Quantifying The World United Nations Ideas And Statistics:

The United Nations as a Knowledge System Nanette Svenson, 2015-10-16 This book seeks to explore how the UN has generated warehoused disseminated structured packaged expanded transferred and leveraged its vast resources of accumulated information and experience throughout the decades and particularly since the start of the 21st century with the introduction of more connective information and communications technology It examines the overarching objectives that have guided such activity and divides UN knowledge management into three distinct but often overlapping and intertwining categories knowledge for social and organizational learning knowledge for norm setting and knowledge for creation of products and services Svenson brings together these multiple aspects of UN knowledge management to present a holistic view of how the organization utilizes its global intelligence to educate advocate and serve member countries development Instead of looking at the UN as an international bureaucracy or as a peacekeeping policymaking humanitarian or development entity this work studies the UN as a generator and purveyor of information learning and experience in all of these areas This book will be key reading for all students and scholars of international organizations *UN Ideas That Changed the World* Richard Jolly, Louis Emmerij, Thomas G. Weiss, 2009-09-01 Ideas and concepts have been a driving force in human progress and they may be the most important legacy of the United Nations UN ideas have set past present and future international agendas in many global economic and social arenas and have also led to initiatives and actions that have improved the quality of human life This capstone volume draws upon findings of the other 14 books in the acclaimed United Nations Intellectual History Project Series The authors not only assess the development and implementation of UN ideas regarding sustainable economic development and human security but also apply lessons learned to suggest ways in which the United Nations can play a fuller role in confronting the challenges of human survival with dignity in the 21st century *The Oxford Handbook on the United Nations* Thomas G. Weiss, Sam Daws, 2018-06-28 This Handbook provides in one volume an authoritative and independent treatment of the UN's seventy year history written by an international cast of more than 50 distinguished scholars analysts and practitioners It provides a clear and penetrating examination of the UN's development since 1945 and the challenges and opportunities now facing the organization It assesses the implications for the UN of rapid changes in the world from technological innovation to shifting foreign policy priorities and the UN's future place in a changing multilateral landscape Citations and additional readings contain a wealth of primary and secondary references to the history politics and law of the world organization This key reference also contains appendices of the UN Charter the Statute of the International Court of Justice and the Universal Declaration of Human Rights *A Development Economist in the United Nations* Richard Jolly, 2022-11-22 This book explores the joys and occasional frustrations of a development economist working for the United Nations From 1982 to 2000 Richard Jolly worked in senior positions in UNICEF and UNDP on assignments that were innovative for the UN the countries concerned and for development The book analyses his

experiences as Deputy Director of UNICEF Principal Coordinator and co author of UNDP's widely acclaimed Human Development Report and a community development officer in Kenya as well as his involvement in the UN and country mission to Zambia and ILO employment missions to Colombia Sri Lanka and Kenya It shows what the UN can achieve when there is strong leadership at central and field levels together with decentralized approaches Jolly's experiences lead him to conclude there are in fact three UNs the formal UN of governments the second UN comprising UN staff members often the source of initiatives and action and the third UN of NGOs experts consultants and others closely following the UN or working with it and also often bringing new thinking and innovation Reflecting on the need for international action to be more effective and the UN to be more strongly supported this volume is a fascinating guide to students and scholars of global governance development and international organizations and those working for them

Life by Algorithms Catherine Besteman, Hugh Gusterson, 2019-05-23 Essays on the downsides dysfunctions and dangers of automated decision making An excellent survey of the algorithmically managed life Choice The phone systems that businesses use to screen calls The link between student standardized test scores and public schools access to resources The algorithms that regulate patient diagnoses and reimbursements to doctors The impenetrable corporate bureaucracy that can drive customers in need of help up the wall or drive them to suicide The storage sorting and analysis of massive amounts of information have enabled the automation of decision making at an unprecedented level Meanwhile computers have offered a model of cognition that increasingly shapes our approach to the world The proliferation of roboprocesses is the result as editors Catherine Besteman and Hugh Gusterson observe in this rich and wide ranging volume which features contributions from a distinguished cast of scholars in anthropology communications international studies and political science Though automatic processes are designed to be engines of rational systems the stories in *Life by Algorithms* reveal how they can in fact produce absurd inflexible or even dangerous outcomes Joining the call for algorithmic transparency the contributors bring exceptional sensitivity to everyday sociality into their critique to better understand how the perils of modern technology affect finance medicine education housing the workplace food production public space and emotions not as separate problems but as linked manifestations of a deeper defect in the fundamental ordering of our society The Machine Stops E M Forster's 1909 science fiction story tells the tale of a human society collapsing when the technology upon which it has become dependent fails Think of this volume as *The Machine Starts* a collection of unsettling ethnographic accounts of the rise of algorithmic governance A necessary and sobering call to arms Stefan Helmreich Massachusetts Institute of Technology Contributors include Catherine Besteman Alex Blanchette Robert W Gehl Hugh Gusterson Catherine Lutz Ann Lutz Fernandez Joseph Masco Sally Engle Merry Keesha M Middlemass Noelle Stout Susan J Terrio

