Reforming The Rites Of Death:

Reforming the Rites of Death Johannes Wagner,1968 Funeral Rites Reformation for Any African Ethnic Community Based on the Proposed New Funeral Practices for the Agikuyu Johnson Nganga Mbugua,2016-06-17 This book has been written on the premise that the mode of coping with death of virtually all African ethnic communities has taken proportions and turns that are neither cultural scriptural nor necessary Current rites are complicated time consuming expensive and are leaving most families and their neighbors impoverished They have been extremely commercialized and a large number of Africans do not have resources to bury their dead the modern way Were the Agikuyu read Africans to curb numerous funeral demands which they deem necessary and customary when in actual fact they are not funerals for them would become cheaper faster and simpler would be decent enough for the dead would take care of those left behind and would be environmentally friendly How Africans in the Diaspora away from their ancestral homeland should cope with death is also addressed Also addressed is the issue of cremation It is shown that at the resurrection God will accord us new spiritual bodies which will have no bearing with the material substance of our earthly mortal bodies **Reforming the Art of Dying** Austra Reinis,2007 This study focuses on the earliest of Protestant handbooks that addressed the subject of death and dying Beginning with Luther s Sermon on Preparing to Die in 1519 and ending with Jakob Otter s Christlich leben vnd sterben in 1528 it explores how Luther and his colleagues adopted traditional themes and motifs transforming them to accord with their conviction that Christians could be certain of their salvation It further shows how Luther s colleagues drew on his writings not only his teaching on dying but also other writings including his sermons on the sacraments The study concludes that the assurance of salvation that these works offered represented a significant change from traditional teaching on death **Liturgy** Johannes Wagner,1968 Dying, Death, Burial and Commemoration in Reformation Europe Elizabeth C. Tingle,Jonathan Willis,2016-03-09 In recent years the rituals and beliefs associated with the end of life and the commemoration of the dead have increasingly been identified as of critical importance in understanding the social and cultural impact of the Reformation The associated processes of dying death and burial inevitably generated heightened emotion and a strong concern for religious propriety the ways in which funerary customs were accepted rejected modified and contested can therefore grant us a powerful insight into the religious and social mindset of individuals communities Churches and even nation states in the post reformation period This collection provides an historiographical overview of recent work on dying death and burial in Reformation and Counter Reformation Europe and draws together ten essays from historians literary scholars musicologists and others working at the cutting edge of research in this area As well as an interdisciplinary perspective it also offers a broad geographical and confessional context ranging across Catholic and Protestant Europe from Scotland England and the Holy Roman Empire to France Spain and Ireland The essays update and augment the body of literature on dying death and disposal with recent case studies pointing to future directions in the field

The volume is organised so that its contents move dynamically across the rites of passage from dying to death burial and the afterlife The importance of spiritual care and preparation of the dying is one theme that emerges from this work extending our knowledge of Catholic ars moriendi into Protestant Britain Mourning and commemoration the fate of the soul and its post mortem management the political uses of the dead and their resting places emerge as further prominent themes in this new research Providing contrasts and comparisons across different European regions and across Catholic and Protestant regions the collection contributes to and extends the existing literature on this important historiographical theme

The Reformation of the Dead C. Koslofsky,1999-10-21 Koslofsky examines the human encounter with death in Germany from the eve of the Reformation to the rise of Pietism The Protestant Reformation transformed the funeral more profoundly than any other ritual of the traditional church Luther s doctrine of salvation by faith alone made the foundation of the traditional funeral intercession for the dead in Purgatory obsolete By drawing on anthropological interpretations of death ritual this study explores the changing relationships between the body the soul the living and the dead in the daily life of early modern Germany

From the Reformation to the death of Queen Elizabeth Daniel Neal,1732 *The History of the Puritans: From the Reformation to the death of Queen Elizabeth* Daniel Neal,1732

The Reformation of Ritual Susan Karant-Nunn,2005-08-19 Susan Karant Nunn applies the insights of anthrop ologists to ritual change in the German Reformat ion finding that Church and state cooperated in using ritual as an instrument for imposing social discipline

Death Liturgy and Ritual Paul P.J. Sheppy,2017-07-05 This title was first published in 2003 Death Liturgy and Ritual is a two volume study of Christian funerary theology and practice presenting an invaluable account of funeral rites and the central issues involved for compilers and users Paul Sheppy writes from direct experience of conducting funerals and of drafting liturgical resources for others In Volume I A Pastoral and Liturgical Theology Sheppy argues that the Church ought to construct its theological agenda in dialogue with other fields of study He proposes a Christian statement about death that finds its basis in the Paschal Mystery since human death must be explained by reference to Jesus death descent to the dead and resurrection Using the three phases of van Gennep s theory of rites of passage the author shows how the Easter triduum may be seen as normative for Christian liturgies of death The companion volume Volume II A Commentary on Liturgical Texts reviews a wide range of current Christian funeral rites and examines how they reflect both the Church s concern for the death and resurrection of Christ and the contemporary secular demand for funerals which celebrate the life of the deceased
