Sacrificing The Self:

Sacrificing the Self Margaret Cormack, 2002-07-18 Acts of martyrdom have been found in nearly all the world's major religious traditions. Though considered by devotees to be perhaps the most potent expression of religious faith, dying for one's god is also one of the most difficult concepts for modern observers of religion to understand. This is especially true in the West where martyrdom has all but disappeared and martyrs in other cultures are often viewed skeptically and dismissed as fanatics. This book seeks to foster a greater understanding of these acts of religious devotion by explaining how martyrdom has historically been viewed in the world's major religions. It provides the first sustained cross-cultural examination of this fascinating aspect of religious life. Margaret Cormack begins with an introduction that sets out a definition of martyrdom that serves as the point of departure for the rest of the volume. Then scholars of Christianity, Judaism, Hinduism, and Islam examine martyrdom in specific religious cultures. Spanning 4000 years of history and ranging from Saul in the Hebrew Bible to Sati immolations in present-day India, this book provides a wealth of insight into an often noted but rarely understood cultural phenomenon.

Sacrificing the Self Margaret Jean Cormack, 2001 The Motives of Self-Sacrifice in Korean American Culture, Family, and Marriage Chul Woo Son, 2014-01-24 The concept of self-sacrifice is highly important to Korean Americans. With hierarchy of age, social status, and gender-defined roles taking primacy over equality and justice, self-sacrifice becomes instrumental in maintaining family and social relationships. Unfortunately, in family relationships, sacrifice has more to do with submission and endurance than it does with sacrificial service that is redemptive and mutually beneficial. When self-sacrifice carries hidden motives—coercive responsibility, obligation, shame, guilt, or one's reputation—that self-sacrifice is not self-giving, neither serving nor being of mutual benefit. In this context, it is important to explore the attitudes and motives of self-sacrifice in Korean American families. In unlocking and exploring the dynamics of the theology and practice of self-sacrifice for Korean Americans, this book explores cultural virtues, marital relationships, gender inequality, domestic violence, and their theological implications. The author introduces a new approach and model with a proposal for a healthier and a more judicious understanding of self-sacrifice for Korean American family relationships. The element of equal regard as pertaining to self-sacrifice offers Korean Americans a refreshing hope in the perspective of familial relationships and a liberating casting off of culturally and religiously imposed burdens. The Korean American family ought to be grounded on a love ethic of equal regard and place its value on mutuality, self-sacrifice, and individual fulfillment. When this is done, sacrificial love can be understood as justly appropriated for both husbands and wives, males and females, and parents and children. Thus, Christian teaching and theology may deliver a more transparent message of true agape and its liberating effects for the marginalized, especially women and children.

Sacrifice Inge van Nistelrooij, 2015 Caring is a moral practice, i.e., a practice in which moral goods are realized. This is one of the critical insights of the ethics of care. The idea that goods are also sacrificed in caregiving, however, is less accepted or downright rejected. Starting off with real-life stories from

literature and films this book shows that caregiving entails sacrifices even to the extent of sacrificing the self This study argues that concepts surrounding care and sacrifice need to be revised and makes proposals for re conceptualizing the subject s identity the intersubjective relation the socio political community and the role of meaning Using an interdisciplinary approach that draws upon the ethics of care theology phenomenology political theory and hermeneutics this book leads to a reappraisal of self sacrifice as vital to understanding caring

On Sacrifice Moshe Halbertal,2012-02-26 The idea and practice of sacrifice play a profound role in religion ethics and politics In this brief book philosopher Moshe Halbertal explores the meaning and implications of sacrifice developing a theory of sacrifice as an offering and examining the relationship between sacrifice ritual violence and love On Sacrifice also looks at the place of self sacrifice within ethical life and at the complex role of sacrifice as both a noble and destructive political ideal In the religious domain Halbertal argues sacrifice is an offering a gift given in the context of a hierarchical relationship As such it is vulnerable to rejection a trauma at the root of both ritual and violence An offering is also an ambiguous gesture torn between a genuine expression of gratitude and love and an instrument of exchange a tension that haunts the practice of sacrifice In the moral and political domains sacrifice is tied to the idea of self transcendence in which an individual sacrifices his or her self interest for the sake of higher values and commitments While self sacrifice has great potential moral value it can also be used to justify the most brutal acts Halbertal attempts to unravel the relationship between self sacrifice and violence arguing that misguided self sacrifice is far more problematic than exaggerated self love In his exploration of the positive and negative dimensions of self sacrifice Halbertal also addresses the role of past sacrifice in obligating future generations and in creating a bond for political associations and considers the function of the modern state as a sacrificial community