UN Voices Thomas George Weiss, 2005 Interviewed by the authors Kofi Annan Boutros Boutros Ghali and 71 other UN professionals speak about international cooperation and the ideas that have shaped the accomplishments of the UN

The UN and Development Olav Stokke, 2009-07-06 The UN and

Development provides the first comprehensive overview of the development policies and activities of the United Nations system from the late 1940s to the present. With an explicit focus on the history of the ideas that have been generated, institutionalized and implemented by UN organizations, this book examines changing trends in development paradigms from the concept of technical assistance to underdeveloped countries as they were called in the late 1940s to development cooperation in the 21st century. Olav Stokke traces this fascinating story and demonstrates the UN's essential role and its future challenges in aiding the least developed countries and the globe's billion poorest inhabitants.

The United Nations in the 21st Century Karen A. Mingst, Margaret P. Karns, Alynna J. Lyon, 2018-05-04

The United Nations in the 21st Century provides a comprehensive yet accessible introduction to the United Nations, exploring the historical, institutional and theoretical foundations of the UN. This popular text for courses on international organizations and international relations also discusses the political complexities facing the organization today. Thoroughly revised throughout the fifth edition focuses on major trends since 2012, including changing power dynamics, increasing threats to peace and security, and the growing challenges of climate change and sustainability. It examines the proliferating public-private partnerships involving the UN and the debates over reforming the Security Council and the Secretary-General selection process. This edition also includes new case studies on peacekeeping and the use of force in the Democratic Republic of Congo and Mali, transnational terrorism and the emergence of ISIS, the Security Council's failure to act in Syria, the Syrian and global refugee migrant crisis, and the conclusion of the Millennium Development Goals and framing of the Sustainable Development Goals.

Preventive Diplomacy at the UN Bertrand G. Ramcharan, 2008-05-07

The concept of preventive diplomacy has captivated the United Nations since it was first articulated by Secretary-General Dag Hammarskjöld a half-century ago. Successive generations of diplomats and statesmen have invested in the idea that diplomatic efforts might be able to head off international conflicts and disasters. Dramatic successes such as the Cuban Missile Crisis of 1962 contrast with dramatic failures such as the inability of UN efforts to halt the invasion of Iraq in 2003. In this careful study, distinguished former UN civil servant Bertrand G. Ramcharan traces the history of the practice of preventive diplomacy by UN Secretaries-General, the Security Council, and other UN organizations, and assesses the record of preventive diplomacy and examines its prospects in an age of genocide and terrorism.

Human Rights at the UN Roger Normand, Sarah Zaidi, 2008-01-09

Human rights activists Roger Normand and Sarah Zaidi provide a broad political history of the emergence and development of the human rights movement in the 20th century through the crucible of the United Nations, focusing on the hopes and expectations, concrete power struggles, national rivalries and bureaucratic politics that molded the international system of human rights law. The book emphasizes the period before and after the creation of the UN, when human rights ideas and proposals were shaped and transformed by the hard-edged realities of power politics and bureaucratic imperatives. It also analyzes the expansion of the human rights framework in response to demands for equitable development after decolonization and organized efforts by women.

Religious NGOs in International Relations Karsten Lehmann, 2016-01-29 Over the last 30 years non governmental organizations NGOs have become increasingly present in international discourses and active in international decision making Among the estimated several million NGOs in existence today an increasingly visible number of organizations are defining themselves in religious terms referring to themselves as religious spiritual or faith based NGOs This book documents the initial encounters

between the particularly international segment of those organizations and the UN while at the same time covering the Protestant and Catholic spectrum that dominated the early years of their activities in the UN context This book focuses on the construction of the human rights discourse inside two religiously affiliated organizations The Commissions of the Churches on International Affairs CCIA and Pax Romana IMCS ICMICA These organizations have been formally accredited as NGOs by the UN label themselves as religious and look back upon a long and intense cooperation with the UN Lehmann presents material from the archives of those two organizations that has so far rarely been used for academic analysis In doing so as well as documenting the encounters between those organizations and the UN and looking at the Protestant and Catholic spectrum the book provides new insights into the very construction of the notions of the religious and the secular inside those organizations This work will be of great interest to all students of religion and international relations and will also be of interest to those studying related subjects such as global institutions comparative politics and international politics
