Reducing Prejudice And Discrimination:

Reducing Prejudice and Discrimination Stuart Oskamp, 2013-05-13 Finding ways to reduce prejudice and discrimination is the central issue in attacking racism in our society Yet this book is almost unique among scientific volumes in its focus on that goal This important book combines critical analysis of theories about how to reduce prejudice and discrimination with cutting edge empirical research conducted in real world settings as well as in controlled laboratory situations This book s outstanding contributors focus on a common set of questions about ways to reduce intergroup conflict prejudice and stereotyping They summarize their own research as well as others interpret the conclusions and suggest implications concerning the practical methods that have been or could be used in programs aimed at reducing intergroup conflict The chapters present solidly based critical analyses and research findings in clear reader friendly prose This book evolved from the Sixteenth Annual Claremont Symposium on Applied Social Psychology Each Symposium in the series concentrates on a single area in which social psychological knowledge is being applied to the resolution of a current social problem Ideal for teachers social workers administrators managers and other social practitioners who are concerned about prejudice and discrimination this book will also serve as a valuable foundation of knowledge in courses that examine this topic How to reduce discrimination and prejudice in society? Vlad Popa-Florea, 2016-01-15 Essay from the year 2012 in the subject Psychology Social Psychology grade 1 6 Jacobs University Bremen gGmbH course Stereotypes Prejudice and Discrimination language English abstract Nowadays the world is becoming more globalized interconnected and heterogeneous People can no longer interact just with their own type or race but on the contrary must embrace the diversity that surrounds them However as human beings live in groups and act all together as a group this life style also develops an alternative side of stereotypes prejudice and discrimination Stereotypes are related to the cognitive aspect of perception over people thus defined as beliefs and conceptions on the behavior of different groups This paper will evaluate and discuss methods through which an individual person can reduce prejudice and discrimination in society It will offer theoretical background and empirical evidence along with certain limitations that restrain the reduction methods *Reducing Prejudice in the Classroom* ,1984 Racial Reconciliation and the Healing of a Nation Charles J. Ogletree, Jr., Austin Sarat, 2017-10-24 The work at hand for bridging the racial divide in the United States From Baltimore and Ferguson to Flint and Charleston the dream of a post racial era in America has run up against the continuing reality of racial antagonism Current debates about affirmative action multiculturalism and racial hate speech reveal persistent uncertainty and ambivalence about the place and meaning of race and especially the black white divide in American culture They also suggest that the work of racial reconciliation remains incomplete Racial Reconciliation and the Healing of a Nation seeks to assess where we are in that work examining sources of continuing racial antagonism among blacks and whites It also highlights strategies that promise to promote racial reconciliation in the future Rather than revisit arguments about the importance of integration assimilation

and reparations the contributors explore previously unconsidered perspectives on reconciliation between blacks and whites Chapters connect identity politics the rhetoric of race and difference the work of institutions and actors in those institutions and structural inequities in the lives of blacks and whites to our thinking about tolerance and respect Going beyond an assessment of the capacity of law to facilitate racial reconciliation Racial Reconciliation and the Healing of a Nation challenges readers to examine social political cultural and psychological issues that fuel racial antagonism as well as the factors that might facilitate racial reconciliation
