In Search of the Silk King Maya Herman, 2005-08-24 Maya Herman In Search of The Silk King A Novel Among many stories I heard in Southeast Asia the most fascinating is the story of the legendary American silk king of Thailand Jim Thompson It is as mysterious as Asia itself The name Jim Thompson seemed to follow me from the first moment I arrived in Bangkok The more stories and rumors I heard the more I became fascinated by them They had all the ingredients of a good novel or a major movie romance mystery glamour exotic locations and more The legend of the silk king and his disappearance remains as mysterious today as it was in 1967 No clues were ever found Only unanswered questions remained Using poetic license I decided to write a novel that might answer some of them As such the novel is very loosely and only in part based on the real life of Jim Thompson as I learned of it primarily through living in Bangkok traveling extensively throughout Southeast Asia and writing about it in my book of travel essays The Jade Window Bangkok 1998 It is also in part based on the information I gathered in my research from the newspaper articles on Thompson William Warren s indispensable biography of him on the interviews with Warren and Henry Thompson through Alexander Macdonald s notes and OSS archives for all of which I am immensely grateful Still my Jim Thompson is not a historic but a fictional character In Search of The Silk King is a work of fiction written in many voices that are tempered with the measure of truth Any errors biographical historical intended or otherwise are solely mine This is the story of an adventure told in hero s voice and in various voices of the people who knew him It is also the story of his life that had the sweep of a historical romance and the power of a heroic quest As Jim Thompson s absorbing tale unfolds the reader discovers what happened after his disappearance how he succeeded and suffered and eventually found the truth It is a novel of suspense of fate and love lost and found The Jim Thompson of my novel thinks of himself as an ordinary man in extraordinary circumstances There are on the tapes he sent from his after life in exile to a journalist friend his memories of the past his childhood desire to travel to exotic places of his first and greatest love of his marriage As a young man Jim went to New York and worked as an architect He met Vera a Russian ballerina and fell in love with her He gave her a brooch designed as a pair of ballet slippers made of emeralds and diamonds as a token of his great love When Vera decided to go back to her old lover she returned one of the

two slippers Jim kept the slipper as the memento of his love that would prove to be fatal After the breakup Jim tried to find a new direction in life He married a woman he barely knew and enlisted in the Army This was his way of escaping the loss of his first great love that would mark his whole emotional life He went to Africa where he worked for the OSS with Maurice a half French half Laotian mystery man Not eager to return home Jim volunteered to go to Southeast Asia This was the real beginning of his journey He fell in love with Bangkok and wanted to stay there even after the war was over His wife Pat did not share his enthusiasm and agreed to a divorce Jim returned to Bangkok with a plan to renovate the Oriental hotel He did not succeed in that but found his true vocation in a forgotten art of silk making Jim almost single handedly revived the Thai silk industry and became the most successful American businessman in Thailand There is a story about silk Jim s life seemed full He built a beautiful house and opened a new store He seemed to have finally found his fulfillment He had a beautiful young mistress Nicole and seemed

Diane Manning,2011-05-19 This book is dedicated to men and women of the 21st century who are entering or already part of the so called golden years It describes the changes that have occurred over the years that affect our retirement years physically mentally emotionally socially and economically The author includes a bibliography citing many resources for seniors as they struggle to cope with the aging process Most of all the book communicates a message of hope for our future and the important role that seniors play in the future Testament of the Dead Vincent Macraven,2014-03-13 Testament of the dead centers on eight persons who are now among the nonliving Telling their tales of having once lived the now dead watch Jeff Having seen the atrocity he has committed the dead are assigned to haunt the living See Jeff grow from a disturbed child into a disturbed man learn of his crime against his fellow man and watch the dead pick apart the remains of Jeff s sanity Read a tale giving voice to the dead who would otherwise remain silent listen to their stories see their haunting and watch the living bleed and be driven to madness For we are all being watched **Soul Search** David Darling,2012-08 What happens when we die Does everything we are just stop Is consciousness lost forever Or does some vital spark inside us a spirit or a soul live on We find it almost impossible to think about not having a mind of our awareness being snuffed out like a candle Yet the stark fact is that within a century or so everyone alive today all six billion of us will be dead Humans are the only creatures on earth that know they are going to die But that foreknowledge has come fairly recently and it flies in the face of four billion years of evolution Those eons have genetically conditioned us to do all we can to preserve ourselves and our kin The result is that we are caught in a dilemma We are programmed to survive by our genes yet made painfully aware of our mortality by our forward looking brain If we admit that death is inevitable then our will to survive may be fatally weakened On the other hand if we deny death we have to turn a blind eye to a patent fact of the real world Only one avenue of escape is possible belief in an afterlife With this we can face the nightmare that death poses to the rational mind We distance ourselves from death by institutionalizing it Whereas in earlier times most people spent their last days at home in the bosom of family and friends today four fifths of us are removed to hospitals or nursing homes We are hidden from the gaze of the young and healthy and tended to by strangers As the end approaches we are discreetly moved to wards for the terminally ill and plugged into life support machines Technology takes over And when we do eventually die it is often the inadequacy of the equipment or the shortcomings of the treatment that are blamed Instead of accepting death as a natural and inevitable fact of life we are in danger of convincing ourselves that given

