Romano Shifflett,2020-06-03 Robert Penn Warren Randall Jarrell and Robert Lowell maintained lifelong well documented friendships with one another often discussing each other s work in private correspondence and published reviews Joan Romano Shifflett s Warren Jarrell and Lowell Collaboration in the Reshaping of American Poetry traces the artistic and personal connections between the three writers Her study uncovers the significance of their parallel literary development and reevaluates dominant views of how American poetry evolved during the mid twentieth century Familiar accounts of literary history most prominently the celebration of Lowell s Life Studies as a revolutionary breakthrough into confessional poetry have obscured the significance of the deep connections that Lowell shared with Warren and Jarrell They all became quite close in the 1930s with the content and style of their early poetry revealing the impact of their mentors John Crowe Ransom and Allen Tate whose aesthetics the three would ultimately modify and transform The three poets achieved professional maturity and success in the 1940s during which time they relied on one another s honest critiques as they experimented with changes in subject matter and modes of expression Shifflett shows that their works of the late 1940s were heavily influenced by Robert Frost This period found Warren Jarrell and Lowell infusing ostensibly simple verse with multifaceted layers of meaning capturing the language of speech in diction and rhythm and striving to raise human experience to a universal level During the 1950s the three poets became public figures producing major works that addressed the nation s postwar need to reconnect with humanity Warren Jarrell and Lowell continued to respond in interlocking ways throughout the 1960s with each writer using innovative stylistic techniques to create a colloquy with readers that directed attention away from superficial matters and toward the important work of self reflection Drawing from biographical materials and correspondence along with detailed readings of many poems Warren Jarrell and Lowell offers a compelling new perspective on the shaping of twentieth century American poetry Memoirs Robert Lowell,2022-08-02 A complete collection of Robert Lowell s autobiographical prose from unpublished writings about his youth to reflections on the triumphs and confusions of his adult life Robert Lowell s Memoirs is an unprecedented literary discovery the manuscript of Lowell s lyrical evocation of his childhood which was written in the 1950s and has remained unpublished until now Meticulously edited by Steven Gould Axelrod and Grzegorz Kosciuszko it serves as a precursor or companion to his groundbreaking book of poems Life Studies which signaled a radically new prose inflected direction in his work and indeed in American poetry Memoirs also includes intense depictions of Lowell s mental illness and his determined efforts to recover It concludes with Lowell s reminiscences of other writers among them T S Eliot Robert Frost Ezra Pound John Berryman Anne Sexton Hannah Arendt and Sylvia Plath Memoirs demonstrates Lowell s expansive gifts as a prose stylist and his powers of introspection and observation It provides striking new evidence of the range and brilliance of Lowell s achievement Includes black and white photographs **Notebook 1967-68** Robert Lowell,2009-09-15 A cycle of unrhymed sonnets dealing with public and private crises marriage middle age and fatherhood Notebook 1967 68 is considered by many readers to be one of

Robert Lowell's most innovative and searching works. Yet these freeform sonnets which Lowell reworked in later volumes are not included in their original form in his *Collected Poems*. Praised by Seamus Heaney for its immediate unprepossessing blunt edged force, *Notebook 1967-68* is a key to Lowell's later style and a landmark in twentieth century poetry.

A Companion to Twentieth-Century Poetry Neil Roberts, 2008-04-15 In the twentieth century more people spoke English and more people wrote poetry than in the whole of previous history and this Companion strives to make sense of this crowded poetical era. The original contributions by leading international scholars and practising poets were written as the contributors adjusted to the idea that the possibilities of twentieth century poetry were exhausted and finite. However the volume also looks forward to the poetry and readings that the new century will bring. The Companion embraces the extraordinary development of poetry over the century in twenty English speaking countries, a century which began with a bipolar transatlantic connection in modernism and ended with the decentred heterogeneity of post colonialism. Representation of the canonical and the marginal is therefore balanced, including the full integration of women poets and feminist approaches and the in depth treatment of post colonial poets from various national traditions. Discussion of context, intertextualities and formal approaches illustrates the increasing self consciousness and self reflexivity of the period, whilst a Readings section offers new readings of key selected texts. The volume as a whole offers critical and contextual coverage of the full range of English language poetry in the last century.

