Drew Carruthers, 2022-09-01

Living in other countries provided me with an insight to what really goes on in the world and to discover what people really think. Most of the countries I lived in have barren or hostile environments, but I saw the beauty that these countries offered. I just had to look for it. Not everyone is free to live their lives the way they want, and not every country is democratic, but is it all that bad living in those countries that see the world differently to us? Is what we read or see in the media a true picture of how people live and what they think? For forty years I lived and worked in the Middle East, the jungles of Borneo, and the Special Economic Zones (SEZs) in China. Most people in the west would not visit, far less work and live in these places. My travels changed my perception of the world. Possibly reading about it will change yours.

**Pursued** Michael J Reiland, 2017-06-15

Michael Rudy is a professional assassin who is comfortable with his ruthless job until the day he decides he has had enough. After he loots cash meant for an impending drug deal and flees America for Paris to live out the rest of his days in peace, an unanticipated darkness follows him. Even after he is reunited with Stacy, the only woman he has ever loved, their reignited passion emerges from tragedy. Stacy and her associate Arnaud begin to suspect there is something too coincidental between Michael's appearance in Paris and their organizations' downfall. The wrong people are dying, and no one seems to know why or who is behind it. As Michael, Stacy, and Arnaud all attempt to follow the seemingly unconnected events, friends turn into enemies, and contacts go cold. While Michael is forced to choose between lying to Stacy or to the people who want him to kill again, Stacy is compelled to question whether her love for Michael can withstand the chaos that surrounds them. Even if they survive, will their passion for each other continue?

*Pursued* weaves betrayal and blackmail with passion and love amid the streets of Paris as a renowned assassin discovers it may be more difficult to escape his past than he realized.

[Educating All God's Children](#) Nicole Baker Fulgham, 2013-04-01. Children living in poverty have the same God-given potential as children in wealthier communities, but on average they achieve at significantly lower levels. Kids who both live in poverty and read below grade level by third grade are three times as likely not to graduate from high school as students who have never been poor. By the time children in low-income communities are in fourth grade, they're already three grade levels behind their peers in wealthier communities. More than half won't graduate from high school, and many that do graduate only perform at an eighth grade level. Only one in ten will go on to graduate from college. These students have severely diminished

opportunities for personal prosperity and professional success It is clear that America s public schools do not provide a high quality public education for the sixteen million children growing up in poverty Education expert Nicole Baker Fulgham explores what Christians can and should do to champion urgently needed reform and help improve our public schools The book provides concrete action steps for working to ensure that all of God s children get the quality public education they deserve It also features personal narratives from the author and other Christian public school teachers that demonstrate how the achievement gap in public education can be solved
