Reflexive Representations Politics Hegemony Discourse In Global Capitalism:

Reflexive Representations Johannes Angermüller, 2004 This volume addresses the manifold conjunctures interactions and disjunctures that occur at various levels of what has come to be rubricated under the buzzword of globalization While this term has the merit of reperiodizing our account of the capitalist dynamics it simultaneously points to a crisis of representation both in political and epistemological terms The contributions collected in this volume being reflexive representations from the social sciences and humanities assess some of the manifold aspects of this crisis **The Risk**

Society Revisited Eugene Rosa, Ortwin Renn, Aaron McCright, 2014 Risk is a part of life How we handle uncertainty and deal with potential threats influence decision making throughout our lives In *The Risk Society Revisited* Eugene A Rosa Ortwin Renn and Aaron M McCright offer the first book to present an integrated theory of risk and governance The authors examine our sociological understanding of risk and how we reconcile modern human conditions with our handling of risk in our quest for improved quality of life They build a new framework for understanding risk one that provides an innovative connection between social theory and the governance of technological and environmental risks and the sociopolitical challenges they pose for a sustainable future Showing how our consciousness affects risk in the decisions we make as individuals and as members of a democratic society *The Risk Society Revisited* makes an important contribution to the literature of risk research *On Willing Selves* S. Maasen, B. Sutter, 2007-08-30 The neurosciences propose that the concept of will is scientifically untenable it is our brain rather than our self that controls our choices Yet we seem to be confronted with increasing free choice in all areas of life Using up to date empirical research in the social sciences and philosophy this volume addresses the seeming contradiction

Risk Governance Ortwin Renn, 2017-12-04 Risk Governance is a tour de force Every risk manager every risk analyst every risk researcher must read this book it is the demarcation point for all further advances in risk policy and risk research Renn provides authoritative guidance on how to manage risks based on a definitive synthesis of the research literature The skill with which he builds practical recommendations from solid science is unprecedented Thomas Dietz Director Environmental Science and Policy Program Michigan State University USA A masterpiece of new knowledge and wisdom with illustrative examples of tested applications to realworld cases The book is recommendable also to interested students in different disciplines as a timely textbook on risk beyond risk Norio Okada Full Professor and Director at the Disaster Prevention Research Institute DPRI Kyoto University Japan There are classic environmental works such as *The Tragedy of the Commons* by Hardin *Risk Society* by Beck *The Theory of Communicative Action* by Habermas and the seminal volumes by Ostrom on governing the commons Renns book fits right into this series of important milestones of environmental studies Jochen Jaeger Professor at Concordia University Montreal Canada *Risk Governance* provides a valuable survey of the whole field of risk and demonstrates how scientific economic political and civil society actors can participate in inclusive risk governance Jobst Conrad Senior Scientist Social Science Research Center

Berlin Germany Renn offers a remarkably fair minded and systematic approach to bringing together the diverse fields that have something to say about risk Risk Governance moves us along the path from the noisy formative stage of thinking about risk to one with a stronger empirical theoretical and analytical foundation Baruch Fischhoff PhD Howard Heinz University Professor Carnegie Mellon University Pittsburgh USA I cannot describe how impressed I am at the breadth and coherence of Renn s career s work Written with remarkable clarity and minimal technical jargon this should be required reading in risk courses John Graham former director of the Harvard Risk Center and former deputy director of the Office of Budget and Management of the United States Administration This book for the first time brings together and updates the groundbreaking work of renowned risk theorist and researcher Ortwin Renn integrating the major disciplinary concepts of risk in the social engineering and natural sciences The book opens with the context of risk handling before flowing through the core topics of assessment evaluation perception management and communication culminating in a look at the transition from risk management to risk governance and a glimpse at a new understanding of risk in post modern societies BorderCrossings Gerd Sebald, Michael Popp, 2006 *Annual Report on English and American Studies*, 2004 **Understanding Inequality: Social Costs and Benefits** Amanda Machin, Nico Stehr, 2016-04-14 The contributions in this book highlight contextualize and analyze different aspects of social inequality What are the various cause and effects of inequality How have these changed over recent decades Which social policies might be best able to intervene Written by authors from a variety of disciplines and geographical regions these contributions provide a rich account of inequality within contemporary society The role of the state the media and the market in exacerbating and alleviating patterns of equality are all accessed alongside analysis of changing patterns of exclusion and hierarchy **Guidebook Gazes** Joanna Dybiec, 2004 Tourism as a mode of interaction visualization and experience provides a valuable insight into the transformation processes in modern societies and cultures Travel guides both document and contribute to these processes This study analyses over forty American and German travel guides to Poland formerly a politically isolated destination now a considerably globalized EU member state In this historically based analysis the author examines the creation of a tourist gaze of Poland discussing stereotypes of Poles and the development of the country s touristic attractiveness *Diskursive Kulturwissenschaft* Elize Bisanz, 2005 *Reflexive Repräsentationen*, 2004
