Asylum-Seeking, Migration and Church Susanna Snyder, 2016-04-15
Asylum Seeking Migration and Church addresses one of the most pressing issues confronting contemporary society How are we to engage with migrants Drawing on studies of church engagement with asylum seekers in the UK and critical immigration and refugee issues in North America Snyder presents an extended theological reflection on both the issue of asylum seeking and the fears of established populations surrounding immigration This book outlines ways in which churches are currently supporting asylum seekers encouraging closer engagement with people seen as other and more thoughtful responses to newcomers Creatively exploring biblical and theological traditions surrounding the stranger Snyder argues that as well as practising a vision of inclusive community churches would do well to engage with established population fears

Trends in global migration and the dynamics of fear and hostility surrounding immigration are critically and creatively explored throughout the book. Inviting more complex nuanced responses to asylum seekers and immigrants, this book offers invaluable insights to those interested in Christian ethics, practical theology, social work, mission, and faith and social action, as well as those working in the field of migration.

Just Begin Dann E. Wigner, 2018-10-17. Spiritual practices for beginners and practitioners all in one volume. *Just Begin* is an indispensable reference tool for the interested spiritual practitioner who wants to add new methods and exercises to their mystical toolbox. In simple terms, basic steps, and encouraging language, Dr. Wigner introduces readers to more than 40 different practices from Eastern and Western traditions encompassing everything from mindfulness to music, yoga to the Lord's Prayer. In each short description, the focus is to just begin to practice and experiment, grow, and develop spiritually on the way. No one can take a journey without taking the first step, and Dr. Wigner provides the first steps for multiple practices in various religious traditions. These spiritual exercises will help spur people of faith to deeper self-awareness, holistic living, and prayer. The book's sections are organized around types of practices: Meditating, Listening, Being, Sensing, and Embodying, with a final section, *Doing*. Each chapter forms a short, three to five page introduction to a mystical practice, consisting of segments on definition, background, how to practice, resources for further study, journal prompts, and discussion questions, and common problems that sometimes get in the way of one's practice.

Routledge Handbook on Tourism in the Middle East and North Africa Dallen Timothy, 2018-12-07. The Routledge Handbook on Tourism in the Middle East and North Africa examines the importance of tourism as a historical, economic, social, environmental, religious, and political force in the Middle East and North Africa (MENA). It highlights the ecological and resource challenges related to water, desert environments, climate change, and oil. It provides an in-depth analysis of the geopolitical conditions that have long determined the patterns of tourism demand and supply throughout the region and how these play out in the everyday lives of residents and destinations as they attempt to grow tourism or ignore it entirely. While cultural heritage remains the primary tourism asset for the region as a whole, many new types of tourism are emerging, especially in the Arabian Gulf region, where hyper-development is closely associated with the increasingly prominent role of luxury real estate and shopping, retail, medical tourism, cruises, and transit tourism. The growing phenomenon of an expatriate workforce and how its segregation from the citizenry creates a dual socio-economic system in several countries is unmatched by other regions of the world. Many indigenous people of MENA keep themselves apart from other dominant groups in the region, although these social boundaries are becoming increasingly blurred as tourism, being one socio-economic force for change, has inspired many nomadic peoples to settle into towns and villages and rely more on tourists for their livelihoods. All of these issues and more shape the foundations of this book. This Handbook is the first of its kind to examine tourism from a broad regional and inclusive perspective, surveying a broad range of social, cultural, heritage, ecological, and political matters in a single volume. With a wide range of contributors, many of whom are natives of the Middle East and North Africa, this

Nordic Italies Elettra Carbone, 2016-01-22 Because of its history art and natural and cultural landscapes Italy has been a popular destination for North European travellers since the age of the Grand Tour Yet literary images of Italy are not all linked to the tradition of the journey to this country and cannot be labelled as a manifestation of Northerners yearning for the Southern sun The corpus of critical literature which deals with Italy in Nordic literatures is very wide but also fragmentary While many scholars have written about this topic and chiefly on the relations between individual Scandinavian literatures or well known authors such as Henrik Ibsen Selma Lagerl f and Hans Christian Andersen and Italy few have emphasised their

variety plurality and complexity With its comparative approach this study casts a new light on a selection of nineteenth and twentieth century representations of Italy and presents some of these Nordic Italies Taking into account texts of different genres poetry drama and novel and focusing on theories of representation genre and space this book examines complex and heterogeneous literary representations that cannot be reduced to a single stereotype In these texts Italy emerges both as a set of physical spaces and as a series of metaphorical concepts How are these Italian spaces and identities constructed and what do they stand for What forms does the broad concept of Italianness take in these literary works How are the Italian settings and characters as well as the aspects of Italian politics history society culture and folklore that populate so many literary texts shaped and combined Is there a relationship between specific literary genres and the way in which Italy is represented These are only some of the questions addressed by this study which demonstrates how Nordic representations of Italy express much more than unanimous praise for the sun idyllic landscapes ruins and mandolin players

The Biblical Hero Elliott Rabin, 2020-03 Approaching the Bible in an original way comparing biblical heroes to heroes in world literature Elliott Rabin addresses a core biblical question What is the Bible telling us about what it means to be a hero Focusing on the lives of six major biblical characters Moses Samson David Esther Abraham and Jacob Rabin examines their resemblance to hero types found in and perhaps drawn from other literatures and analyzes why the Bible depicts its heroes less gloriously than do the texts of other cultures Moses founds the nation of Israel and is short tempered and weak armed Samson arrogant and unhinged can kill a thousand enemies with his bare hands David establishes a centralized unified triumphal government through pretense and self deception Esther saves her people but marries a murderous misogynist king Abraham s relationships are wracked with tension Jacob fathers twelve tribes and wins his inheritance through deceit In the end is God the real hero Or is God too removed from human constraints to even be called a hero Ultimately Rabin excavates how the Bible s unique perspective on heroism can address our own deep seated need for human scale heroes
