Hull, 2005 Since its inception in 1945 the Republic of Indonesia has experienced a series of profound social changes The spread of schooling the transformation of the economy and the consolidation of a unified state have transformed the lives of Indonesian citizens It is seldom recognized however that the most fundamental changes have occurred in the family sphere Marriages that used to be arranged by parents are now more likely to be determined by couples Unions occur when the couples are much older The adoption of birth control practices has reduced fertility from large families to a two child norm in just over thirty years These changes have molded the lives of individual women described here through a series of personal case studies and shaped the size and structure of the national population as seen in the statistics produced by the government on a regular basis The story that emerges gives strong hints about where the Indonesian population will be heading in the next fifty years with a growing proportion of aged citizens Most importantly *People Population and Policy in Indonesia* shows the importance of collaborations between Indonesian leaders and their foreign colleagues in the efforts to reshape the Indonesian population and improve its social and economic welfare

People-Oriented Security Community the ASEAN way Alan Collins,2013-05-07 ASEAN has declared its intention to create a
security community in Southeast Asia that is people orientated This book evaluates ASEAN's progress and in doing so
examines three matters of concern The book firstly looks at the importance of constitutive norms to the workings of security
communities by identifying ASEAN's constitutive norms and the extent to which they act as a help or hindrance in
establishing a security community It then moves on to how ASEAN has interpreted people orientated as empowering civil
society organisations to be community stakeholders The book discusses the uncertainty between how ASEAN envisages their
role and the role they themselves expect to have Civil society actors are seeking to influence what sort of community evolves
and their ability to interact with the state elite is evaluated to determine what interpretation of people oriented is likely to
emerge Thirdly in order to make progress ASEAN has sought to achieve cooperation among its member states in functional
areas The book examines this interest in functional cooperation through case studies on human rights HIV AIDS and disaster
management By discussing the notion of ASEAN being people orientated and how it engages with the people the book
provides important insights into what type of community ASEAN is building as well as furthering our understanding on
security communities more broadly **Surabaya Press Summary** ,1964 **Law and Religion in Indonesia** Melissa
Crouch,2013-11-12 Understanding and managing inter religious relations particularly between Muslims and Christians
presents a challenge for states around the world This book investigates legal disputes between religious communities in the
world's largest majority Muslim democratic country Indonesia It considers how the interaction between state and religion
has influenced relations between religious communities in the transition to democracy The book presents original case
studies based on empirical field research of court disputes in West Java a majority Muslim province with a history of radical
Islam These include criminal court cases as well as cases of judicial review relating to disputes concerning religious
education permits for religious buildings and the crime of blasphemy The book argues that the democratic law reform
process has been influenced by radical Islamists because of the politicization of religion under democracy and the
persistence of fears of Christianization It finds that disputes have been localized through the decentralization of power and
exacerbated by the central government's ambivalent attitude towards radical Islamists who disregard the rule of law

Examining the challenge facing governments to accommodate minorities and manage religious pluralism the book furthers understanding of state religion relations in the Muslim world This accessible and engaging book is of interest to students and scholars of law and society in Southeast Asia as well as Islam and the state and the legal regulation of religious diversity
