Looking Backward A Critical Appraisal Of Communitarian Thought:

Looking Backward Derek L. Phillips, 2014-07-14 When social reformers blame the current ills of Western culture on the loss of community they often evoke an ideal past in which societies were characterized by shared values respect for tradition commitment to the common good and similar attributes Communitarians assert that community was prominent in the past and argue that reclaiming the role community formerly played is necessary to counter the negative effects of individualism and liberal thinking Considering the relevance of community for our moral and political life today Derek Phillips offers the first thorough critique of the historical often nostalgic claims that underlie dominant versions of communitarian philosophy Originally published in 1993 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Second International Handbook of Educational Leadership and Administration Kenneth A. Leithwood, P. Hallinger, 2012-12-06 The first International Handbook of Educational Leadership and Administration Leithwood et al was published in 1996 and quickly became something of a best seller for reference works within education Such success we suggest was at least partly due to the unprecedented global waves of concern for improving schools launched in the mid 1980s combined with a widespread belief in leadership as the single most powerful contribution to such improvement The roots of this belief can be found in evidence produced by the early effective schools research although there is a romance with leadership as an explanation for success in many non school enterprises as well During the two year period during which this current handbook was being written activity in the realms of school leadership school improvement and leadership development gained further momentum The English government created its new National College of School Leadership and several Asian nations announced new initiatives in leadership selection preparation and development
