God & Money Charles McDaniel, 2007 God Money confronts the current dominant right wing Republican evangelical Christian view that unfettered market driven capitalism and Christian faith and values are compatible Drawing on such ethical luminaries as Reinhold Niebuhr G K Chesterton Peter Berger and John Paul II author Charles McDaniel shows that to reverse the current decline in public morality capitalism must be balanced by enduring religious and moral values Challenging the captivity of Christian culture by free market global capitalism McDaniel joins other Christian ethical visionaries in advocating a redemptive economy one that champions individual human dignity true community and the moral regeneration of cultural traditions in vital dialectic with the inevitable market capitalism of the contemporary world

Passions for Nature Rochelle Johnson, 2009 Nineteenth century Americans celebrated nature through many artistic forms including natural history writing landscape painting landscape design theory and transcendental philosophy Although we tend to associate these movements with the nation's dawning environmental consciousness *Passions for Nature* demonstrates that they instead alienated Americans from the physical environment even as they seemed to draw people to it Rather than see these expressions of passion for nature as initiating environmental awareness this study reveals how they contributed to a culture that remains startlingly ignorant of the details of the material world Using as a touchstone the writings of nineteenth century philanthropist Susan Fenimore Cooper the daughter of famed author James Fenimore Cooper *Passions for Nature* reveals that while a generalized passion for nature was intense and widespread in her era cultural attention to the real physical world was quite limited Popular artistic forms represented the natural world through specific metaphors for the American experience cultivating a national tradition of valuing nature in terms of humanity Johnson crosses disciplinary boundaries to demonstrate that anthropocentric understandings of the natural world result not only from the growing gulf between science

and imagination that C P Snow located in the early twentieth century but also and surprisingly from cultural productions traditionally viewed as positive engagements with the environment By uncovering the roots of a cultural alienation from nature Passions for Nature explains how the United States came to be a nation that simultaneously reveres the natural world and yet remains dangerously distant from it *Biblical Counsel*, 1993 *Historical Dictionary of the U.S. Army* Jerold E. Brown, 2000-12-30 Having evolved over the past two and a quarter centuries to become the premier military force in the world the U S Army has a heritage rich in history and tradition This historical dictionary provides short clear authoritative entries on a broad cross section of military terms concepts arms and equipment units and organizations campaigns and battles and people who have had a significant impact on Army It includes over 900 entries written by some 100 scholars providing a valuable resource for the interested reader student and researcher For those interested in pursuing specific subjects further the book provides sources at the end of each entry as well as a general bibliography Appendixes provide a useful list of abbreviations and acronyms and a listing of ranks and grades in the U S Army

The African-American Experience in Nineteenth-Century Connecticut Theresa Vara-Dannen, 2014-03-06 The African American Experience in Nineteenth Century Connecticut examines and analyzes the African American experience in Connecticut as it was through primary sources Theresa Vara Dannen analyzes the language of real nineteenth century Americans expressing the complexity of their thoughts and feelings about the racial issues of their times in a small state with very small communities of people of color This book highlights the attitudes of ordinary people whose voices emerged sometimes heroically through their daily newspapers The meshing of these voices regarding their race related experiences provides a nuanced account of a long gone past but also gives us an understanding of twenty first century Connecticut which leads the nation in the educational and economic gap between urban and nonurban citizens and

Howey, 2020-07-31 This book investigates adaptations of The Lady of Shalott and Elaine of Astolat in Victorian and post Victorian popular culture to explore their engagement with medievalism social constructions of gender and representations of the role of art in society Although the figure of Elaine first appeared in medieval texts including Malory's *Le Morte Darthur* Tennyson's poems about the Lady and Elaine drew unprecedented response from musicians artists and other authors whose adaptations in some cases inspired further adaptations With chapters on music art and literature including parody young people's literature and historical fiction and fantasy this book seeks to trace the evolution of these characters and the ways in which they reinforce or challenge conventional gender roles represent the present's relationship to the past and highlight the power of art **Lincoln and His World** Richard Lawrence Miller, 2008-07-28 Places Lincoln in historical context Firsthand sources create an authentic portrait The Publishers Weekly, 1895 *Guide to Reprints*, 2003 K G Saur Books, 2002-10 Beyond Practical Virtue Joel A. Johnson, 2007 Why hasn't democracy been embraced worldwide as the best form of government Aesthetic critics of democracy such as Carlyle and Nietzsche have argued that modern democracy by removing the hierarchical institutions that once elevated society's character turns citizens into bland mediocre souls Joel A. Johnson now offers a rebuttal to these critics drawing surprising inspiration from American literary classics Addressing the question from a new perspective Johnson takes a fresh look at the worth of liberal democracy in these uncertain times and tackles head on the thorny question of cultural development Examining the novels of James Fenimore Cooper Mark Twain and William Dean Howells he shows that through their fiction we can gain a better appreciation of the rich detail of everyday life making the debate relevant to contemporary discussions of liberal democracy Johnson focuses on an issue that liberals have inadequately addressed whether people tend to develop fully as individuals under liberal democracy when such a regime does little formally to encourage their development He argues that though the liberal fear of state guided culture is well founded it should not prevent us from evaluating liberalism's effect on individual flourishing By extending the debate over the worthiness of liberal democracy to include democracy's effect on individual development he contends that the democratic experience is much fuller than the aristocratic one and thus expands the faculties of its citizens Critics of American democracy such as John Rawls have sought to transform it into a social or egalitarian democracy in the European style Johnson shows that neither the debate between Rawls and his communitarian critics nor the ongoing discussion of the globalization of American values adequately addresses the fundamental critique of democratic culture advanced by the aesthetic critics Johnson's cogent analysis reaches out to those readers who are ready for a more comprehensive evaluation of liberal democracy offering new insight into the relationship between the state and the individual while blazing new trails in the intersection of politics and literature W.L.
