Peter Drucker John E. Flaherty, 1999-09-17. A Definitive Overview of Peter Drucker's Contributions to Management. Flaherty has accomplished the impossible: making a systematic thinker out of me. I am particularly impressed by his skill in balancing chronology and themes, and that over a sixty-year time span, I have learned a great deal about my work from this book. Peter F. Drucker: Peter F. Drucker is the organizational thought leader of the twentieth century. For the sake of our economy, our community, and our society, every citizen needs to be familiar with his work. John Flaherty's book is both an intellectual adventure and a practical guide to Peter Drucker's thinking. Drucker Foundation for Nonprofit Management. At last! This much-needed comprehensive review of Drucker's thought will prove invaluable for those seeking a course in Drucker 101. Sally Helgesen, author of *The Web of Inclusion: Building a New Architecture for Great Organizations*. Schlesinger, senior vice president for development and professor of sociology and public policy, Brown University. To leaders, students, and admirers everywhere, he is the father of modern management and the man who invented corporate America. Management and the Executive , 1979 **The Executive** United States. Department of the Army, 1966 *Thinking Skills* , **Fashion and Utopia in Management Thinking** René ten Bos, 2000-09-15 Why is it that people in organizations seem to be so vulnerable to management fashion and guruism And why is it that both phenomena are loathed in traditional academic thinking about management and organization In this book Ren ten Bos argues for a more philosophical rather than scientific understanding of management fashion In doing so he questions the positivist and utopian orthodoxies that have pervaded management thinking Ten Bos contends that management fashion is a cultural phenomenon that deserves serious reflection not only because it is so immensely widespread but also because it seems to satisfy particular philosophical needs among its consumers Building upon some rather unusual sources in postmodern theory the author argues that management fashion might encourage the practitioner to engage in philosophical self experimentation and to adopt alternative forms of understanding However it is also argued that management fashion often fails to keep up to this promise because it remains paradoxically incapable of laying off its rationalist cloak Ren ten Bos is a philosopher and management consultant He works for Schouten Nelissen and took his PhD at the Catholic University of Brabant
