**International Migrants in Japan** Yoshitaka Ishikawa, 2015 Japan faces multiple challenges in an era of population decline Problems such as aging and a decreasing

working age population are expected to increase in severity so tackling these challenges and examining the contributions that immigrants can make to society are vital for Japan's future. What contributions do foreign residents make to Japan especially in the labor market? How do national and local government policies effect the settlement and permanent residence of foreign nationals? Are issues such as social mobility and quality of life of foreigners the fertility of foreign women and long term trends in naturalization important? What support does Japan offer to immigrants? As a new country of immigration the need to examine such questions is growing. This book takes a geographical perspective in examining the necessity of immigration and how foreign residents are helping to alleviate the problem of population decline in contemporary Japan. Over the last thirty years Japan has become a country of immigration again. While the literature on migration to Japan is growing reliable data on the issue is still scarce. Yoshitaka Ishikawa's edited volume is a major contribution to filling this void. Overall the papers compiled in the book are a good introduction to the complex and multifaceted realities of newcomer migrants and shed light on some understudied quantitative and qualitative aspects of migration to Japan. Malaysia's Original People Kirk Endicott, 2015-11-27 The Malay language term for the indigenous minority peoples of Peninsular Malaysia Orang Asli covers at least 19 culturally and linguistically distinct subgroups. This volume is a comprehensive survey of current understandings of Malaysia's Orang Asli communities including contributions from scholars within the Orang Asli community looking at language archaeology history religion and issues of education health and social change as well as questions of land rights and control of resources. Until about 1960 most Orang Asli lived in small camps and villages in the coastal and interior forests or in isolated rural areas and made their living by various combinations of hunting gathering fishing agriculture and trading forest products. By the end of the century logging economic development projects such as oil palm plantations and resettlement programmes have displaced many Orang Asli communities and disrupted long established social and cultural practices. The chapters in the present volume show Orang Asli responses to the challenges posed by a rapidly changing world. The authors also highlight the importance of Orang Asli studies for the anthropological understanding of small scale indigenous societies in general. **Pop Culture and the Everyday in Japan** Katsuya

**Creating Subaltern Counterpublics** A-gwi Sö, 2017 This is a study of a political and social movement instigated by older Korean women in Japan beginning in the 1990s Koreans in Japan have occupied a unique position among ethnic minority groups Until recently they constituted the largest group of foreign nationals yet they have been marginalized politically socially economically and culturally Korean women are doubly disadvantaged treated as inferior to men by both Korean and Japanese society Furthermore the first generation of Korean women migrants were not educated as children rendering them functionally illiterate and thus triply marginalized Late in life when family and work responsibilities became less onerous local authorities created educational opportunities which the women took up in unexpected numbers overloading the facilities The authorities' responses effectively re-marginalized them The elderly Korean women took a stance and in the process reconstituted themselves as social and political actors This book examines that self-transformation process Series Japanese Society Series Subject Gender Studies Japanese Studies Korean Studies Migrant Studies