Sacrifice and Modern War Writing Alex Houen, 2024-09-05 *Sacrifice and Modern War Writing* presents the most extensive study to date of twentieth and twenty first century war writing Examining works by over 110 authors Alex Houen surveys how war writing explores sacrifice in relation to major modern and contemporary conflicts from the First World War to the War on Terror Various conceptions of sacrifice are examined including Christian Jewish Islamic and secular The discussion ranges across literary portrayals of multiple sacrificial practices including ancient rituals of child sacrifice martyrdom scapegoating and suicide bombing Houen builds an innovative interdisciplinary approach to how war sacrifice and their representations interrelate and a wide range of Anglophone literature is discussed including novels memoirs short stories essays manifestoes elegies ballads and lyric poetry Whereas critics and theorists have tended to emphasize that war's reality exceeds any attempt to represent it Houen contends that political religious and cultural frames of sacrifice have continued to play a significant part in shaping how war's reality is shaped and experienced Those frames are inextricably tied to modes of representation which include symbolism and mimesis *Sacrifice and Modern War Writing* explores how sacrificial killing in war is itself riddled with symbolic transfigurations and mimetic exchanges and it builds a fresh approach by arguing that the figurative and imaginative aspects of literary writing ironically become its very means of engaging closely with the reality of war's sacrifices That approach also develops by using the literary analyses to critique and revise various prominent theories of sacrifice and war

In Defense of Selfishness Peter Schwartz, 2015-06-02 From childhood we're taught one central non controversial idea about morality self sacrifice is a virtue It is universally accepted that serving the needs of others rather than our own is the essence of morality To be ethical it is believed is to be altruistic Questioning this belief is regarded as tantamount to questioning the self evident Here Peter Schwartz questions it *In Defense of Selfishness* refutes widespread misconceptions about the meaning of selfishness and of altruism Basing his arguments on Ayn Rand's ethics of rational self interest Schwartz demonstrates that genuine selfishness is not exemplified by the brutal plundering of an Attila the Hun or the conniving duplicity of a Bernard

Madoff To the contrary such people are acting against their actual long range interests The truly selfish individual is committed to moral principles and lives an honest productive self respecting life He does not feed parasitically off other people Instead he renounces the unearned and deals with others in both the material and spiritual realms by offering value for value to mutual benefit The selfish individual Schwartz maintains lives by reason not force He lives by production and trade not by theft and fraud He disavows the mindlessness of the do whatever you feel like emotionalist and upholds rationality as his primary virtue He takes pride in his achievements and does not sacrifice himself to others nor does he sacrifice others to himself According to the code of altruism however you must embrace self sacrifice You must subordinate yourself to others Altruism calls not for cooperation and benevolence but for servitude It demands that you surrender your interests to the needs of others that you regard serving others as the moral justification of your existence that you be willing to suffer so that a non you might benefit To this Schwartz asks simply Why Why should the fact that you have achieved any success make you indebted to those who haven t Why does the fact that someone needs your money create a moral entitlement to it while the fact that you ve earned it doesn t Using vivid real life examples In *Defense of Selfishness* illustrates the iniquity of requiring one man to serve the needs of another This provocative book challenges readers to re examine the standard by which they decide what is morally right or wrong

Sacrifice and Regeneration Yael Mabat, 2022-12 At the dawn of the twentieth century while Lima s aristocrats hotly debated the future of a nation filled with Indians thousands of Aymara and Quechua Indians left the pews of the Catholic Church and were baptized into Seventh day Adventism One of the most staggering Christian phenomena of our time the mass conversion from Catholicism to various forms of Protestantism in Latin America was so successful that Catholic contemporaries became extremely anxious on noticing that parts of the Indigenous population in the Andean plateau had joined a Protestant church In *Sacrifice and Regeneration* Yael Mabat focuses on the extraordinary success of Seventh day Adventism in the Andean highlands at the beginning of the twentieth century and sheds light on the historical trajectories of Protestantism in Latin America By approaching the religious conversion among Indigenous populations in the Andes as a multifaceted and dynamic interaction between converts missionaries and their social settings and networks Mabat demonstrates how the religious and spiritual needs of converts also brought salvation to the missionaries Conversion had important ramifications on the way social political and economic institutions on the local and national level functioned At the same time socioeconomic currents had both short term and long term impacts on idiosyncratic religious practices and beliefs

that both accelerated and impeded religious change Mabat s innovative historical perspective on religious transformation allows us to better comprehend the complex and often contradictory way in which Protestantism took shape in Latin America
