Travis, Frank Grady, 2014-01-01 Chaucer's Canterbury Tales was the subject of the first volume in the Approaches to Teaching series published in 1980 But in the past thirty years Chaucer scholarship has evolved dramatically teaching styles have changed and new technologies have created extraordinary opportunities for studying Chaucer This second edition of Approaches to Teaching Chaucer's Canterbury Tales reflects the wide variety of contexts in which students encounter the poem and the diversity of perspectives and methods instructors bring to it Perennial topics such as class medieval marriage genre and tale order rub shoulders with considerations of violence postcoloniality masculinities race and food in the tales The first section Materials reviews available editions scholarship and audiovisual and electronic resources for studying The Canterbury Tales In the second section Approaches thirty six essays discuss strategies for teaching Chaucer's language for introducing theory in the classroom for focusing on individual tales and for using digital resources in the classroom The multiplicity of approaches reflects the richness of Chaucer's work and the continuing excitement of each new generation's encounter with it Historical Ecologies, Heterarchies and Transtemporal Landscapes Celeste Ray, Manuel Fernández-Götz, 2019-04-23 Interlacing varied approaches within Historical Ecology this volume offers new routes to researching and understanding human environmental interactions and the heterarchical power relations that shape both socioecological change and resilience over time Historical Ecology draws from

archaeology archival research ethnography the humanities and the biophysical sciences to merge the history of the Earth's biophysical system with the history of humanity Considering landscape as the spatial manifestation of the relations between humans and their environments through time the authors in this volume examine the multi-directional power dynamics that have shaped settlement agrarian monumental and ritual landscapes through the long-term field projects they have pursued around the globe Examining both biocultural stability and change through the longue durée in different regions these essays highlight intersectionality and counterpoised power flows to demonstrate that alongside and in spite of hierarchical ideologies the daily life of power is heterarchical Knowledge of transtemporal human environmental relationships is necessary for strategizing socioecological resilience Historical Ecology shows how the past can be useful to the future

Retrospective Prophecy and Medieval English Authorship Kimberly Fonzo, 2022-01-27 The prescience of medieval English authors has long been a source of fascination to readers *Retrospective Prophecy and Medieval English Authorship* draws attention to the ways that misinterpreted proleptically added or dubiously attributed prognostications influenced the reputations of famed Middle English authors It illuminates the creative ways in which William Langland John Gower and Geoffrey Chaucer engaged with prophecy to cultivate their own identities and to speak to the problems of their age *Retrospective Prophecy and Medieval English Authorship* examines the prophetic reputations of these well known medieval authors whose fame made them especially subject to nationalist appropriation Kimberly Fonzo explains that retrospectively co-opting the prophetic voices of canonical authors aids those looking to excuse or endorse key events of national history by implying that they were destined to happen She challenges the reputations of Langland Gower and Chaucer as prophets of the Protestant Reformation Richard II's deposition and secular Humanism respectively This intellectual and critical assessment of medieval authors and their works successfully makes the case that prophecy emerged and recurred as an important theme in medieval authorial self representations **Envoi**, 2000 *The Uniqueness of Western Civilization* Ricardo Duchesne, 2011-02-07 This extensively researched book argues that the development of a libertarian culture was an indispensable component of the rise of the West The roots of the West's superior intellectual and artistic creativity should be traced back to the aristocratic warlike culture of Indo-European speakers Among the many fascinating topics discussed are the ascendancy of multicultural historians and the degradation of European history China's ecological endowments and imperial windfalls military revolutions in Europe 1300-1800 the science and chivalry of Henry the Navigator Judaism and its contribution to Western rationalism the cultural richness of Max Weber versus the intellectual poverty of Pomeranz Wong Goldstone Goody and A.G. Frank change without progress in the East Hegel's Phenomenology of the Western Spirit Nietzsche and the education of the Homeric Greeks Kojève's master-slave dialectic and the Western state of nature Christian virtues and German aristocratic expansionism Against All England Robert W. Barrett, 2009 This book examines poems plays and chronicles produced in Cheshire from the 1190s to the 1650s that collectively argue for the localization of British literary history
