spiritual practices leading to the extraordinary step of his confirmation as a Sun Dance Chief by Leonard Crow Dog and other Lakota spiritual leaders

Changing Woman Karen Anderson, 1997-07-24 While great strides have been made in documenting discrimination against women in America our awareness of discrimination is due in large part to the efforts of a feminist movement dominated by middle class white women and is skewed to their experiences Yet discrimination against racial ethnic women is in fact dramatically different more complex and more widespread and without a window into the lives of racial ethnic women our understanding of the full extent of discrimination against all women in America will be woefully inadequate Now in this illuminating volume Karen Anderson offers the first book to examine the lives of women in the three main ethnic groups in the United States Native American Mexican American and African American women revealing the many ways in which these groups have suffered oppression and the profound effects it has had on their lives Here is a thought provoking examination of the history of racial ethnic women one which provides not only insight into their lives but also a broader perception of the history politics and culture of the United States For instance Anderson examines the clash between Native American tribes and the U S government particularly in the plains and in the West and shows how the forced acculturation of Indian women caused the abandonment of traditional cultural values and roles in many tribes women held positions of power which they had to relinquish subordination to and economic dependence on their husbands and the loss of meaningful authority over their children Ultimately Indian women were forced into the labor market the extended family was destroyed and tribes were dispersed from the reservation and into the mainstream all of which dramatically altered the woman s place in white society and within their own tribes The book examines Mexican American women revealing that since U S job recruiters in Mexico have historically focused mostly on low wage male workers Mexicans have constituted a disproportionate number of the illegals entering the states placing them in a highly vulnerable position And even though Mexican American women have in many instances achieved a measure of economic success in their families they are still subject to constraints on their social and political autonomy at the hands of their husbands And finally Anderson cites a wealth of evidence to demonstrate that in the years since World War II African American women have experienced dramatic changes in their social positions and political roles and that the migration to large urban areas in the North simply heightened the conflict between homemaker and breadwinner already thrust upon them *Changing Woman* provides the first history of women within each racial ethnic group tracing the meager progress they have made right up to the present Indeed Anderson concludes that while white middle class women have made strides toward liberation from male domination women of color have not yet found in feminism any political remedy to their problems

Treatments Lisa Diedrich, Creative expression inspired by disease has been criticized as a celebration of victimhood unmediated personal experience or just simply bad art Despite debate however memoirs written about illness particularly AIDS or cancer have proliferated since the late twentieth century and occupy a highly influential place on the cultural landscape today In *Treatments* Lisa Diedrich considers illness narratives demonstrating that these texts not only recount and interpret symptoms but also describe illness as an event that reflects wider cultural contexts including race gender class and sexuality Diedrich begins this theoretically rigorous analysis by offering examples of midcentury memoirs of tuberculosis She then looks at Susan Sontag s *Illness As Metaphor* Audre Lorde s *The Cancer Journals* and Eve Kosofsky Sedgwick s *White Glasses* showing how these breast cancer survivors draw on feminist health practices of the 1970s and also anticipate the figure that would appear in the wake of the AIDS crisis in the 1980s the politicized patient She further reveals how narratives written by doctors Abraham Verghese and Rafael Campo about treating people with AIDS can disrupt the doctor patient hierarchy and she explores practices of witnessing that emerge in writing by Paul Monette and John Bayley Through these records of intensely personal yet universal

experience Diedrich demonstrates how language both captures and fails to capture these scenes of loss and how illness narratives affect the literary medical and cultural contexts from which they arise Finally by examining the ways in which the sick speak and are spoken for she argues for an ethics of failure the revaluation of loss as creating new possibilities for how we live and die Lisa Diedrich is assistant professor of women s studies at Stony Brook University **Women and Health in America** Judith Walzer Leavitt,1999 Organised chronologically and then by topic this volume covers studies of women and health in the colonial and revolutionary periods through the Civil War The remainder of the book focuses on the late 19th and 20th centuries Moon South Dakota's Black Hills: With Mount Rushmore & Badlands National Park Laural A.

revealing how US power increasingly limited the autonomy of Sioux communities as the century came to a close The concluding chapters of the book offer a compelling reinterpretation of the events that led to the Wounded Knee massacre of December 29 1890
