Perceiving in Advaita Vedānta Bina Gupta,1995-01-01 The present volume is an annotated bibliography of the vedik Laksana the existence of which could be determined on the basis of printed editions catalogues of manuscripts and citations in other texts the incentive for compiling this bibliography grew out of an awareness that hardly any reliable information exists concerning manuscripts of veda laksana texts although they are of great use critical studies of vedic texts The goal of this work is to provide a comprehensive handbook of source materials on Veda Laksana by identifying and distinguishing the texts in various manuscripts and printed editions according to their contents and actual title **Perceiving in Advaita Vedānta** Bina Gupta,1995 *The Philosophy of Religion and Advaita Vedanta* Arvind Sharma,2008-01-31 Philosophy of religion as we know it today emerged in the West and has been shaped by Western philosophical and theological trends while the philosophical tradition of India flowed along its own course until the late nineteenth century when active if tentative contact was established between the West and the East This book provides a definite focus to this interaction by investigating issues raised in Western philosophy of religion from the perspective of Advaita Ved _nta the influential school of Indian thought In promoting the emergence of a cross cultural philosophy of religion Arvind Sharma focuses on John H Hick and his well known work *The Philosophy of Religion* as representative of modern Western philosophy of religion and on _ankara along with his modern successors such as M Hiriyanna and S Radhakrishnan as representative of Advaita Ved _nta **Physical Universe - Virtual God** Ramesh Kushwaha,2025-03-12 Discover the True Nature of God in Dr Ramesh Kushwaha s Groundbreaking Book Dr Ramesh Kushwaha s visionary book calls into question the stances of both theists and atheists suggesting that both miss a deeper truth by taking religious scriptures at face value Instead of debating God s existence Dr Kushwaha asks a deeper question What is the true nature of God Rethinking Eternity and the Concept of God Dr Kushwaha suggests the theory that if the universe is eternal as proposed by some religions and astrophysicists the traditional concept of God may not be needed This radical perspective could resolve the long standing arguments between theists and atheists while addressing questions often used to prove God s existence Bridging the Gap Between Science and Religion The book addresses the parallels between science and religion describing them as two distinct universes Science Anchored in the objective physical world Religion Rooted in the virtual subjective world created by the senses and the brain Dr Kushwaha posits that every individual is the creator God of their own Virtual Inner Universe of love hate greed and hope elements of human nature that science cannot fully explain The Theory of the Virtual Inner World Central to Dr Kushwaha s argument is the concept that human experiences are inherently virtual By focusing or withdrawing attention individuals can influence their inner world including pain and emotions This principle shines the torch on religious and mystical experiences such as the healing power of prayer and the impact of faith on physical well being Pure Consciousness The True God Within Dr Kushwaha identifies the Virtual Inner World as the space where the real God resides a form of Pure Consciousness present in

all living beings He explains how evolved human brains tap into this consciousness to achieve awareness and phenomenal experiences Mystics have been practicing this for centuries and the author believes it is the access point to daily happiness This book invites readers to Analyze the intersection of science religion and human nature Understand how attention shapes emotions and inner experiences Learn about the transformative power of Pure Consciousness in achieving fulfilment Whether you are a theist atheist or seeker of truth Dr Kushwaha s perspectives will revolutionize how you view God the universe and yourself

Advaita Vedanta and Vaisnavism Sanjukta Gupta,2013-02-01 In Indian philosophy and theology the ideology of Vedanta occupies an important position Hindu religious sects accept the Vedantic soteriology which believes that there is only one conscious reality Brahman from which the entire creation both conscious and non conscious emanated Madhusudana Sarasvati who lived in sixteenth century Bengal and wrote in Sanskrit was the last great thinker among the Indian philosophers of Vedanta During his time Hindu sectarians rejected monistic Vedanta Although a strict monist Madhusudana tried to make a synthesis between his monistic philosophy and his theology of emotional love for God Sanjukta Gupta provides the only comprehensive study of Madhusudana Sarasvati s thought She explores the religious context of his extensive and difficult works offering invaluable insights into Indian philosophy and theology

