Includes articles interviews creative writing and book reviews The Foundations of Social Order R. J. Rushdoony, 2009-11-06 The Foundations of Social Order was and remains the most unique book ever written in the history of Christendom Nothing like it has been written before and nothing like it has been written since Christian and non Christian historians have generally agreed on at least one thing about creeds and history they are not connected in any meaningful comprehensive way A few non Christian historians Harold Berman and his Law and Revolution being a good example have mentioned that the Christian creeds have been instrumental in shaping the legal views and therefore the legal structure of the West But a general study of how the creeds formed the West and its unique outlook has always been lacking the reason being that both Christian and non Christian authors are eager to constrain the significance of the creeds to the church and the history of theology Even Philip Schaff in his three volume work The Creeds of Christendom confines their value and use to the church The view of the creeds has been dualistic creeds were separated from history and history was left to follow its own course independent from the development of Christian theology and the perfection of the faith of the saints **A Sampler of Jewish-American Folklore** Josepha Sherman, 1992 In this American Folklore Series volume Josepha Sherman presents the rich and varied folklore of the American Jew This affectionate and unflinching examination of the traditions of American Jews offers insights for expert and casual students of folklore and makes an ideal gift for anyone interested in the origins of Jewish culture Includes line drawings collection notes motif index and bibliography The Triadic Structure of the Mind Francesco Belfiore, 2016-11-17 In this third edition of The Triadic Structure of the Mind Francesco Belfiore begins from the basic ontological conception of the structure and functioning of the mind or spirit as an evolving conscious triad composed of intellect sensitiveness and power each exerting a selfish and a moral activity Based on this original concept of the triadic bidirectional and evolving mind Belfiore has developed a coherent philosophical system through which he offers fresh solutions in the fields of ontology knowledge language aesthetics ethics politics and law The present third edition like

the previous one includes an extensive treatment of the topics addressed as well as the quotation of the views of the major thinkers whose thought has been discussed and reinterpreted In addition new concepts have been introduced some passages have been clarified and the style has been improved in several points The result is an original and exhaustive book which will be of interest to all philosophy scholars The Flaming Sword ,1906 **The Oxford Handbook of Animal Studies** Linda Kalof,2017 The Oxford Handbook of Animal Studies tackles the infamous animal question how can humans rethink and reconfigure their relationships with other animals Over the course of five sections and thirty chapters the contributors investigate issues and concepts central to understanding our current relationship with other animals and the potential for coexistence in an ecological community of living beings **Loren Eiseley's Writing across the Nature and Culture Divide** Qianqian Cheng,2022-12-15 For the twentieth century naturalist and poet Loren Eiseley the relationship between human beings and the natural world has become unnatural divided by the era of modern technology Loren Eiseley s Writing across the Nature and Culture Divide analyses how the philosopher of science becomes a boundary crosser in time and space Qianqian Cheng points to Eiseley s method of uniting science and the humanities to reflect on human evolution and the past and future role of science with a visionary and poetic imagination Seizing the connectedness of living beings Eiseley and now Cheng makes us aware of the presence of nature even in daily urban life Qianqian Cheng unveils Eiseley s merits showing the poet as a necessary voice in the urgent mission to make individuals realize their responsibility to respond ethically to the living world English Prose and Verse from Beowulf to Stevenson Henry Spackman Pancoast,1915
