Bolingbroke: Political Writings Henry Bolingbroke, 1997-09-11 Henry St John Viscount Bolingbroke was one of the most creative political thinkers in eighteenth century Britain In this volume modernised and fully annotated texts of his most important political works the *Dissertation upon Parties* the letter *On the Spirit of Patriotism* and *The Idea of the Patriot King* are brought together for the first time Bolingbroke was the first major thinker to face the long term economic and political consequences of the Glorious Revolution particularly the creation of the first modern system of party politics In these works he attempted to forge an ideology of opposition to attack the Whig oligarchy of Sir Robert Walpole His analyses of constitutional

government and the party system are still relevant to the dilemmas of modern democratic politics as are his recommendations for a patriotic commitment to the common good and the necessity of a non partisan executive Spencer: Political Writings Herbert Spencer, 1994 This book places Spencer s famous argument for political individualism in his *The Man versus the State* alongside his early *The Proper Sphere of Government* out of which after due gestation emerged not only *The Man versus the State* but also *Social Status* and his all embracing theory of evolution Both are valuable as unyielding statements of anti state political theory and as sources of perceptive comments on political events of the times An introduction sets them in their context and examines their main themes The book will be of interest to both undergraduates and specialists in politics political theory social policy sociology and history *Marx: Later Political Writings* Karl Marx, 1996-01-18 Marx *Later Political Writings* first published in 1996 brings together translations of Marx s most important texts in political philosophy written after 1848 Marx challenged political theory to its very fundamentals as his works do not follow traditional models for exploring politics theoretically In his introduction Terrell Carver situates Marx in a politics of democratic constitutionalism and revolutionary communism The works are presented here complete according to the first editions or the earliest manuscript state and include the *Manifesto of the Communist Party* the *Preface of 1859 to A Contribution to the Critique of Political Economy* *The Civil War in France* and the little known *Notes on Adolph Wagner* More than most political theorists Marx made contemporary politics the focus for his theoretical work He created a distinctive kind of political theory and this volume makes it accessible today
