Reenchantment Of Nineteenth century Fiction Dickens Thackeray George Eliot And Serialization:

The Reenchantment of Nineteenth-Century Fiction D. Payne, 2005-05-23 An ambitious weave of ideological literary and commodity history The Reenchantment of Nineteenth Century Fiction shows how Dickens Thackeray and George Eliot sacralized Victorian modernity in two contradictory ways by incarnating their moment as one of transcendent development and by reenacting bloody rituals from a fading Protestant past Both the magnitude and the brevity of their success make these works exemplary for our own era caught between the archaic gods of traditional religion and the still mysterious ones of market society

Advertising, Subjectivity and the Nineteenth-Century Novel S. Thornton, 2015-12-04 From 1830 to 1870 advertising brought in its wake a new understanding of how the subject read and how language operated Sara Thornton presents a crucial moment in print culture the early recognition of what we now call a virtual world and proposes new readings of key texts by Dickens and Balzac

Serialization and the Novel in Mid-Victorian Magazines Catherine Delafield, 2016-03-03 Examining the Victorian serial as a text in its own right Catherine Delafield re reads five novels by Elizabeth Gaskell Anthony Trollope Dinah Craik and Wilkie Collins by situating them in the context of periodical publication She traces the roles of the author and editor in the creation and dissemination of the texts and considers how first publication affected the consumption and reception of the novel through the periodical medium Delafield contends that a novel in volume form has been separated from its original context that is from the pattern of consumption and reception presented by the serial The novel's later re publication still bears the imprint of this serialized original and this book's investigation into nineteenth century periodicals both generates new readings of the texts and reinstates those which have been lost in the reprinting process Delafield's case studies provide evidence of the ways in which Household Words Cornhill Magazine Good Words All the Year Round and Cassell's Magazine were designed for new audiences of novel readers Serialization and the Novel in Mid Victorian Magazines addresses the material conditions of production illustrates the collective and collaborative creation of the serialized novel and contextualizes a range of texts in the nineteenth century experience of print

Dickens to Hardy 1837-1884 Julian Wolfreys, 2007-06-27 This authoritative survey examines how the Victorian middle classes perceived themselves through analyses of the literature of the period Asking how the middle classes distinguished themselves from their forbears Julian Wolfreys reads in detail major novels by Charles Dickens Elizabeth Gaskell Wilkie Collins George Eliot Thomas Hardy Wolfreys explores the novelists constructions of modernity national identity and their understanding of becoming historical in distinction from that of previous generations He offers illuminating close readings of

Coleman,2014-04-24 Unlike other Victorian novelists George Eliot rarely incorporated stock market speculation and fraud into her plots but meditations on money finance and economics in relation both to individual ethics and to wider social implications infuse her novels This volume examines Eliot s understanding of money and economics its bearing on her moral and political thought and the ways in which she incorporated that thought into her novels It offers a detailed account of Eliot s intellectual engagements with political economy utilitarianism and the new liberalism of the 1870s and also her practical dealings with money through her management of household and business finances and in later years her considerable investments in stocks and shares In a wider context it presents a detailed study of the ethics of economics in nineteenth century England tracing the often uncomfortable relationship between morality and economic utility experienced by intellectuals of the period **Bodies and Things in Nineteenth-Century Literature and Culture** K. Winter,2015-08-03 How did this nineteenth century novelist change the way we think A fine contribution to the sociology of literature Highly recommended Choice What are the sources of the commonly held presumption that reading literature should make people more just humane and sophisticated Looking at literary history in relation to the cultural histories of reading publishing and education *The Pleasures of Memory* illuminates the ways in which Dickens s serial fiction shaped not only the popular practice of reading for pleasure and instruction but also the school subject we now know as English Sarah Winter shows how Dickens s serial fiction instigated specific reading practices by reworking the conventions of religious didactic tracts from which most Victorians learned to read Incorporating an influential associationist psychology of learning founded on the cumulative functioning of memory Dickens s serial novels consistently led readers to reflect on their reading as a form of shared experience Dickens s celebrity authorship Winter argues represented both a successful marketing program for popular fiction and a cultural politics addressed to a politically unaffiliated social activist Victorian readership As late nineteenth century educational reforms consolidated British and American readers into mass populations served by state
