Sacrifice In Religious Experience:

Sacrifice in Religious Experience Albert I. Baumgartner, 2018-09-24 This book presents revised papers delivered at the 1998 and 1999 Taubes Minerva Center for Religious Anthropology conferences The papers from the 1998 conference discuss the role of sacrifice in religious experience from a comparative perspective Those from the second conference examine alternatives to sacrifice The first theme has been much elaborated in recent scholarship and the essays here participate in that ongoing inquiry The second theme has been less explored and the goal of this volume is to stimulate examination of the topic by offering a set of test cases In both sections of the volume a wide variety of religious traditions are considered The essays show that in spite of the inclination we may sometimes have to consider sacrifice part of the idolatrous past long overcome it remains a persistent and meaningful part of religious experience Understanding Religious Sacrifice

Jeffrey Carter, 2003-03-01 This volume provides a thorough introduction to the major classic and modern writings dealing with religious sacrifice Collected here are twenty five influential selections each with a brief introduction addressing the overall framework and assumptions of its author As they present different theories and examples of sacrifice these selections also discuss important concepts in religious studies such as the origin of religion totemism magic symbolism violence structuralism and ritual performance Students of comparative religion ritual studies the history of religions the anthropology of religion and theories of religion will particularly value the historical organization and thematic analyses presented in this collection *The Cambridge Companion to Religious Experience* Paul K. Moser, Chad Meister, 2020-07-16 Offers a state of the art contribution by providing critical analyses of and creative insights to the nature of religious experience **Acute**

Religious Experiences Richard Saville-Smith, 2023-02-09 This book engages the problem of how in the 21st century we are to speak about experiences of the extraordinary anomalous extreme which occur on a transhistorical and transcultural basis Critical readings of seminal texts show how 20th century theoreticians in the humanities sought to erase madness from their irrational subjects This propensity to sanitize madness in the study of religions was mirrored by the instinct of psychiatrists to degrade religious experiences by reducing mad consciousness to psychosis or dissociation Richard Saville Smith introduces explanatory pluralism as a way of recognizing these disciplinary biases and mad studies as a way of negotiating this understanding The disproportionate significance of madness in shaping the fabric of the human story can then be recovered from both erasure and dismissal to be given the recognition previously denied as acute religious experiences *Acute Religious Experiences* divides into three sections beginning with readings of William James's pathological programme Rudolf Otto's numinous T K Oesterreich's possession Mircea Eliade's shamanism Walter Stace's mysticism Walter Pahnke's psychedelic experience and Abraham Maslow's peak experiences These ideas are shown to constitute the beginnings of a fractured discourse on the irrational In part two contemporary psychiatry's Diagnostic and Statistical Manual DSM and Foucault's *History of Madness* are re-read to reposition madness as not necessarily pathological

