

Religious Experience, Imagination and Interpretation: A Case Study Peter Cheyne

'What is beyond all question is that in the field of religion, imagination must be accorded an enormous role, seen as an indispensable agency without which the claims and teachings of religion could never be communicated at all – far less arrestingly or memorably expressed.'

Ronald Hepburn, 'Religious Imagination' (1992)

'You Scottish theologians are always talking in parables.'

1 Hepburn on religious imagination and interpretation

Without imagination, Ronald W. Hepburn argued, we cannot move from our ordinary concerns in their familiar, transient setting, to thoughts 'on a cosmic scale and with a cosmos-transcending being'.¹ Whether through icons, metaphors, or symbols, imagination is in this view a necessary power for the life – and not merely for the discourse – of religion and religious experience. Yet this very strength as a mode of relating to the transcendent, a mode that sees in and through surroundings – thereby gaining an elevated, symbolic significance – is also the root of what makes imagination a liability, being 'too ready to leap abysses in understanding and argumentation'.²

Hepburn adhered to an essentially Kantian understanding of imagination, furthered by an appreciation of S. T. Coleridge's famous distinctions concerning the concept. In Immanuel Kant's philosophy, the 'necessary' imagination³

An Alternative Vision Roger Haight, 2014-12-01 An Alternative Vision An Interpretation of Liberation Theology offers a complete overview of the liberation theology movement that is ideally suited for a thorough study of the major questions and important theologians that have contributed to the debate It outlines and brings together into a single unified account liberation theology's alternate vision for providing the possibility of meaningful historical existence for humans in the world today The author translates the Christian vision of liberation theologians from Latin

America into more general theological and cultural categories familiar to the English speaking world then shows how that vision makes a unified interpretation of Christian doctrine First liberation theology must be seen as a response to massive human suffering witnessed throughout the world today This human agony is largely caused by human beings and the social and political structures we create and liberation theology addresses this dilemma using the tradition of Christian wisdom and direct imperatives that have universal transcultural significance The second goal is achieved by showing the connection between liberation principles and the major doctrines of Christian belief including God Jesus Christ faith grace the church sacraments ministry and spirituality

Edward Schillebeeckx and Contemporary Theology Lieven Boeve, Frederiek Depoortere, Stephan van Erp, 2010-10-07 What are contemporary theology's challenges What are its fruitful approaches Who are its promising contributors The contributions to this collection of essays try to find answers to these questions by making references to the Dutch Dominican scholar Edward Schillebeeckx using his theology as a starting point for an up to date investigation and discussion The theological work of Edward Schillebeeckx marks the transition from a pre modern to a modern approach to Christian faith Church and theology Already more than two generations of theologians have been trained in dialogue with his thought Contemporary theology testifies often implicitly to the enduring relevance of many of Schillebeeckx's insights while in other instances it pushes his thinking to its limits in order to deal with the current challenges for faith and society

Suffering and Salvation Aloysius Rego, 2006 Suffering especially that of the innocent and those unjustly treated is a universal experience which has perplexed and agonised humanity This reality is especially a challenge to believers in an all powerful good and loving God Within the Christian tradition in particular because of the centrality of the cross and the crucified and risen One there has been a tradition which has hallowed suffering In this perspective suffering per se whatever its origin is mystified as a necessary prelude to salvation Is suffering salvific Are all experiences of suffering saving What is God's attitude and involvement with suffering In this work these questions are explored through the lens of Edward Schillebeeckx's later theology which is primarily concerned with the development of a contemporary soteriology

all the world's faiths have come to recognize the critical importance of religion's relationship to ecology. The Wiley Blackwell Companion to Religion and Ecology offers a comprehensive overview of the history and the latest developments in religious engagement with environmental issues throughout the world. Newly commissioned essays from noted scholars of diverse faiths and scientific traditions present the most cutting edge thinking on religion's relationship to the environment. Initial readings explore the ways traditional concepts of nature in Christianity, Judaism, Islam, Buddhism, and other religious traditions have been shaped by the environmental crisis. Readings then address the changing nature of theology and religious thought in response to the challenges of protecting the environment. Various conceptual issues and themes that transcend individual traditions, climate change, bioethics, social justice, ecofeminism, and more are then analyzed before a final section examines some of the immediate challenges we face in caring for the Earth while looking to the future of religious environmentalism. Timely and thought provoking, Companion to Religion and Ecology offers illuminating insights into the role of religion in the ongoing struggle to secure the future well being of our natural world. With a foreword by Ecumenical Patriarch Bartholomew I and an Afterword by John Cobb.

Inventing Christic Jesuses, Volume 1 Charles A. Wilson, 2017-11-09. Inventing Christic Jesuses is the first comprehensive proposal for how revisionist theology can deploy historical Jesus research in a methodologically sophisticated way. Rejecting positions that insulate theology from Jesus research, the proposal sets out warrants and rules for a quested Christology in dialogue with an analysis of the conduct of historians of Jesus from the period of the Third Quest c. 1980-2010. The volume Method analyzes for theology the methods and values of historical research on Jesus. It argues that the methodic construction of historical images of Jesus in conversation with sources is simultaneously a retrojective activity of value production. First in defining the terms of the inquiry, Wilson locates a middle ground between hostility to questing and a too ready application of historical results to Christology. He then identifies rules and warrants for the deployment of Jesus research in theology and reconstructs the notion of the retrojection of value in the production of a historical Jesus. The volume ends with a case study of retrojective Jesus production, an analysis and assessment of the new notion that Jesus is a sage in the tradition of wisdom.