Shackled Fates Thilde Kold Holdt,2021-10-26 As Ragnarok looms the trickster Loki breaks free from his chains In the battle to come all shall die but Ragnar will do anything to save his gods Einer scours the nine worlds for Hilda who walks among gods and goddesses searching the truth of the Runes For centuries Siv has run from her past but she knows that to protect her daughter and Midgard she will have to face her worst fears It is time to confront the Alfather Persons and Immortality Kenneth A. Bryson,2022-02-07 The religious belief in personal immortality depends on the evidence for the existence of God an immaterial soul or mind and human nature We also need to support the view that God will always want to maintain relationships with us in the afterlife So immortality is a hard sell The suffering of innocent victims suggests that the existence of a loving God is not self evident Furthermore the soul's separation from the body at death raises the troublesome problem of personal identity How can that be me in the afterlife without my body The tradition from Plato to Descartes plants the seed of personal immortality in our rational nature But the deconstruction of human nature suggests that our species is not special Yet the belief in immortality lingers The first step in the reconstruction of personal immortality is found in systems theory or belief that the whole individuates the part This view suggests that we are the outcome of relationships rather than eternal natures entering into relationships We are the product of relationships taking place at three basic levels 1 In psyche where being human is the result of a tendency toward good and evil 2 As social entities where the existence of other human beings individuates us 3 In being's unconcealment where the intelligibility of things provides a foundation for epistemic life Heidegger's view of the nothing or horizon surrounding being allows us to identify God as creator entering into

personal relationships with us a view supported by contemporary science That will be me in the afterlife if the relationships that individuate me in my pre mortem state continue into my post mortem existence The reversal in being s unconcealment suggests that human death continues the cycle of personal existence

Searching for Eternity

Donald R. Morse,2000 What happens when we die Do we simply cease to exist with our consciousness obliterated for all eternity Or do we have an enduring soul that can continue to experience awareness and some form of ongoing life Does God exist Without a creator how can the universe exist What is the purpose of the universe and what is its ultimate fate Does our

behavior in day to day life really influence what happens to us after we die Why do many people believe in a heaven and a hell What is the basis of these beliefs Should we be anxious about our death or just enjoy life in the here and now Can these ultimate mysteries be solved by science What does science already know about the mysteries of creation Sooner or later all of us will face the stark reality of death Many people go through life with an increasing awareness and increasing anxiety about their eventual fate Dr Don Morse a scientist who believed in the absolute finality of death did too Then his near death experience led him on a quest to uncover what science knows about the nature of death Dr Morse's subsequent spiritual journey led him through the entire realm of science and religious beliefs until he came to an inescapable conclusion Some form of an afterlife must exist Join Dr Morse as he summarizes the vast research and data leading to this conclusion Near death and out of body experiences experiments creating apparitions research attempting to weight the soul and the wide range of ancient and modern spiritual concepts are all covered in this masterful comprehensive scientific quest for truth back cover

Within you Without you Gerard Leahy, 2023-07-21 The words of some of the great Beatles songs were the crutch which helped guide me through the chasm of establishing my self identity and validity as a part of the human race Within You Without You examines the knowledge and universal being that exists within us and its relationship to the perceived world without us It is a self help book which enables the reader to understand and realize their full personal potential We look at the relationship between our internal being and the thoughts which course through our minds We examine the clash between the universal knowledge within and our sense perception of the world without We compare the contented acceptance of the consolations of society without with the creative destruction coming from within We look at the myths of religion philosophy and science and the ways in which they shape our self perception We see how important our individual consciousness is in shaping the universe Within You Without You will help you understand your vital role in the world around you
