Reflections On Music Popularization:

Reflections on Music Popularization Gen'ichi Kawakami, 1987 **Reflections on American Music** College Music Society, 2000 Wright A closed fist from Spirals for violin viola and cello Judith Lang Zaimont Composing Japanese Musical Modernity Bonnie C. Wade, 2014-01-13 When we think of composers we usually envision an isolated artist separate from the orchestra someone alone in a study surround by staff paper and in Europe and America this image generally has been accurate For most of Japan s musical history however no such role existed composition and performance were deeply intertwined Only when Japan began to embrace Western culture in the late nineteenth century did the role of the composer emerge In *Composing Japanese Musical Modernity* Bonnie Wade uses an investigation of this new musical role to offer new insights not just into Japanese music but Japanese modernity at large and global cosmopolitan culture Wade examines the short history of the composer in Japanese society looking at the creative and economic opportunities that have sprung up around them or that they forged during Japan s astonishingly fast modernization She shows that modernist Japanese composers have not bought into the high modernist concept of the autonomous artist instead remaining connected to the people Articulating Japanese modernism in this way Wade tells a larger story of international musical life of the spaces in which tradition and modernity are able to meet and ultimately where modernity itself has been made *Indigenous African Popular Music, Volume 1* Abiodun Salawu, Israel A. Fadipe, 2022-05-31 This volume explores the nature philosophies and genres of indigenous African popular music focusing on how indigenous African popular music artistes are seen as prophets and philosophers and how indigenous African popular music depicts the world Indigenous African popular music has long been under appreciated in communication scholarship However understanding the nature and philosophies of indigenous African popular music reveals an untapped diversity which only be unraveled by knowledge of the myriad cultural backgrounds from which its genres originate Indigenous African popular musicians have become repositories of indigenous cultural traditions and cosmologies With a particular focus on scholarship from Nigeria Zimbabwe and South Africa this volume explores the work of these pioneering artists and their prot g s who are resiliently sustaining recreating and popularising indigenous popular music in their respective African communities and at the same time propagating the communal views about African philosophies and the temporal and spiritual worlds in which they exist Wind Bands and Cultural Identity in Japanese Schools David G.
