emerging field This collection of essays from authors whose formative work has influenced the

policies that shape practice in development affected communities locates recent Chinese experience of the development of social assessment practices including in displacement and resettlement in a historical and comparative perspective Contributors social scientists employed by international development banks national government agencies and sub contracting groups examine projects from a practitioner s perspective Real life experiences are presented as case specific praxis theoretically informed insight and pragmatic lessons learned grounded in the history of this field of development practice They reflect on work where economic determinism reigns supreme yet project failure or success often hinges upon sociopolitical and cultural factors **Policy and Politics** ,1995 Insurgencies: Essays in Planning Theory John

Friedmann,2011-01-10 This collection of Friedmann s most important and influential essays tells a coherent and compelling story about how the evolution of thinking about planning over several decades has helped to shape its practice An ideal text for the study of planning theory and history each of the chapters is introduced by a brief essay to establish its context and importance and is followed by a series of study questions to help focus classroom discussions as well as suggested readings

The Adaptation Process of a Resettled Community to the Newly-Built Environment A Study of the Nubian Experience in Egypt Wael Salah Fahmi,2014-04-01 Generally construction of dams is regarded as means of economic progress in many countries Major consequences of such projects are the inundation of upstream areas and the resettlement of entire communities in newly built environments where they experience dramatic transformation in their lifestyles The present study takes the Nubian resettlement experience after the creation of Lake Nasser that submerged their old settlements along the river Nile Following their resettlement the design of the newly built environment disrupted the Nubian traditional lifestyles and patterns of privacy mechanisms territoriality and social interaction The inadequacy of the newly built environment was mainly attributed to the Nubians transfer from spacious homes in the old villages to compact contiguous houses in the new settlements The arrangement of these resettlement state built houses distributed on the basis of household size has further resulted in the fragmentation and the dispersion of traditional kinship based neighborhoods Within an interdisciplinary approach the study is based on theoretical historical and conceptual themes and on empirical research It sets out to examine the households responses towards and adaptation mechanisms with the newly built environment looking critically at the achievements of imposed top down planning in meeting the socio cultural and economic needs of those resettled **Population Problems in Africa** Delores M. Mortimer,1973 **Dictionary Catalog of the**

Jesse E. Moorland Collection of Negro Life and History, Howard University Library, Washington, D.C. Moorland Foundation,1970 **Economic Anthropology** Chris Hann,Keith Hart,2018-06-11 This book is a new introduction to the history and practice of economic anthropology by two leading authors in the field They show that anthropologists have contributed to understanding the three great questions of modern economic history development socialism and one world capitalism In doing so they connect economic anthropology to its roots in Western philosophy social theory and world history

Up to the Second World War anthropologists tried and failed to interest economists in their exotic findings They then launched a vigorous debate over whether an approach taken from economics was appropriate to the study of non industrial economies Since the 1970s they have developed a critique of capitalism based on studying it at home as well as abroad The authors aim to rejuvenate economic anthropology as a humanistic project at a time when the global financial crisis has undermined confidence in free market economics They argue for the continued relevance of predecessors such as Marcel Mauss and Karl Polanyi while offering an incisive review of recent work in this field Economic Anthropology is an excellent introduction for social science students at all levels and it presents general readers with a challenging perspective on the world economy today Selected by Choice as a 2013 Outstanding Academic Title **The Demography of Zimbabwe** William Muhwava,1994 **Asian Bibliography** ECAFE Library,1971
