Rediscovery Of Wisdom From Here To Antiquity In Quest Of Sophia:

The Rediscovery of Wisdom D. Conway, 2000-07-30 By reconstructing it and tracing its vicissitudes David Conway rehabilitates a time honoured conception of philosophy originating in Plato and Aristotle which makes theoretical wisdom its aim Wisdom is equated with possessing a demonstrably correct understanding of why the world exists and has the broad character it does Adherents of this conception maintained the world to be the demonstrable creation of a divine intelligence in whose contemplation supreme human happiness resides Their claims are defended against various latter day scepticisms

Seeking Wisdom in Adult Teaching and Learning Wilma Fraser, 2017-10-24 This book concerns the pursuit of wisdom in education and the argument that wisdom personified here as Sophia is tragically marginalised or absent in current Western epistemological discourses It includes a review of key historical and classical framings which have lost much potency and relevance as certain cultural narratives hold sway these include the reductionist technicist and highly instrumentalist discourses which shape the articulation and delivery of much education policy and practice whilst reflecting similar troubling framings from broader neoliberal perspectives Fraser argues that wisdom's marginalisation has had and continues to have profoundly deleterious consequences for our educative practices Through a compelling combination of narrative and autoethnographic techniques while also drawing on philosophical and cultural traditions the book pushes at the boundaries of emerging knowledge including how knowledge is generated It will be of interest to those who facilitate the learning of adults in a variety of settings as well as to students and supervisors seeking exemplars and justification for working in non traditional ways

Wisdom in Christian Tradition Marcus Plested, 2022 Following a survey of the biblical and classical background this book offers a detailed exploration of the theme of wisdom in patristic Byzantine and medieval theology

A Handbook of Wisdom Robert Sternberg, Jennifer Jordan, 2005-06-13 A topic ignored in mainstream scientific inquiry for decades wisdom is beginning to return to the place of reverence that it held in ancient schools of intellectual study A Handbook of Wisdom first published in 2005 explores wisdom's promise for helping scholars and lay people to understand the apex of human thought and behavior At a time when poor choices are being made by notably intelligent and powerful individuals this book presents analysis and review on a form of reasoning and decision making that is not only productive and prudent but also serves a beneficial

Does God Exist? Stan W. Wallace, 2020-09-23

This book presents the most recent debates by leading contemporary philosophers of enduring themes and issues concerning the question of God s existence William Craig and Antony Flew met on the 50th anniversary of the famous Copleston Russell debate to discuss the question of God s existence in a public debate The core of this book contains the edited transcript of that debate Also included are eight chapters in which other significant philosophers Paul Draper R Douglas Geivett Michael Martin Keith Parsons William Rowe William Wainwright Keith Yandell and David Yandell critique the debate and address the issues raised Their substantial and compelling insights complement and further the debate helping the reader delve more deeply into the issues that surfaced In the two final chapters Craig and Flew respond and clarify their positions taking the debate yet one step further The result of these many contributions is a book which provides the reader with a summary of the current discussion and allows one to enter into the dialogue on this central question in the philosophy of religion

International Handbook of the Religious, Moral and Spiritual Dimensions in Education Marian de Souza, Gloria

Durka, Kathleen Engebretson, Robert Jackson, Andrew McGrady, 2007-06-04 Traditionally spirituality has resided and been contained within religious frameworks but while the links between the two areas are still acknowledged by many in the contemporary world spirituality is perceived by some as an aspect of human life that is distinct from religion Consequently many are searching for meaning within and without religious traditions today and seeking answers to ethical and moral questions that have been generated by the knowledge and technological explosion One outcome is the renewed interest in the religious spiritual and moral dimensions of education throughout the life cycle This International Handbook presents the research and professional practice of scholars who are daily engaged in the consideration of these dimensions in education The result is a collection of essays which reflects the discipline in all of its internationality as it as today Embedded within the chapters is also an agenda for the future where the religious moral and spiritual dimensions in education are proposed as an

exciting and challenging way forward for educators at all levels in society As well it offers a vision for the emergence of a peaceful and just world *God and Philosophy* Antony Flew, 2010-09-09 In this classic primer to the philosophy of religion Antony Flew subjects a wide range of philosophical arguments for the existence of the Christian God to intense critical scrutiny However the rumour in some circles is that Flew long time advocate of atheistic humanism has become a theist Judge for yourself **Five Proofs of the Existence of God** Edward Feser, 2017-08-25 This book provides a detailed updated exposition and defense of five of the historically most important but in recent years largely neglected philosophical proofs of God s existence the Aristotelian the Neo Platonic the Augustinian the Thomistic and the Rationalist It also offers a thorough treatment of each of the key divine attributes unity simplicity eternity omnipotence omniscience perfect goodness and so forth showing that they must be possessed by the God whose existence is demonstrated by the proofs Finally it answers at length all of the objections that have been leveled against these proofs This work provides as ambitious and complete a defense of traditional natural theology as is currently in print Its aim is to vindicate the view of the greatest philosophers of the past thinkers like Aristotle Plotinus Augustine Aquinas Leibniz and many others that the existence of God can be established with certainty by way of purely rational arguments It thereby serves as a refutation both of atheism and of the fideism that gives aid and comfort to atheism
