Long Sexual Revolution English Women Sex And Contraception 1800 1975:

The Long Sexual Revolution Hera Cook, 2004-02-05 In this book Hera Cook traces the path of sexuality in England and shows how its route was determined by the gradual exertion of control over fertility. Most sexual activity had major economic and social costs, the most fundamental of which was the physical cost of children upon women's bodies. Around 1800 birth rates reached historical heights. Using a combination of demographic and qualitative sources, Dr Cook examines the connection between the struggle to lower fertility and the increasing repression of sexuality throughout the nineteenth century. Contraception became a viable option in the early twentieth century. The book charts the resulting slow relaxation of attitudes to sexuality and the remaking of heterosexual physical behaviour culminating in the sexual revolution of the 1960s.

The Long Sexual Revolution Hera Cook, 2004 Hera Cook traces the path of sexuality in England and shows how its route was determined by the gradual exertion of control over fertility. [The Routledge History of Sex and the Body](#) Sarah Toulalan, Kate Fisher, 2013 The Routledge History of Sex and the Body provides an overview of the main themes surrounding the history of sexuality from 1500 to the present day. The history of sex and the body is an expanding field in which vibrant debate on, for instance, the history of homosexuality is developing. This book examines the current scholarship and looks towards future directions across the field. The volume is divided into fourteen thematic chapters which are split into two chronological sections: 1500-1750 and 1750 to present day. Focusing on the history of sexuality and the body in the West but also interactions with a broader globe, these thematic chapters survey the major areas of debate and discussion. Covering themes such as science, identity, the gaze, courtship, reproduction, sexual violence, and the importance of race, the volume offers a comprehensive view of the history of sex and the body. The book concludes with an afterword in which the reader is invited to consider some of the tensions, problems, and areas deserving further scrutiny. Including contributors renowned in their field of expertise, this ground-breaking collection is essential reading for all those interested in the history of sexuality and the body.

Bodies, Sex and Desire from the Renaissance to the Present Kate Fisher, Sarah Toulalan, 2015-12-11 An examination of how bodies and sexualities have been constructed, categorised, represented, diagnosed, experienced, and subverted from the fifteenth to the early twenty-first century. It draws attention to continuities in thinking about bodies and sex; concept may have changed but they nevertheless draw on older ideas and language. [Female Genital Cosmetic Surgery](#) Sarah M. Creighton, Lih-Mei Liao, 2019-02-21 A cross-disciplinary take on the rising phenomenon of female genital cosmetic surgery from world-leading experts in a single volume.

The Palgrave Handbook of Infertility in History Gayle Davis, Tracey Loughran, 2017-09-01 This ground-breaking interdisciplinary volume provides an overdue assessment of how infertility has been understood, treated, and experienced in different times and places. It brings together scholars from disciplines including history, literature, psychology, philosophy, and the social sciences to create the first large-scale review of recent research on the history of infertility. Through exploring an unparalleled range of chronological periods and

geographical regions it develops historical perspectives on an apparently transhistorical experience It shows how experiences of infertility access to treatment and medical perspectives on this condition have been mediated by social political and cultural discourses The handbook reflects on and interrogates different approaches to the history of infertility including the potential of cross disciplinary perspectives and the uses of different kinds of historical source material and includes lists of research resources to aid teachers and researchers It is an essential go to point for anyone interested in infertility and its history Chapter 19 is open access under a CC BY 4 0 license via link [springer com](https://www.springer.com) *'Everyday health', embodiment, and selfhood since 1950* Tracey Loughran, Hannah Froom, Kate Mahoney, Daisy Payling, 2024-10-22 What is the history of everyday health in the postwar world and where might we find it This volume moves away from top down histories of health and medicine that focus on states medical professionals and other experts Instead it centres the day to day lives of people in diverse contexts from 1950 to the present Chapters explore how gender class race sexuality disability and age mediated experiences of health and wellbeing in historical context The volume foregrounds methodologies for writing bottom up histories of health subjectivity and embodiment offering insights applicable to scholars of times and places beyond those represented in the case studies presented here Drawing together cutting edge scholarship the volume establishes and critically interrogates everyday health as a crucial concept that will shape future histories of health and medicine
