## Loony Lawsuits:

**Lawyers, Lawsuits, and Legal Rights** Thomas F. Burke, 2002 Burke drills deep into America's unique culture of litigation and is rewarded with a powerful insight: it is not the public or even lawyers that are so darn litigious but American law itself. This meticulous dispassionate book stands not only to advance the debate but I hope to reshape it. Jonathan Rauch, author of *Government's End: Why Washington Stopped Working*, *Lawyers, Lawsuits and Legal Rights* is a fascinating study of the American penchant for public policies that rely on lawsuits to get things done. Burke's analysis is insightful and original. This book compellingly shows that litigious policies have deep roots in our Constitution, culture, and politics. Charles Epp, author of *The Rights Revolution: Lawyers, Activists, and Supreme Courts in Comparative Perspective*, Burke's authoritative book demonstrates that the highly litigious American system is not an isolated anomaly but in fact fits in with deeply rooted elements of American political culture. Where citizens of other countries rely on expert or bureaucratic judgment to resolve disputes, Americans turn to the courts. Equally novel and compelling, *Lawyers, Lawsuits and Legal Rights* marshals an impressive set of evidence and delivers a refreshingly well-written look at the state of American litigation. Frank R. Baumgartner, co-author of *Agendas and Instability in American Politics*, [Crazy Laws and Lawsuits](#) Robert Allen, 2005-06 Offers a collection of strange laws, lawsuits, and court cases including the story of the woman who sued a furniture store after breaking her ankle when she tripped over her own son or the man who sued after being bitten on the behind by a dog that he was shooting at with a pellet gun. **Multi-Party Litigation** Wayne V. McIntosh, Cynthia L. Cates, 2010 Drawing upon insights from law and politics, *Multi-Party Litigation* outlines the historical development, political design, and regulatory desirability of multi-party litigation strategies in cross-national perspective and describes a battle being fought on multiple fronts by competing interests. By addressing the potential and constraints of litigation, this book offers a comprehensive account of an international issue that will interest students and practitioners of law, politics, and public policy. *The 505 Weirdest Online Stores* Dan Crowley, 2005-04-01 Following up his hit *505 Unbelievably Stupid Web Pages*, Dan Crowley again takes on the Web's weirdest and wildest in *505 Weirdest Online Stores*. This is the ultimate guide to the Internet's strangest stores where you can spend your time and money in pursuit of dehydrated water, duct tape, fashion, and a corporate hairball. I am a Beagle. Since I can read and write, I am no ordinary Beagle. I also am very fond of Mental Masturbation. Mental Masturbation, Dear Reader, is a form of anxiety relief. It affects my ever-wandering, always-worrying, exceedingly-addictive mind that works 24 hours per day, 365 days per year. I even can confirm that Mental Masturbation manages to continue spinning an extra day.

**Distorting the Law** William Haltom, Michael McCann, 2009-11-15 In recent years stories of reckless lawyers and greedy citizens have given the legal system and victims in general a bad name Many Americans have come to believe that we live in the land of the litigious where frivolous lawsuits and absurdly high settlements reign Scholars have argued for years that this common

view of the depraved ruin of our civil legal system is a myth but their research and statistics rarely make the news William Haltom and Michael McCann here persuasively show how popularized distorted understandings of tort litigation or tort tales have been perpetuated by the mass media and reform proponents Distorting the Law lays bare how media coverage has sensationalized lawsuits and sympathetically portrayed corporate interests supporting big business and reinforcing negative stereotypes of law practices Based on extensive interviews nearly two decades of newspaper coverage and in depth studies of the McDonald s coffee case and tobacco litigation Distorting the Law offers a compelling analysis of the presumed litigation crisis the campaign for tort law reform and the crucial role the media play in this process **Un-Making Law** Jay

American manufacturing has been on the decline for at least two generations That fact is plain to any observer who travels through the Rust Belt of the Midwest where the closing of steel plants and automobile factories has created ghost towns that dot the landscape It is also clear from the dormant New England textile mills whose owners surrendered their production first to cheaper mills in the Southeast before they in turn lost out to Asian labor What caused this calamity and what can be done about it Andrew O Smith argues that we lost our manufacturing not simply to forces beyond our control such as globalization and cheaper labor overseas but as the result of misguided policies that are well within our abilities to reform for the benefit of manufacturing Examining six areas of public policy the tax system health care the legal system workers compensation government regulations and labor policy Smith demonstrates that in each of these areas current policy choices have created a hostile environment for manufacturing Grounding his arguments not in polemic or ideology but in historical analysis and current research Smith illustrates his points with real world examples to show how a New Social Compact can fix the problems that manufacturers face without sacrificing public policy goals
