Peptalk De Engelse Woordenschat Van Het Nederlands:

Peptalk Liesbeth Koenen, Rik Smits, 1992-01-01 *Peptalk*, 1992 English in Europe Manfred Görlach, 2002-05-23

English in Europe charts the English invasion of Europe since 1945 Sixteen distinguished European scholars report on the English words and phrases that have become integral parts of their languages Each describes the effect of English on the host language and shows how the process of incorporation often modifies pronunciation and spelling and frequently transforms meaning and use The languages surveyed are Icelandic Dutch French Spanish Norwegian German Italian Romanian Polish Croatian Finnish Albanian Russian Bulgarian Hungarian and Greek The book is designed as a companion to A Dictionary of European Anglicisms but may be read as an independent work This is the first systematic survey of a phenomenon that is fascinating alarming and apparently unstoppable Dubbel Dutch Kevin Cook, 2002 Het accent van dit boek ligt op aspecten die in de meeste cursussen Nederlands als tweede taal onvoldoende uitgelegd of zelfs helemaal genegeerd worden Veelgebruikte woorden uit het dagelijkse leven worden op een vaak humoristische wijze verklaard De handleiding is in de eerste plaats vanuit het standpunt van Engelstaligen geschreven maar is ook bruikbaar voor anderstaligen met een goede kennis van het Engels en een vergevorderde kennis van het Nederlands An Annotated Bibliography of European Anglicisms Manfred Görlach, 2002-05-09 This companion volume to the Dictionary of European Anglicisms and English in Europe also edited by Professor G rlach provides a critical bibliography of works concerned with the import of English words and phrases into sixteen European languages The book covers an international range of foreign word dictionaries etymological dictionaries and general dictionaries books and articles devoted to the influence of English on the language in question works restricted to individual levels of influence e g phonology morphology etc works dealing with the English influence in specific fields in individual styles regions or social classes corpus oriented studies and major works documenting earlier influences of English TiNT-dag 2010 (Reeks: Terminologie in het Nederlandse Taalgebied, deel 2), 2011 *Current Trends in West Germanic Etymological Lexicography* Rolf H. Bremmer, Jan van den Berg, 2023-12-14

Etymology is that branch of historical linguistics which studies the history and origin of words usually presenting its results in dictionary shape The enduring popular demand for etymological dictionaries has demonstrated the social relevance of this branch of linguistics The present volume concerns the etymology of the Modern Germanic languages of Western Europe Dutch German English and Frisian Current Trends reports on recently completed etymological dictionaries or on such projects in progress The contributors communicate their experiences in tackling the problems they encountered both in their researches and in shaping their findings As a result the volume offers a blend of theoretical and practical approaches to etymological lexicography which makes stimulating reading for university courses in etymology as many of the problems signalled for one language also apply to other ones Simultaneously the book offers the specialist the opportunity to keep abreast of the advances made over the past ten years Contributors Dutch Willy Pijnenburg Rolf H Bremmer Jr Arend Quak