This opens the way for the identification of acute religious experiences as a new holistic and post colonial approach through which religious data can be organized and addressed on a comparative basis In part three The Gospel of Mark is re read as a case study to demonstrate the novel insights which flow from the identification of acute religious experiences Richard Saville Smith draws on his own experiences of madness and his PhD from the School of Divinity at The University of Edinburgh to elucidate his research [Ancient Mediterranean Sacrifice](#) Jennifer Wright Knust,Zsuzsanna Varhelyi,2011-08-05 An investigation of the multiple meanings and functions of sacrifice in diverse religious texts and practices from the late Hellenistic and Roman imperial periods **On Sharing Religious Experiences** Jerald D. Gort,1992 **Ninian Smart on World Religions: Religious experience and philosophical analysis. I. Autobiographical. 'Methods in my life'** Ninian Smart,2009 Ninian Smart came to public prominence as the founding Professor of the first British university Department of Religious Studies in the late 1960s His pioneering views on education in religion proved hugely influential at all levels from primary schools to academic teaching and research An unending string of publications many of them accessible to the general public sustained a reputation that became worldwide Here for the first time a selection of Ninian Smart s wide ranging writings is organised systematically under a set of categories which both comprehend and also illuminate his varied output over a career spanning half a century The editor John Shepherd was Principal Lecturer in Religion and Philosophy at the University of Cumbria He first met Smart as a postgraduate student and recently helped establish the Ninian Smart Archive at the University of Lancaster **Religious Experience and Divinization in the Sectarian Dead Sea Scrolls** Rebecca L. Harris,2025-11-20 For members of the sectarian Dead Sea Scrolls movement participation in the group would have granted an individual special privileges including present unmediated access to otherworldly realities This understanding of the present as a type of liminal space is rooted in the group s constructions of time and space Drawing on theories of liminality and anthropological research on religious consciousness this study seeks to demonstrate how sectarian identity and ritual and liturgical practice might have cultivated an experience of present communion with divine beings that was also aspirational and aimed to achieve the human worshiper s permanent incorporation into the heavenly realm **The Varieties of Religious Experience** William James,2023-11-17 In The Varieties of Religious Experience William James explores the diverse tapestry of individual religious experiences presenting a rich intimate portrayal that transcends doctrinal boundaries Written during the early 20th century in a style that blends philosophical rigor with psychological insight James employs an empirical approach to investigate the universal aspects of spirituality This text stands as a cornerstone in the field of psychology of religion intertwining personal anecdotes with scholarly evidence to delineate the often contradictory nature of faith mysticism and belief all while respecting the subjective experience of the individual William James a pioneering American philosopher and psychologist drew from his extensive academic background in philosophy and his personal encounters with religious thought including his own struggles with faith His work is heavily

influenced by a pragmatic approach to philosophy which emphasizes the importance of personal experience and the practical consequences of ideas Through *The Varieties of Religious Experience* he articulates a vision of spirituality that reflects his belief in the significance of personal interpretation and the emotional aspects of faith This seminal work is highly recommended for anyone interested in the intersections of psychology religion and philosophy James s ability to articulate complex ideas with clarity makes this text accessible to both scholars and general readers alike offering invaluable insights into the nature of belief and the multitude of ways in which humanity seeks to comprehend the divine *Social Meanings of Religious Experiences* George Davis Herron,1897 **Sacrifice in Judaism, Christianity, and Islam** David L.

Sacrifice Margo Kitts,2022-07-28 After over a century of grand theorizing about the universal dimensions to the practice of ritual sacrifice scholars now question the analytical utility of the notion writ large The word sacrifice Latin sacrificium itself frequently is broken down into its Latin roots sacer sacred and facere to do or to make to do or to make sacred which is a huge category and also vague Presuming it is people and places that are made sacred we must question the dynamics Does sacrifice make sacred by summoning the presence of gods or ancestors By offering gifts to them By dining with them By restoring or establishing cosmic order By atoning for personal or collective sins By rectifying social disequilibrium through scapegoating By inducing an existential epiphany about life and death While this short Element cannot cover all complexities and practices it does treat critically some prominent themes theories and controversies concerning sacrifice from ancient to present times

Sacrifice and Modern Thought Julia Meszaros,Johannes Zachhuber,2013-10-03 Sacrifice has always been central to the study of religion yet attempts to understand and assess the concept have usually been controversial The present book which is the result of several years of interdisciplinary collaboration suggests that in many ways the fascination with sacrifice has its roots in modernity itself Theological developments following the Reformation the rediscovery of Greek tragedies and the encounter with the practice of human sacrifice in the Americas triggered a complex and passionate debate in the sixteenth century which has never since abated Contributors to this volume leading experts from theology anthropology and literary and cultural studies describe and discuss how this modern fascination for the topic of sacrifice has evolved how it has shaped theological debate the literary

imagination and anthropological theory Individual chapters discuss in depth major theological trajectories theories of sacrifice including those of Marcel Mauss and Ren Girard and current feminist criticism They engage with sacrifice in the context of religious and philosophical thought works of literature and film They explore different yet overlapping aspects of modernity s obsession with sacrifice The book does not intend to impose a single narrative over all these diverse contributions but brings them into a conversation around a common centre
