Reformation And Revolt In The Low Countries:

Reformation and Revolt in the Low Countries Alastair Duke, 2003-04-01 The Revolt of the Netherlands has long been familiar to English speaking readers but the Reformation there has remained largely a closed book The Reformation in the Low Countries developed along very different lines from German Lutheranism While the decentralised character of political authority ensured the survival of religious dissent a prolonged persecution of heresy postponed the formation of public Protestant churches until after 1572 Conflicting interests and beliefs as well as the war and political struggle shaped the final religious outcome Local considerations and individual responses played their part alongside the decisions of rulers whether Philip II and his lieutenant the duke of Alva or William the Silent Alastair Duke's work is of central importance to a proper understanding of both Reformation and Revolt Reformation in the Low Countries, 1500-1620 Christine Kooi, 2022-06-09 This accessible general history places the Reformation in the Low Countries within its broader political and religious context

From Revolt to Riches Theo Hermans, Reinier Salverda, Ulrich Tiedau, 2017-03-28 This collection investigates the culture and history of the Low Countries in the sixteenth and seventeenth centuries from both international and interdisciplinary perspectives The period was one of extraordinary upheaval and change as the combined impact of Renaissance Reformation and Revolt resulted in the radically new conditions political economic and intellectual of the Dutch Republic in its Golden Age While many aspects of this rich and nuanced era have been studied before the emphasis of this volume is on a series of interactions and interrelations between communities and their varying but often cognate languages between different but overlapping spheres of human activity between culture and history The chapters are written by historians linguists bibliographers art historians and literary scholars based in the Netherlands Belgium Great Britain and the United States In continually crossing disciplinary linguistic and national boundaries while keeping the culture and history of the Low Countries in the Renaissance and Golden Age in focus this book opens up new and often surprising perspectives on a region all the more intriguing for the very complexity of its entanglements **From Revolt to Riches** Theo Hermans, R. into the unfolding of the Reformation across the whole of Europe *The Moment of Death in Early Modern Europe, c. 1450–1800* Benedikt Brunner, Martin Christ, 2024-05-06 Both in our time and in the past death was one of the most important aspects of anyone's life The early modern period saw drastic changes in rites of death burials and commemoration One particularly fruitful avenue of research is not to focus on death in general but the moment of death specifically This volume investigates this transitional moment between life and death In many cases this was a death on a deathbed but it also included the scaffold battlefield or death in the streets Contributors Friedrich J Becher Benedikt Brunner Isabel Casteels Martin Christ Louise Deschryver Irene Dingel Michael Green Vanessa Harding Sigrun Haude Vera Henkelmann Imke Lichterfeld Erik Seeman Elizabeth Tingle and Hillard von Thiesen *The Origins and Development of the Dutch Revolt* Graham Darby, 2001 Bringing together the latest scholarship and research from leading experts in the field this study examines the Dutch revolt against Spanish rule in the sixteenth century
