Christ and the Human Soul Rudolf Steiner, 2023-07-05 10 Lectures in Copenhagen and Norrköping May 23 30 1912 July 12 16 1914 CW 155 Spiritual science does not want to replace Christianity rather it aims to be the instrument through which the meaning of Christianity can be grasped And one thing that will become particularly clear through spiritual science is that the being whom we call Christ must be recognized as the center of life on earth and that what we call the Christian faith is the ultimate religion the eternal religion for the future of the earth Rudolf Steiner July 13 1914 This collection of lectures from 1912 and 1914 offers a deepened understanding of the being of Christ the divine Logos in his connection with individual human souls From religious figures such as John the Baptist and Saint Francis to the twentieth century poet Christian Morgenstern these lectures reveal how Christ works with and through all who seek him The Pauline statement Not I but Christ in me becomes an inner guide by which each human soul can find a way to intimate union with the Christ being It is he who has the power to make our ideals and goals in life if they are worthy into true seeds of future reality The time of faith has come and gone Christ needs our conscious striving our effort to understand within the heart s deep core his ongoing presence and activity in the further evolution of our spiritual Earth and in our journey toward humanness These lectures are a comfort and a signpost for the soul to walk the inner path of communion with Christ for the healing and redemption of the earth We may be able in the end to redeem the karma accrued by our own individual souls but for our spiritual work to be fruitful for all humanity it must be brought into connection with Christ What we take into ourselves in such a way that it is done from the perspective of Not I this is what Christ makes into a common possession for all humanity July 14 1914 To know Christ means to undergo the school of selflessness Under the influence of materialism the selflessness of humanity was lost in a way as will be understood in future ages of humanity However through absorption in the Mystery of Golgotha the penetration of the knowledge of the Mystery of Golgotha with our whole feeling and soul being we can once again acquire a culture of selflessness We can come to understand that what Christ did for the development of the Earth is contained in the fundamental impulse of selflessness and that what he can become for the conscious development of the

Deeper Mysteries of the Soul Abigail Gabriels, Ebenezer Gabriels, 2019-10-14 All that man does in the body is being accounted to the soul Every thought powered by the mind is being accounted for by the soul The soul is the seat of life When the sinner declares that Jesus is Lord the soul is of the sinner is redeemed and saved Jesus teaches that there comes a day when the soul of every human will be requested from them When the flesh returns to dust and the spirit departs from the body the soul will either live or perish Today's believer whose soul has been redeemed must go deeper to understand that the purchase of their soul was costly and the connection to the soul must not be lost The believer will learn lessons to protect the soul from enemy infiltration empowered by the Holy Spirit The believer will also learn that the fruits of the spirit's love joy spirit patience kindness goodness and faithfulness is all supplied by the Lord through Holy Spirit and resides in the soul of man Deeper Mysteries of the soul is the revelation given to Ebenezer Abigail Gabriels by the Holy Spirit about the soul to enrich lives of believers

The Secret Tradition of the Soul Patrick Harpur, 2011-10-18 In *The Secret Tradition of the Soul* author Patrick Harpur argues that answers to life's most difficult questions the meaning of life the nature of self and the existence of an afterlife can be met by a visionary tradition that runs through Western culture from Greek philosophy and Renaissance alchemy to Romantic poetry and modern depth psychology This hidden tradition according to Harpur places our soul at the center of the universe and emphasizes imagination the collective unconscious and an otherworld or afterlife above all it teaches us how to know ourselves and how to recover a sense of meaning largely lost today Harpur shows how this tradition drives the literature of otherworld journeys from the flights of shamans and the dreams of psychoanalysis to the mystic imagination of Romantic poets and the visions of those having near death experiences *The Secret Tradition of the Soul* is the first book to gather together all the threads of the soul tradition and weave them into a bigger clearer picture presenting a worldview at once ancient and revolutionary About the Imprint EVOLVER EDITIONS promotes a new counterculture that recognizes humanity's visionary potential and takes tangible pragmatic steps to realize it EVOLVER EDITIONS explores the dynamics of personal collective and global change from a wide range of perspectives EVOLVER EDITIONS is an imprint of North Atlantic Books and is produced in collaboration with Evolver LLC

The Science of the Soul in Colonial New England Sarah Rivett, 2012-12-01 *The Science of the Soul* challenges long standing notions of Puritan provincialism as antithetical to the Enlightenment Sarah Rivett demonstrates that instead empiricism and natural philosophy combined with Puritanism to transform the scope of religious activity in colonial New England from the 1630s to the Great Awakening of the 1740s In an unprecedented move Puritan ministers from Thomas Shepard and John

Eliot to Cotton Mather and Jonathan Edwards studied the human soul using the same systematic methods that philosophers applied to the study of nature In particular they considered the testimonies of tortured adolescent girls at the center of the Salem witch trials Native American converts and dying women as a source of material insight into the divine Conversions and deathbed speeches were thus scrutinized for evidence of grace in a way that bridged the material and the spiritual the visible and the invisible the worldly and the divine In this way the science of the soul was as much a part of seventeenth and eighteenth century natural philosophy as it was part of post Reformation theology Rivett s account restores the unity of religion and science in the early modern world and highlights the role and importance of both to transatlantic circuits of knowledge formation *The Herald of the Cross* J.