Dark Airs Brendan Cooper, 2009 In discussions of American poetry since World War II the work of John Berryman has become increasingly neglected and marginalized. Critics have overwhelmingly chosen to favour the notion that he is an academic establishment poet whose career can comfortably be described as a move from New Critical traditionalism towards self absorbed confessionalism. This study shows how such a narrow understanding of Berryman's work is reflective of a broader critical inclination towards a codification of the literary canon as a duel between competing factions of a formalist establishment mainstream and an experimentalist countercultural avant garde. By examining the extent to which Berryman's poetry engages with the complex religiopolitical climate of Cold War American culture, this study exposes the inadequacy of the paradigm of mainstream traditionalism in relation to his work. In doing so it opens up threads of comparative possibility between his work and that of poets ordinarily segregated from him by divisive conceptions of the literary canon. As such this volume provides a reconsideration of Berryman's work that simultaneously asks broader questions about the nature of the American poetic canon and established definitions of postmodern poetry.

The Wounded Surgeon: Confessions and Transformations in Six American Poets Adam Kirsch, 2005-04-17 This book reclaims the achievements of six American poets: Lowell, Bishop, Berryman, Jarrell, Schwartz and Plath by offering critical biographies of the poetry.

Reading the Middle Generation Anew Eric Haralson, 2006-04 Ten original essays by advanced scholars and well published poets address the middle generation of American poets including the familiar Robert Lowell, Elizabeth Bishop, Randall Jarrell and John Berryman and various important contemporaries: Delmore Schwartz, Theodore Roethke, Robert

Hayden and Lorine Niedecker This was a famously troubled cohort of writers for reasons both personal and cultural and collectively their poems give us powerful moving insights into American social life in the transforming decades of the 1940s through the 1960s In addition to having worked during the broad middle of the last century these poets constitute the center of twentieth century American poetry in the larger sense refuting invidious connotations of middle as coming after the great moderns and being superseded by a proliferating postmodern experimentation This middle generation mediates the so called American century and its prodigious body of poetry even as it complicates historical and aesthetic categorizations Taking diverse formal and thematic angles on these poets biographical historical deconstructionist and more formalist accounts this book re examines their between ness and ambivalence their various positionings and repositionings in aesthetic political and personal matters The essays study the interplay between these writers and such shifting formations as religious discourse consumerism militarism and war the ideology of America as nature s nation and U S race relations and ethnic conflicts Reading the Middle Generation Anew also shows the legacy of the middle generation the ways in which their lives and writings continue to be a shaping force in American poetry This fresh and invigorating collection will be of great interest to literary scholars and poets

Poetry and Dialogism M. Scanlon, C. Engbers, 2014-08-05 These essays extend an ongoing conversation on dialogic qualities of poetry by positing various foundations practices and purposes of poetic dialogism The authors enrich and diversify the theoretical discourse on dialogic poetry and connect it to fertile critical fields like ethnic studies translation studies and ethics and literature

Grief and Meter Sally Connolly, 2016-11-09 The elegizing of poets is one of the oldest and most enduring traditions in English poetry Many of the most influential and best known poems in the language such as Milton s Lycidas Shelley s Adonais and Auden s In Memory of W B Yeats are elegies for poets In Grief and Meter Sally Connolly offers the first book to focus on these poems and the role they play as a specific subgenre of elegy establishing a genealogy of poetry that traces the dynamics of influence and inheritance in twentieth and twenty first century poetry She identifies a distinctive and significant Anglo American line of descent that resonates in these poems with British poets often elegizing American ones yet rarely the other way around Further she reveals how these poems function as a means of mediating effecting and tracing transatlantic poetic exchanges The author frames elegies for poets as a chain of commemoration and inheritance each link independent but when seen as part of the golden chain signifying a larger purpose and having a correspondingly greater strength Grief and Meter provides a compelling account of how and why these poems are imbued with such power and significance

Lyric and Liberalism in the Age of American Empire Hugh Foley, 2022-08-15 What is the difference between the I of a poem the lyric subject and the liberal subject of rights Lyric and Liberalism in the Age of American Empire uses this question to re examine the work of five major American poets changing our understanding of their writing and the field of post war American poetry Through extended readings of the work of Elizabeth Bishop Robert Lowell Amiri Baraka John Ashbery and Jorie Graham Hugh Foley shows how poets have imagined

liberalism as a problem for poetry Foley's book offers a new approach to ongoing debates about the nature of lyric by demonstrating the entanglement of ideas about the lyric poem with the development of twentieth century liberal discussions of individuality Arguing that the nature of American empire in this period underpinned by the discourse of individual rights forced poets to reckon with this entanglement it demonstrates how this reckoning helped to shape poetry in the post war period By tracing the ways a lyric poem performs personhood and the ways that this person can be distinguished from the individual envisioned by post war liberalism Foley shows how each poet stages a critique of liberalism from inside the standpoint of lyric This book demonstrates the capacities of poetry for rethinking its own relation to history and politics providing a new perspective on a vital era of American poetry
