WHY LEADERS FAIL AND PLUNGE THE INNOCENT INTO A SEA OF AGONIES AGOLA AUMA-OSOLO,2013-11 This book is a diagnosis of the cause effects of leadership failure endemic that has often plunged the innocent mankind globally into a sea of various agonies throughout all generations Because of the criticality of the failures of leadership and the crucial aim of science and professional ethic to save humanity from every danger of insecurity the book employs an interdisciplinary approach in order to not only achieve the aim but also be exhaustively thorough vis a vis the identity and behavior of the mysteries surrounding the root cause of this particular problem that seems to have always evaded full recognition of previous etiological efforts It does so in order that the root cause may no longer continue to cause further havoc to humanity with total impunity On the strength of this approach and also being cognizant to the fact that man always perishes due to either lack of knowledge or to his despise of knowledge Hosea 4 6 the book discovers that since antiquity during our patriarch Adam to the present agonies of destruction of life property and the environment caused by leadership poverty abound and is globally increasing very alarmingly on the equal proportion with the growth of our civilization which could easily lead to a global catastrophe the given presence of the monuclear weaponry These agonies arise from intra and interstate strifes and displaced persons exodus madly in search of a safe haven kleptocracy justice sale contrary to a leader's oath of office and professional ethics etc which consequently leads to the innocent's frustration anger and retaliation in the form of strikes terrorism coup d etat etc against the source of their frustration But although mankind has to date achieved commendable discoveries in both bioscience and physical science for reliable remedies to human agonies caused by both natural and man made disasters unfortunately such substantive achievements have not been witnessed in both social and behavioral sciences against the root cause of bad governance which has been the principal causal factor to perpetual man made agonies to humanity Consequently from its etiology of this bad governance the book unearths man's habitual dishonesty and disobedience to his own oath of office and God's commandment

to every leader contained in the Holy Bible under 2 Samuel 23 2 4 ordering that one must be just to all that one rules over in conformity to one's oath of office as actual root causes. The book confirms these as being responsible for all leadership failures ranging from the patriarch Adam's leadership to leadership failures of various kingdoms of Old Israel and during our own generation today. The latter include the colonial leaders followed by leaders of independent Africa who like Judas Iscariot paradoxically continue to betray and sentence their innocent African continent people to perpetual agonies of poverty diseases corruption and other various symptoms of underdevelopment and dependency in a contravention of their own original promises during their struggle for independence from colonialism and imperialism and also their own vow during their oath of office as leaders of Independent Africa. Thus the significance of this book to both academia and total humanity for their etiological efforts against the vice.

This volume offers a critical evaluation of China's programs and projects on the African continent, zooming in on whether China is preying on states and societies on the continent or if indeed she is a benevolent partner. It also examines whether many of the projects are undeniably integral to the growth and development of the continent or are mostly white elephant projects. It examines the cost/benefit of China's involvement on the continent's economic and political space and why Euro-American countries complain about the role and place of China in Africa. Bringing together mostly African scholars, the research underlines the key pros and cons of China and the Chinese involvement in the continent.
