Reflections Of Therapy And Other Ebays:

Metanarratives of Disability David Bolt, 2021-05-26 This book explores multiple metanarratives of disability to introduce and investigate the critical concept of assumed authority and the normative social order from which it derives. The book comprises 15 chapters developed across three parts and informed by disability studies. It is authored by those with research interests in the condition on which they focus as well as direct or intimate experiential knowledge. When out and about many disabled people know only too well what it is to be erroneously told the error of our ways by non-disabled passers-by assumed authority often cloaked in helpfulness. Showing that assumed authority is underpinned by a displacement of personal narratives in favour of overarching metanarratives of disability that find currency in a diverse multiplicity of cultural representations ranging from literature to film television advertising social media comics art and music this work discusses how this relates to a range of disabilities and chronic conditions including blindness autism Down syndrome diabetes cancer and HIV and AIDS. Metanarratives of Disability will be of interest to all scholars and students of disability studies medical sociology medical humanities education studies cultural studies and health. It offers a well structured accessible collection of disability narratives that foreground disabled voices. *Journal of Literary and Cultural Disability Studies* 16 1 2022

Creative Positions in Adult Mental Health Sue McNab, Karen Partridge, 2018-05-01 This book presents cutting edge developments in Adult Mental Health through the presentation of creative and innovative applications of systemic theory to practice. The first section deconstructs the medical model with some of the current beliefs and practices shaping services whilst placing adult mental health in a wider social and political context. The second half of the book showcases good practice from the field. At either end of the volume bookends invite current clients and staff to write about their experiences with the aim of bringing a powerful personal context into the work. We intend to create a shift from third person objectivity to a first person experience as a political act which flows through the book

Building resilience & supporting mental health in bereaved youth through sports Theo Gavrielides, This ebook presents the results of the Footsteps Forward project carried out by the RJ4All International Institute with support from the London Violence Reduction Unit of the Mayor of London. It was carried out in 2024 in South East London working directly

with young people aged 14 18 who were affected by loss and serious youth violence It used the RjiNEAR resilience model drawn from restorative justice and positive psychology principles It aimed to test a hypothesis whereby the delivery of combined group multi sports and therapeutic activities guided by the RjiNEAR ethos will lead to improved well being and resilience outcomes for young people affected by serious youth violence and loss The project bridges an important caveat in the extant literature focusing on structured support for these youth Among the findings the project illustrated that it created a safe space for grief expressions and sports engagement Additionally a moderate correlation was observed between RjiNEAR and the support received for grief To cite this ebook Gavrielides T 2024 Building resilience supporting mental health in bereaved youth through sports Findings from the Footsteps Forward project A restorative justice RjiNEAR approach London RJ4All Publications ISBN 978 1 80463 062 4 DOI 10 13140 RG 2 2 15572 72322 **Against the Grain**,2002 *The Biopsychosocial-Spiritual Approach: Towards a Holistic Understanding and Treatment of Drug Addiction* Rev.