Medical Error and Harm Milos Jenicek,2010-07-02 Recent debate over healthcare and its spiraling costs has brought medical error into the spotlight as an indicator of everything that is ineffective inhumane and wasteful about modern medicine But while the tendency is to blame it all on human error it is a much more complex problem that involves overburdened systems constantly changing techno

Knowing Beyond Knowledge Thomas A. Forsthoefel,2020-09-10 This title was first published in 2002 This book builds on contemporary discussion of mysticism and religious experience by examining the process and content of religious knowing in classical and modern Advaita Drawing from the work of William Alston and Alvin Plantinga Thomas Forsthoefel examines key streams of Advaita with special reference to the conditions contexts and scope of epistemic merit in religious experience Forsthoefel uniquely employs specific analytical categories of contemporary Western epistemologies as heuristics to examine the cognitive dimension of religious experience in Indian Vedanta Showing the developing nuances in the analysis of religious experience in the thought of Shankara and his immediate disciples Suresvara and Padmapada as well as in the teaching of Ramana Maharshi an understudied but important South Indian saint of the 20th century this book offers a substantial contribution to studies of Indian philosophy as well as to contemporary philosophy of religion Using the tools of exegesis and comparative philosophy Forsthoefel argues for a careful justification of claims following religious experience even if such claims involve as they do in the Advaita a paradoxical knowing beyond knowledge

Advaita as a Global International Relations Theory Deepshikha Shahi,2018-07-11 The academic discipline of International Relations strives to attain a global spirit to narrow the cognitive gaps between the West and the Rest On the one hand there is the hegemonic presence of mainstream universalist Eurocentric IR theories and on the other the counter hegemonic presence of

particularist Post colonial and De colonial non Eurocentric IR theories Nevertheless both theoretical traditions endorse epistemological dualism that essentially separates the theorizing subject from the theorized object thereby failing to bridge the gaps This book uses the monist schema of subject object merger in the ancient Indian philosophy of Advaita to inaugurate a Global IR theory In the global theoretical schema of Advaitic monism the apparent particularist reality is supplemented not contradicted with the hidden universalist reality the net result of which is a reconciliation of dualism with monism at the theoretical practical level The possibilities of this reconciliation have not been estimated at either level and as such this untapped intellectual strategy stands to enrich both Eurocentric IR and non Eurocentric IR Shahi establishes Advaita as an alternative epistemological methodological tool to re imagine the complex realities of contemporary international politics This fully fledged Global International Relations Theory will appeal to students of international relations political theory administrative theory and philosophy

The Disinterested Witness Bina Gupta,1998 The Disinterested Witness is a detailed contextual and interpretive study of the concept of saksin or that which directly or immediately perceives in Advaita Vedanta and a fascinating and significant comparison of the philosophies of the East and West Addressing a wide range of epistemological dilemmas as well as perceived commonalities and differences between Eastern and Western philosophy it is a major contribution to comparative philosophy and forms a vantage point for cross cultural comparison *Prabuddha*

Bharata ,1999 **Krsna and Christ** Steven Tsoukalas,2011-09-01 This work compares the Krsnavatara Krsna in his avatara doctrines of Sankara and Ramanuja and the incarnation of Christ as represented by classical Christian orthodoxy and draws out comparative theological and soteriological implications It does so first by examining the epistemologies theologies and world views of Sankara and Ramanuja and the theology and world view of classical Christian orthodoxy so that second an adequate foundation and subsequent thorough representation of avatara and incarnation might be accomplished in order that third accurate comparisons may be drawn between avatara and incarnation The result of this study is a demonstration that many of the popularly held similarities between avatara and incarnation are superficial and that therefore careful consideration of epistemologies and ontologies should be undertaken when comparing theologies and soteriologies pertinent to avatara and incarnation **The Philosopher's Index** ,1994 Vols for 1969 include a section of abstracts
