**Prizes** Ruth Allen, 2019-01-22 First published in 1998 this book is the first comprehensive survey of the awards made to children's books in the English speaking world. The Volume covers nearly forty different prizes including well known and established ones such as the Newbery Award prizes instigated by the commercial sector such as the Smarties Prize as well as nationally sponsored awards and prizes for illustrators. Detailed lists are provided of the winning titles and where appropriate the runners up in each year that the award has been given. Ruth Allen also presents some fascinating and often entertaining insights into the motivations behind awards and how they are viewed by authors, illustrators, publishers, librarians, booksellers and potential purchasers. The various criteria applied by judges of these awards are also examined with an assessment of whether they have always achieved the right result. This Volume is both a useful guide for adults wishing to buy good books for children and an important tool for those researching the history of the children's book industry.

**Handbook of Early Childhood Literacy** Nigel Hall, Joanne Larson, Jackie Marsh, 2003-12-06 This volume examines early literacy research on a global scale and puts social, cultural and historical analyses in the front seat without losing sight of individual and family level matters in the process. It is comprehensive, ground breaking and provocative and should help literacy researchers to think differently about the field. Marjorie Faulstich Orellana, School of Education and Social Policy, Northwestern University. No other publication that I am aware of brings together views from such diverse disciplines contributing to a comprehensive statement about early childhood literacy. The Handbook not only reviews the current field of situated literacy but presents some important and exciting new research. It is a significant resource which promises to become a landmark text. Eve Bearne, University of Cambridge Faculty of Education. This Handbook brings together an astonishing array of writers who explore contemporary political, cultural and cognitive understandings of early childhood literacy. Literacy and literacy acquisition are broadly defined here to encompass not just traditional notions of reading and writing but multimodalities, multiliteracies and critical literacies. It is rich and comprehensive, an invaluable resource for scholars, educators and students of early childhood literacy. Elsa Auerbach, Professor of English, University of Massachusetts Boston. This book is unique in its broad consideration of topics and its global focus. I particularly appreciate how the Editors have situated current research in an historical context. They have also included development issues, pedagogy research and the newest areas of interest, critical literacy and popular culture. Diane Barone, University of Nevada Reno. The editors and their contributors place a strong emphasis on literacy as a social practice that occurs outside school settings. This broad interpretation is a healthy counterblast to the current political views and legislation in many developed countries and should be welcomed by practitioners. Another very welcome dimension is the can-do approach that celebrates young children's literacy achievements. This is an informative and insightful text for researchers and students to dip into and think about for some years to come. Marian Whithead, writing in *Nursery World*. An inspired and stimulating read aimed at researchers, academics, professionals and students in the fields of early years education and research and early childhood literacy. It will also be of interest to those working in other disciplines such as

cultural studies and sociology I think this collection of work by the range of authors some of which are the most distinguished and renowned in the field not only represents real value for money but also makes an essential in depth perceptive and invaluable contribution to this relatively new and dynamic field It offers some cutting edge contemporary and exciting material combined with well founded wisdom and indeed excellent sources for further reading British Journal of Educational Studies In recent years there has been a virtual revolution in early childhood studies with a mass of books and papers seeking to re examine and reposition childhood At the same time an equally significant area has developed within literacy studies reflecting a growing interest in the nature of literacy as a socially situated phenomenon There is increased interest in literacy as a multimodal concept in which symbolic meaning is a central concept rather than more conventional and narrower notions of literacy The Handbook of Early Childhood Literacy is central in providing access to all these different perspectives The Handbook offers a way through the vast diversity of publications on early childhood literacy by providing comprehensive and up to date reviews of research and thinking in early childhood literacy The arrangement of chapters reflects a contemporary perspective on research into early childhood literacy Major sections include the global world of early childhood literacy childhood literacy and family community and culture the development of literacy in early childhood pedagogy and early childhood literacy and researching early childhood literacy Contributions by leading authorities focus on literacy as a socially situated and global experience one that is evolving in relation to changes in contemporary culture and technological innovation **AB Bookman's Weekly** ,1997 Book-prices Current ,1892 **Children's Book Award Handbook** Diana F. Marks,2006-03-30 Diana Marks looks at children s and young adult book awards in depth The history award criteria and a biography of the person behind each of the well known awards is included Also of interest are lists of the winners in each category teaching and exploration activities reproducible teaching aides and a timeline of events leading up to the establishment of the award Information about well known awards is accompanied by information on the lesser known Pura Belpr Jane Addams etc Information is formatted in quick easy to read tables and charts suitable for classroom duplication Although some of this information is available online this is a one stop handbook that contains lesser known awards and offers activities for enriching the study of each award whether well known or not Grades K 8 **Choice** ,1977
